My Holy War Dispatches From The Home Fro:

My Holy War Jonathan Raban, 2006 Today once ordinary occurrences a ship entering a harbor a low flying jetliner have taken on a sinister cast Yet as the creeping intrusions of the war on terror alter the texture of daily life Jonathan Raban points out that homeland security remains a bemusing mixture of the politically opportunistic the theatrical and the potentially effective Writing from a city vulnerable to terrorism yet suspicious of how it is being protected he brings wit skepticism and mordant observation to bear on all that we are now being told to consider normal as America proceeds on its vengeful warpath **BOOK JACKET** **Jezebel** Lesley Hazleton, 2009-03-17 There is no woman with a worse reputation than Jezebel the ancient queen who corrupted a nation and met one of the most gruesome fates in the Bible Her name alone speaks of sexual decadence and promiscuity But what if this version of her story handed down to us through the ages is merely the one her enemies wanted us to believe What if Jezebel far from being a conniving harlot was in fact framed In this remarkable new biography Lesley Hazleton shows exactly how the proud and courageous queen of Israel was vilified and made into the very embodiment of wanton wickedness by her political and religious enemies Jezebel brings readers back to the source of the biblical story a rich and dramatic saga featuring evil schemes and underhanded plots war and treason false gods and falser humans and all with the fate of entire nations at stake At its center are just one woman and one man the sophisticated Queen Jezebel and the stark prophet Elijah Their epic and ultimately tragic confrontation pits tolerance against righteousness pragmatism against divine dictates and liberalism against conservatism It is in other words the original story of the unholy marriage of sex politics and religion and it ends in one of the most chillingly brutal scenes in the entire Bible Here at last is the real story of the rise and fall of this legendary woman a radically different portrait with startling contemporary resonance in a world mired once again in religious wars From Heaven to Arcadia Ingrid Drake

Rowland, 2005 Polymathic Renaissance scholars such as Girolamo Cardano Giordano Bruno Galileo and Athanasius Kircher **Of Virgins and Martyrs** David Jacobson, 2013-01-31 Explores the role of women s status bodies and sexuality in global conflicts Women s bodies have become a battleground Around the world people argue about veiling schooling for Afghan girls and SlutWalk protests all of which involve issues of women s sexuality and freedom Globalization with its emphasis on human rights and individuality heats up these arguments In *Of Virgins and Martyrs* David Jacobson takes the reader on a fascinating tour of how self identity developed throughout history and what individualism means for Muslim societies struggling to maintain a sense of honor in a globalized twenty first century Some patriarchal societies have come to see women s control of their own sexuality as a threat to a way of life that goes back thousands of years Many trace their lineage to tribal cultures that were organized around the idea that women s virginity represents the honor of male relatives and the good of the community at large Anyone or anything that influences women to the contrary is considered a corrupting and potentially calamitous force Jacobson analyzes the connection between tribal patriarchy and Muslim radicalism through an

innovative tool the tribal patriarchy index This index helps to illuminate why women's sexuality dress and image so compel militant Muslim outrage and sometimes violent action revealing a deeper human story of how women's status defines competing moral visions of society and why this present clash is erupting with such ferocity

Frustrated Empire David Ryan, 2007-08-20 Examining the broad contexts of US foreign policy and the lingering aftermath of the Vietnam War David Ryan argues that these events created an opportunistic framing of 9/11 paving the way for the long held neo conservative desire for regime change and war in Iraq He examines the construction of the cultural framework for war following 9/11 the legitimacy of military force in Afghanistan the rise of anti Americanism within the broader contexts over the struggle over legitimacy identity and leadership Turning the clash of civilisations thesis on its head Ryan presents a careful analysis of the evolution of US foreign policy and its engagement with Iraq through the 1980s While 9/11 provided the opportunity the post Vietnam context provides a more pertinent framework for this reflection on the Gulf War the Iraq War and the strategic implications for US foreign policy

Sayyid Qutb and the Origins of Radical Islamism John Calvert, 2009-11-22 Sayyid Qutb 1906-1966 is considered one of the most influential ideologues of radical Islamism This biography rescues Qutb from the label of terrorist by offering a sophisticated analysis of his thought It offers a view into the world of British colonialism the birth of Egyptian Muslim Brotherhood and the growth of radical Islam

Orientalism and Conspiracy Arndt Graf, Schirin Fathi, Ludwig Paul, 2010-11-30 The relationship between Islam and the West has frequently been subject to misunderstanding and mistrust and recent events in the international arena have only deepened this perceived divide culturally and politically The West often views the Islamic world and the Islamic world the West through a prism of mutual suspicion In such conditions conspiracy theories can flourish on both sides of the cultural fence but these highly complex and important global phenomena have been the subject of surprisingly little investigation Orientalism and Conspiracy explores fully for the first time the relationship between the sometimes controversial concept of Orientalism as developed by Edward Said and contemporary conspiracy theories and includes Robert Irwin's fascinating survey of the role of secret societies in orientalist mythology The authors offer a comprehensive and ground breaking study of the conspiracy theory and Islam It is essential reading for those seeking to understand historical and contemporary relationships between the East and West as well as the enduring and controversial legacy of the concept of Orientalism

The Global Remapping of American Literature Paul Giles,2018-06-12 This book charts how the cartographies of American literature as an institutional category have varied radically across different times and places Arguing that American literature was consolidated as a distinctively nationalist entity only in the wake of the U S Civil War Paul Giles identifies this formation as extending until the beginning of the Reagan presidency in 1981 He contrasts this with the more amorphous boundaries of American culture in the eighteenth century and with ways in which conditions of globalization at the turn of the twenty first century have reconfigured the parameters of the subject In light of these fluctuating conceptions of space Giles suggests new ways of understanding the shifting territory of American literary history ranging from Cotton Mather to David Foster Wallace and from Henry Wadsworth Longfellow to Zora Neale Hurston Giles considers why European medievalism and Native American prehistory were crucial to classic nineteenth century authors such as Emerson Hawthorne and Melville He discusses how twentieth century technological innovations such as air travel affected representations of the national domain in the texts of F Scott Fitzgerald and Gertrude Stein And he analyzes how regional projections of the South and the Pacific Northwest helped to shape the work of writers such as William Gilmore Simms Jos Mart Elizabeth Bishop and William Gibson Bringing together literary analysis political history and cultural geography *The Global Remapping of American Literature* reorients the subject for the transnational era

Ethics of Alaska Travel Writing since 1959 Benjamin Ferguson,2025-08-28 This book digs into environmental themes in Alaska travel writing since U S statehood in 1959 drawing on the works of six authors including Barry Lopez Jonathan Raban Tom

Lowenstein and others Each work though disparate in style advocates for the empowerment of the Alaska Native people by connecting not only with diverse perspectives but with the lived realities in the geographical spaces that have formed them In analyzing how these authors have succeeded in depicting the realities of alterities and where they have perhaps fallen short by more recent standards we may begin to carve out a system of ethics This is important as fresh waves of travel writers search for their own place in the environmental conversations surrounding the ever evolving 21st century Arctic and its place on the front lines of a changing climate

[The Consequences to Come](#)
Robert B. Silvers, Michael Shae, 2008 For the past seven years The New York Review of Books has critically examined the Bush administration's policies at home and abroad In this collection of essays nine of the Review's contributors assess the human and political costs of the war on terror and the occupation of Iraq and look ahead to the issues shaping the 2008 election campaign The presidency of George W Bush as Jonathan Freedland noted has created a near consensus that the invasion of Iraq was a calamity and has reduced America's standing in the world and made the United States less not more secure Joan Didion described Vice President Dick Cheney as the central player in the system of willed errors and reversals that is the Bush administration Peter Galbraith argued that from the beginning of the occupation of Iraq Bush facilitated the very event he warned would be a disastrous consequence of a US withdrawal from Iraq the takeover of a large part of the country by an

Iranian backed militia As the presidential campaign got underway Michael Tomasky explained that despite Bush s failures and the discrediting of Republican governance there is every chance that the next Republican president should the party s nominee prevail will be just as conservative as Bush has been perhaps even more so And Frank Rich predicted that it would take the Democrats full powers of self immolation to lose the White House in 2008 The Consequences to Comecontributors Joan Didion Joseph Lelyveld Mark Danner Peter Galbraith Jonathan Freedland Jonathan Raban Frank Rich Michael Tomasky Arthur Schlesinger Jr The Book Review Digest ,2006 *Глобальный пересмотр карты американской литературы* Пол Джайлз,2024-05-28 1981 **Access** ,2006 The Publishers Weekly ,2005
