Mental Health and Spirituality in Later Life Elizabeth MacKinlay, 2003 Explore pastoral strategies for dealing with mental health problems Mental health is increasingly being recognized as an important issue in later life This valuable book will help you examine this dimension of aging in the context of pastoral spiritual and cultural issues It explores the relationship between mental health spirituality and religion in later life including the search for meaning cultural issues spiritual issues depression dementia and issues of suicide in older people The first part of *Mental Health and Spirituality in Later Life* focuses on theology ethics and cultural issues in mental health and aging The second part addresses issues of multidisciplinary practice including a challenging chapter written by a woman with early onset dementia Alzheimer s and other chapters that present perspectives on the uses and meanings of ritual and symbolism in mental health and pastoral approaches to care Part one of *Mental Health and Spirituality in Later Life* deals with issues of theology culture and mental health in later life focusing on the importance of a richly textured understanding of personhood as a prerequisite for constructing a picture of late life mental health in the context of theology the relationship between culture spirituality and meaning for older immigrants and their effects on mental health the adverse effects of a mental health system that reflects only the dominant culture of a society leaving minority cultures vulnerable to misdiagnosis and inappropriate treatments that can do more harm than good a wholistic picture of aging that moves beyond the biomedical paradigm and demonstrates the power and potential of the human spirit in adjusting to and moving beyond suffering Part two of this valuable book addresses issues of concern to practitioners in mental health and spirituality for the aging including disruptive behavior among nursing home residents and

common practices that fail to identify its causes or address the problem how some staff resident interactions can produce suffering for all concerned with case study outlines that illustrate the point memory loss and its effect on spirituality self worth and the faith community pastoral care for people suffering with dementia with practical information on helping them to make use of the power of prayer and to deal with loneliness fear and disempowerment an insightful look at a recent major study of residents in aged care facilities in Australia that explores the link between depression and spirituality risk and protective factors associated with suicide in later life and the treatment of depression pastoral interventions for depression and dementia

The Abolition of Christianity Mark Walia, 2022-05-26 Thanks to a wave of militant secularism now sweeping across America and the entire Western World Traditional Christianity stands on the verge of destruction Secularism has already triumphed on multiple fronts be it abortion euthanasia homosexuality or the right to sexual freedom and aspires to further revolutionary changes including elimination of marriage the family and gender itself That is the provocative message set forth in Mark Walia's *The Abolition of Christianity* Tailor made for people of faith seeking to understand exactly why our culture has become so hostile towards Christian principles this lively book will also appeal to anyone who enjoys controversial material on religion and politics

The Lived Experience in Mental Health Gary Morris, 2016-09-15 The importance of recognising the knowledge and the needs of service users and engaging them more proactively within the care process is now widely acknowledged but it is not always clear how this can come about *The Lived Experience of Mental Health* highlights individuals own lived and felt mental health experience in order to share their expertise about mental health problems and the care offered This text begins by exploring the importance of engaging with the internal world of those living with various mental health problems and reflecting upon personal narratives as means of expressing and sharing experience as well as the status of these narratives as evidence The central section of the book looks at five commonly experienced mental health states anxiety problems depression mood extremes states of altered reality linked for example with psychosis and schizophrenia and impaired cognition linked for example with dementia The chapters look at how the mental state in question is experienced including the experience of it in the context of the wider world where health and social care services and the responses of other people play a part Drawing on personal narratives from a wide range of sources this text foregrounds the voices of experts by experience and relates them to the academic literature The narratives collectively convey a breadth of experience including both concepts of struggling and living well with mental health issues The book ends by outlining resources where a range of first person narratives can be accessed from online forums to films and providing a strategy for teaching and learning associated with the exploration of lived experience narratives Designed for health professionals working with people experiencing mental health problems this illuminating text uses personal narratives to emphasise the importance of person centred care and participation by services users in their own care It will also be an interesting read for experts by experiences themselves as well as their families and friends

Laughing Your Way Through Alzheimers Savanna Jones, 2017-11-10 When my mother was first diagnosed with Alzheimer's everything seemed to be fine Other than forgetting a few things here and there her behavior appeared normal But then I received a call from my sister telling me that when she got home Mom had disappeared She called the police and discovered that she had decided to take a late night walk and was found three miles away from the house It was then that we discovered she could no longer be left alone Once people knew about my mother's condition they suggested different movies for me to watch After seeing these movies had I been a candidate for suicide I would have jumped right off the cliff Watching my mom go from a thriving adult to a helpless child was heartbreaking enough After spending months crying about my mom's condition I had an epiphany I could continue grieving over her or I could look at the things that made me laugh about her instead of the things that made me cry Looking at her disease from this perspective changed everything Taking care of her was no longer a burden but a joy It was also a way for me to give back to someone who had spent their lifetime giving to me This book is dedicated to caregivers everywhere I hope it will inspire encourage and strengthen you as you take care of your loved ones No matter what the disease I hope your perspective will be to focus on the things that make you laugh instead of cry
