(HB) Terry Wells-Jones, 2022-10-12 Reflections Looking in the Mirror By Terry Wells Jones Born in the era of Jim Crow segregation Terry Wells Jones grew up in a small town in the Deep South Even from a young age this Black girl knew she was destined to overcome the obstacles that faced her Through her faith belief hope stamina and grit Terry overcame a traumatic experience and countless roadblocks to become one of the first Black models in the mid 1960s She also became the first woman hired by a Fortune 500 company in a sales position Breaking through the glass ceiling opening doors for other women in a male dominated world Terry Wells Jones fought many battles to reach her level of success in business while also cultivating a happy family life In this memoir Terry shares the philosophies that helped her on her journey as well as the disappointments and opposition she faced along the way This is her astounding success story      **411 ... the Terrorists Within** Janie Chenevert, 2008-09-03 How this book came to be I had just returned from the doctors after the second diagnosis of cancer I called all my family and informed them of the situation My husband and I sat and talked and cried and tried to make sense of the whole situation My daughter and son came by to see how I was and to give support I was numb despair set in and I was just going through the motions of being normal That night as I retired I prayed for peace insight strength and the ability to endure what lied ahead of me It was October of 2003 While I was asleep the title 411 Terrorists Within kept popping in and out of my mind Then the story started to unfold almost like a movie I would wake up and return to sleep Over and over the same dream I finally got up and sat in the dark for some time praying crying and thinking of what was going on in my head I finally got a tablet and began to scribe all this information and the title and feelings going on inside my mind and heart I wrote and cried until my fingers hurt and my eyes were so swollen I couldn't see anymore I put the tablet aside and went back to bed I was finally able to get some much needed rest When I woke up later that morning I was sitting with my husband having coffee when I remembered the tablet I picked it up and tried to read it It was too fresh too hard to read at that time I sat it aside and continued the day A few days later I picked up the tablet again read it and decided to type it on my computer I shared it with my husband daughter son mother and sisters It was just my thoughts and feelings I wanted to share with them I shared it with one of my doctors and was urged to have it published She thought It would be very beneficial to patients survivors and care givers as insight to the honest feelings of one going through such an ordeal not just cancer patients I shared it with a cousin who is a published poet and author and she thought it was worthy of publication also It took 5 years to get the heart to complete the story and here it is I do hope it serves a purpose and maybe a hint of insight to raw feelings of one facing the uncertainty of one's future with the news of a devastating medical or physical ordeal      **Ordinary Life** Kathlyn Conway, 2025-06-25 This book is a striking departure from

the literature of illness as well as a remarkable literary work in its own right The stories we typically hear about people coping with serious illness are set up as heroic tales that emphasize the victim's triumph over adversity or even portray the experience of illness as a transformative event that makes the survivor a better person In this compelling account written from within an illness Kathlyn Conway gives us a deeply honest description of her own struggle with breast cancer and its many reverberations through her everyday life bringing us to the heart of the experience of illness without preachiness or sentimentality Conway did not experience breast cancer as a means for reevaluating her life but rather as a terrible threat to her future and that of her family Making difficult choices among treatment possibilities dealing with nurses doctors and lab technicians undergoing a mastectomy and enduring chemotherapy Conway discovered that although she wanted to play the part of the brave long suffering patient she could not Angry and upset much of the time overwhelmed by her situation she found it difficult to cope even with the support her family and friends provided In her willingness to share this story of herself as a frightened sometimes selfish often despairing human being Kathlyn Conway gives us not only an unsettling portrait of our everyday mortality but a renewed appreciation of life itself

A Patchwork of Pink Bev Arnold, 2017-12-05 At the age of sixty nine author Bev Arnold realized a long secreted childhood dream She released her debut country music CD *Never too Late* Just months later she found herself sitting in a doctor's office receiving a breast cancer diagnosis In *A Patchwork of Pink* Arnold narrates her life story focusing on her cancer journey At first the diagnosis was a bothersome intrusion into her current excitingly fulfilling life But throughout the ensuing months this initial response was replaced by a deepening pernicious despondency as she felt her life changing She watched her evaporating dreams hopes and musical aspirations being replaced by visions of a desolate obfuscate future Arnold tells how it was an experience that intruded on and disrupted every aspect of the world she had taken for granted With her emotional response to cancer treatment infinitely more harmful than the physical *A Patchwork of Pink* illustrates how her love for and involvement with the local wildlife provided her with often hilarious sometimes tragic interactions offering a stabilizing anchor to her emotional turmoil
