Dolores Sherrod,Richard A Sherrod, Sr,2024-08-13 This book presents the bold idea that teenagers living their passion and getting paid for it will likely never be depressed However advancements in technology cause stress for teenagers and their parents Both groups find it challenging to achieve success in the 21st century and believe that traditional methods of success no longer apply Young adults believe the American Dream is no longer possible for them This book outlines strategies for achieving goals in a way that brings joy and peace Instead of telling young people to work hard we aim to guide them in finding employment that they are passionate about The pursuit of happiness is still essential and success requires a straightforward approach similar to the processes used in the workplace Consider this book a roadmap for teenagers young adults and parents to navigate success in a new way in a changing world This book is for teenagers young adults and parents because young people need to learn how to succeed early in life and parents need to guide and support their children toward success While schools prepare teenagers for some aspects of success they often do not provide the real world business and finance skills necessary for achieving greatness This book offers specific solutions to develop success before graduating from high school including examples forms tools resources and templates The aim is to
