My Own Country A Doctors Story:

My Own Country Abraham Verghese, 2016-11-15 The memoir and first book from the author of the beloved New York Times bestseller Cutting for Stone Nestled in the Smoky Mountains of eastern Tennessee the town of Johnson City had always seemed exempt from the anxieties of modern American life But when the local hospital treated its first AIDS patient a crisis that had once seemed an urban problem had arrived in the town to stay Working in Johnson City was Abraham Verghese a young Indian doctor specializing in infectious diseases Dr Verghese became by necessity the local AIDS expert soon besieged by a shocking number of male and female patients whose stories came to occupy his mind and even take over his life Verghese brought a singular perspective to Johnson City as a doctor unique in his abilities as an outsider who could talk to people suspicious of local practitioners above all as a writer of grace and compassion who saw that what was happening in this conservative community was both a medical and a spiritual emergency Out of his experience comes a startling but ultimately uplifting portrait of the American heartland as it confronts and surmounts its deepest prejudices and fears

My Own Country Abraham Verghese, 2025-06-03 National Book Critics Circle Award Finalist A fine mix of compassion and precision Verghese makes indelible narratives of his cases and they read like wrenching short stories Pico Iyer Time Abraham Verghese has garnered worldwide acclaim for his New York Times bestselling novel The Covenant of Water selected as an Oprah's Book Club Pick and spanning the years 1900 to 1977 in Kerala India In his first book My Own Country Verghese examined an American crisis from the vantage of a small town nestled in the Smoky Mountains of eastern Tennessee which had always seemed exempt from the anxieties of modern life But when the local hospital treated its first AIDS patient in the 1980s a crisis that had once seemed an urban problem arrived in town to stay At the time Abraham Verghese was a young doctor specializing in infectious diseases at a Johnson City hospital Of necessity he became the local AIDS expert soon besieged by a shocking number of patients men and women whose stories came to occupy his mind and even take over his life Verghese brought a singular perspective to Johnson City a doctor unique in his abilities an outsider who could talk to people suspicious of local practitioners and a writer who saw that what was happening in this conservative community was both a medical and a spiritual emergency Out of his experience comes a startling but ultimately uplifting portrait of the American heartland as it confronts and surmounts its deepest prejudices and fears

Contemporary Physician-Authors Nathan Carlin, 2021-11-23 This book examines the phenomenon of physician authors Focusing on the books that contemporary doctors write the stories that they tell with contributors critically engaging their work A selection of original chapters from leading scholars in medical and health humanities analyze the literary output of doctors including Oliver Sacks Danielle Ofri Atul Gawande Louise Aronson Siddhartha Mukherjee and Abraham Verghese Discussing issues of moral meaning in the works of contemporary doctor writers from memoir to poetry this collection reflects some of the diversity of medicine today A key reference for all students and scholars of medical and health humanities the book will be

especially useful for those interested in the relationship between literature and practising medicine **A Doctors Story of Life and Death** K. Subbarao, 2002-01-01 Autobiography of Kakarla Subbarao b 1925 Vice chancellor of Nizam s Institute of Medical Sciences Hyderabad **Form and Transformation in Asian American Literature** Xiaojing Zhou, Samina Najmi, 2011-07-01 This critical anthology draws on current theoretical movements to examine the breadth of Asian American literature from the earliest to the most recent writers Covering fiction essays poetry short stories ethnography and autobiography **Form and Transformation in Asian American Literature** advances the development of a theoretically informed historically and culturally specific methodology for studying this increasingly complex field The essays in this anthology probe into hotly debated issues as well as understudied topics including the relations between Asian American and other minority American writings **Y'all Means All** Z. Zane McNeill, 2022-04-05 *Y'all Means All* is a celebration of the weird and wonderful aspects of a troubled region in all of their manifest glory This collection is a thought provoking hoot and a holler of we re queer and we re here to stay cause we re every bit a piece of the landscape as the rocks and the trees echoing through the hills of Appalachia and into the boardrooms of every media outlet and opportunistic author seeking to define Appalachia from the outside for their own political agendas Multidisciplinary and multi genre *Y'all* necessarily incorporates elements of critical theory such as critical race theory and queer theory while dealing with a multitude of methodologies from quantitative analysis to oral history and autoethnography This collection eschews the contemporary trend of reactive or responsive writing in the genre of Appalachian studies and alternatively provides examples of how modern Appalachians are defining themselves on their own terms As such it also serves as a toolkit for other Appalachian readers to follow suit and similarly challenge the labels stereotypes and definitions often thrust upon them While providing blunt commentary on the region s past and present the book s soul is sustained by the resilience ingenuity and spirit exhibited by the authors values which have historically characterized the Appalachian region and are continuing to define its culture to the present This book demonstrates above all else that Appalachia and its people are filled with a vitality and passion for their region which will slowly but surely effect long lasting and positive changes in the region If historically Appalachia has been treated as a mirror of the country this book breaks that trend by allowing modern Appalachians to examine their own reflections and to share their insights in an honest unfiltered manner with the world **AIDS Doctors** Ronald Bayer, Gerald M. Oppenheimer, 2000 Nearly all describe a common purpose an esprit de corps that bound them together in a terrible yet exhilarating war against an invisible enemy **BOOK JACKET** **Medical Humanities and Medical Education** Alan Bleakley, 2015-03-02 The field of the medical humanities is developing rapidly however there has also been parallel concern from sceptics that the value of medical humanities educational interventions should be open to scrutiny and evidence Just what is the impact of medical humanities provision upon the education of medical students In an era of limited resources is such provision worth the investment This innovative text addresses these pressing questions describes the contemporary territory comprising the

medical humanities in medical education and explains how this field may be developed as a key medical education component for the future Bleakley a driving force of the international movement to establish the medical humanities as a core and integrated provision in the medical curriculum proposes a model that requires collaboration between patients artists humanities scholars doctors and other health professionals in developing medical students sensibility clinical acumen based on close noticing and sensitivity ethical professional and humane practice In particular this text focuses upon how medical humanities input into the curriculum can help to shape the identities of medical students as future doctors who are humane caring expressive and creative whose work will be technically sound but considerably enhanced by their abilities to communicate well with patients and colleagues to empathise to be adaptive and innovative and to act as medical citizens in shaping a future medical culture as a model democracy where social justice is a key aspect of medicine Making sense of the new wave of medical humanities in medical education scholarship that calls for a critical medical humanities Medical Humanities and Medical Education incorporates a range of case studies and illustrative and practical examples to aid integrating medical humanities into the medical curriculum It will be important reading for medical educators and others working with the medical education community and all those interested in the medical humanities

Back Talk from Appalachia Dwight B. Billings, Gurney Norman, Katherine Ledford, 2013-07-24 Appalachia has long been stereotyped as a region of feuds moonshine stills mine wars environmental destruction joblessness and hopelessness Robert Schenkkan's 1992 Pulitzer Prize winning play *The Kentucky Cycle* once again adopted these stereotypes recasting the American myth as a story of repeated failure and poverty the failure of the American spirit and the poverty of the American soul Dismayed by national critics lack of attention to the negative depictions of mountain people in the play a group of Appalachian scholars rallied against the stereotypical representations of the region's people In *Back Talk from Appalachia* these writers talk back to the American mainstream confronting head on those who view their home region one dimensionally The essays written by historians literary scholars sociologists creative writers and activists provide a variety of responses Some examine the sources of Appalachian mythology in nineteenth and early twentieth century literature Others reveal personal experiences and examples of grassroots activism that confound and contradict accepted images of hillbillies The volume ends with a series of critiques aimed directly at *The Kentucky Cycle* and similar contemporary works that highlight the sociological political and cultural assumptions about Appalachia fueling today's false stereotypes

Doctors' Work in the Public Hospital Sector in Hong Kong Evelyn Tsz Yan Chan, Sunny H. Wong, 2025-06-21 This book explores how public hospital sector doctors in Hong Kong understand their work and careers Using narrative interviews with 27 medical doctors the book examines how their personal values provide motivation and meaning for their work How do they cope with the various hardships and crises they face in public hospitals How can other doctors navigate similar issues in their own work What should medical students know about the reality of medical work as they stand poised to start their own career journeys What should medical

administrators know about work at the coal face as they seek to tackle the problems the sector faces This book offers a rare personal window into doctors views on their own work The book also provides a useful resource for students and scholars in the fields of medical humanities public health the sociology of work and narrative research **Migrant architects of the NHS** Julian Simpson,2018-02-26 Migrant Architects draws on 45 oral history interviews and extensive archival research to offer a radical reappraisal of how the National Health Service was made It tells the story of migrant South Asian doctors who became general practitioners in the NHS Imperial legacies professional discrimination and an exodus of UK trained doctors combined to direct these doctors towards work as GPs in some of the most deprived parts of the UK In some areas they made up over half of the general practitioner workforce The NHS was structurally dependent on them and they shaped British society and medicine through their agency This book is aimed at students and academics with interests in the history of immigration immigration studies the history of medicine South Asian studies and oral history It will also be of interest to anyone who wants to know more about how Empire and migration have contributed to making Britain what it is today

The Greenwood Encyclopedia of Asian American Literature Guiyou Huang,2008-12-30 Asian American literature dates back to the close of the 19th century and during the years following World War II it significantly expanded in volume and diversity Monumental in scope this encyclopedia surveys Asian American literature from its origins through 2007 Included are more than 270 alphabetically arranged entries on writers major works significant historical events and important terms and concepts Thus the encyclopedia gives special attention to the historical social cultural and legal contexts surrounding Asian American literature and central to the Asian American experience Each entry is written by an expert contributor and cites works for further reading and the encyclopedia closes with a selected general bibliography of essential print and electronic resources While literature students will value this encyclopedia as a guide to writings by Asian Americans the encyclopedia also supports the social studies curriculum by helping students use literature to learn about Asian American history and culture as it pertains to writers from a host of Asian ethnic and cultural backgrounds including Afghans Chinese Japanese Koreans Filipinos Iranians Indians Vietnamese Hawaiians and other Asian Pacific Islanders The encyclopedia supports the literature curriculum by helping students learn more about Asian American literature In addition it supports the social studies curriculum by helping students learn about the Asian American historical and cultural experience **The**

Advocate ,1994-05-03 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States **Thinking with Metaphors in Medicine** Alan Bleakley,2017-07-06 While medical language is soaked in metaphor and thinking with metaphor is central to diagnostic work medicine that is medical culture clinical practice and medical education outwardly rejects metaphor for objective literal scientific language This thought provoking book argues that this is a misstep and critically considers what embracing the use of metaphors and similes might mean for shaping medical culture and especially the doctor patient relationship in a healthy

way Thinking With Metaphors in Medicine explores how metaphors inhabit medicine sometimes for the better and sometimes for the worse and how these metaphors can be revealed appreciated and understood how diagnostic work utilizes thinking with metaphors how patient doctor communication can be better understood and enhanced as a metaphorical exchange how the landscape of medicine is historically shaped by leading or didactic metaphors such as the body as machine and medicine as war which may conflict with other values or perspectives on healthcare for instance person centred care Outlining the kinds of metaphors and resemblances that inhabit medicine and how they shape practices and identities of doctors colleagues and patients this book demonstrates how the landscape of medicine may be reshaped through metaphor shift It is an important work for all those interested in the use of language and rhetoric in medicine whether hailing from a humanities social science or healthcare background

9 Highland Road Michael Winerip, 2012-07-04 Before Julie Callahan came to the house at 9 Highland Road in Glen Cove New York she had spent a good part of her young life in mental hospitals her mental and emotional coherence nearly destroyed by a childhood of sexual abuse Fred Grasso a schizophrenic had lived in a filthy single room occupancy hotel At 9 Highland Road they and their housemates were given a decent alternative to lives in institutions or in the streets It was a place in which some even found the chance to get better This perfectly observed and passionately imagined book takes us inside one of the supervised group homes that in an age of shrinking state budgets and psychotropic drugs have emerged as the backbone of America's mental health system As it follows the progress and setbacks of residents their families and counselors and notes the embittered resistance their presence initially aroused in the neighborhood 9 Highland Road succeeds in opening the locked world of mental illness It does so with an empathy and insight that will change forever the way we understand and act in relation to that world

Srikanth Brian Kim Stefans Erin Suzuki Theresa Tensuan Cynthia Tolentino Thuy Linh Nguyen Tu Eleanor Ty Traise Yamamoto Timothy Yu The Renewal of Generosity Arthur W. Frank, 2009-11-19 Contemporary health care often lacks generosity of spirit even when treatment is most efficient Too many patients are left unhappy with how they are treated and too many medical professionals feel estranged from the calling that drew them to medicine Arthur W Frank tells the stories of ill people doctors and nurses who are restoring generosity to medicine generosity toward others and to themselves The Renewal of Generosity evokes medicine as the face to face encounter that comes before and after diagnostics pharmaceuticals and surgeries Frank calls upon the Roman emperor Marcus Aurelius philosopher Emmanuel Levinas and literary critic Mikhail Bakhtin to reflect on stories of ill people doctors and nurses who transform demoralized medicine into caring relationships He presents their stories as a source of consolation for both ill and professional alike and as an impetus to changing medical systems Frank shows how generosity is being renewed through dialogue that is more than the exchange of information Dialogue is an ethic and an ideal for people on both sides of the medical encounter who want to offer more to those they meet and who want their own lives enriched in the process The Renewal of Generosity views illness and medical work with grace and compassion making an invaluable contribution to expanding our vision of suffering and healing **The Chief Concern of Medicine** Ronald Schleifer, Jerry Vannatta, 2013-01-28 Unlike any existing studies of the medical humanities The Chief Concern of Medicine brings to the examination of medical practices a thorough and clearly articulated exposition of the nature of narrative The book builds on the work of linguistics semiotics narratology and discourse theory and examines numerous literary works and narrative vignettes of medical problems situations and encounters Throughout the book presents usable expositions of the ways storytelling organizes itself to allow physicians and other healthcare workers and even patients themselves to be more attentive to and self conscious about the information the narrative knowledge of the patient s story **Postcolonial Literature and the United States: Race, Ethnicity, and Literature** , Probing essays that examine critical issues surrounding the United States s ever expanding international cultural identity in the postcolonial era Download Plain Text version At the beginning of the twenty first century we may be in a transnational moment increasingly aware of the ways in which local and national narratives in literature and elsewhere cannot be conceived apart from a radically new sense of shared human histories and global interdependence To think transnationally about literature history and culture requires a study of the evolution of hybrid identities within nation states and diasporic identities across national boundaries Studies addressing issues of race ethnicity and empire in U S culture have provided some of the most innovative and controversial contributions to recent scholarship Postcolonial Theory and the United States Race Ethnicity and Literature represents a new chapter in the emerging dialogues about the importance of borders on a global scale This book collects nineteen essays written in the 1990s in this emergent field by both well established and up and coming scholars Almost all the essays have been either especially written for this volume or revised for inclusion here

These essays are accessible well focused resources for college and university students and their teachers displaying both historical depth and theoretical finesse as they attempt close and lively readings The anthology includes more than one discussion of each literary tradition associated with major racial or ethnic communities Such a gathering of diverse complementary and often competing viewpoints provides a good introduction to the cultural differences and commonalities that comprise the United States today The volume opens with two essays by the editors first a survey of the ideas in the individual pieces and second a long essay that places current debates in U S ethnicity and race studies within both the history of American studies as a whole and recent developments in postcolonial theory Amritjit Singh a professor of English and African American studies at Rhode Island College is coeditor of *Conversations with Ralph Ellison* and *Conversations with Ishmael Reed* both from University Press of Mississippi Peter Schmidt a professor of English at Swarthmore College is the author of *The Heart of the Story* Eudora Welty's *Short Fiction* University Press of Mississippi
