My Parents Are Divorced:

My Parents Are Divorcing. Now What? Paula Morrow, 2014-12-15 Although divorce remains an unfortunate reality for many families teens who witness their parents failed marriage are often left feeling isolated and conflicted with nowhere to turn. With the right support however many teens find that the fracturing of one relationship in the family does not have to mean the fracturing of all they can maintain strong relationships with both parents and even stepparents and siblings. Touching upon the practical legal and psychological aspects of divorce and examining healthy emotional outlets and coping mechanisms this volume reassures teens through the grieving process and shows them that acceptance is ultimately possible.

My Parents Divorced Me! Africa Hann, 2015-09-23 Zoe Jones is an eleven year old sixth grader attending W G Wesley Middle School. The first year of middle school is supposed to be the best year of all times. However it's Zoe Jones' first week of school and she can't find anything to be excited about due to her parents getting a divorce. Zoe enters her first week of middle school not able to pay attention and feeling sad because she thinks that she's the reason her parents are getting a divorce. But when Zoe's teachers notice that something is wrong with Zoe she is taken to the school nurse who then takes her to the school counselor to find out what is bothering Zoe. Once Zoe discloses that her parents are getting a divorce and she thinks that she is the cause of the divorce the school counselor intervenes and calls a meeting with Zoe's mother. Will Zoe Jones continue to blame herself for her parents getting a divorce? Or will counseling help her to see that she is not the cause of the divorce and help her to accept the fact that her parents are divorcing and move on so that she can enjoy her first year of middle school? My Parents Divorced Me is a story of a child dealing with her parents going through a divorce by the incomparable Africa Hann. In the book the main point is when married couples are going through a divorce they don't realize that the children are going through a divorce as well. This book is to encourage the parents to maintain a healthy and positive relationship with each other for the sake of the child and that they should not allow their differences to interfere with continuing to raise the child as parents if not a couple. Additionally when parents are going through a divorce they should seek family counseling to assist the child with coping with the traumatic experience of divorce.

Children of Divorce John H. Harvey, Mark A. Fine, 2004-04-12 *Children of Divorce* features excerpts of stories collected from hundreds of young people The narratives embrace such themes as despair chaos in the family and missing dads The volume paints a picture of the pain the hope and the resiliency shown by young adults while in the throes of divorce and in the years to follow These poignant narratives are framed by an analysis of the most recent divorce literature The book clearly demonstrates the value of storytelling in helping people deal with major loss events in their lives The authors hope is that by examining these experiences we will gain a greater understanding of the effects of divorce and ultimately strengthen relationships in the future This book challenges the contention that most children will be irretrievably hurt by their parents divorce Presenting a mixture of young people's voices demonstrating the great variety of reactions to parental divorce it shows the strength and resilience many of these young people have learned in surviving the pain surrounding divorce in their families Emphasis is placed on how hope about the possibilities of having close relationships as well as a willingness to try to have stronger families in their own adult lives represent abiding motivations in this sample of young people Providing an overarching theoretical emphasis on the value of storytelling for people dealing

with major losses the authors hope that this method of stressing the raw input of respondents will make the experiences more vivid and realistic to the reader
