Latino families living with the daily challenges of Alzheimer's disease and other forms of dementia. It is grounded in the interpretation and meaning of dementia in Black and Latino cultural heritages and based on both a solid theoretical framework and the substantial research and clinical expertise of the authors. Detailed step by step guidelines to assessment and intervention in ethnic specific situations provide useful strategies that go beyond generic solutions. The text presents an overview of the epidemiology and clinical course of dementia with a focus on those forms of the disease most common to Blacks and Latinos. It addresses family care and role responsibilities in ethnic families and their theoretical ethnic and cultural foundations. Self efficacy and cognitive behavioral problem solving theories are discussed as modalities of choice. The text also considers financial and service delivery trends and use of technology and provides detailed forms, documents and dementia care resources. Numerous case studies will help readers to quickly put information into the context of real world situations.

**Key Features:**

- Provides concrete targeted interventions for assisting ethnic family caregivers in confronting day to day issues.
- Explains how and why self efficacy and cognitive behavioral problem solving theories are particularly useful for social work with ethnic family caregivers.
- Offers detailed step by step guidelines to assessment and intervention.
- Includes problem solving forms, documents and additional dementia care resources.
- Contains vivid supporting case studies in each chapter.
