**Autobiography and Black Identity Politics** Kenneth Mostern, 1999-06-13 Why has autobiography been central to African American political speech throughout the twentieth century What is it about the racialization process that persistently places African Americans in the position of speaking from personal experience In *Autobiography and Black Identity Politics* Racialization in Twentieth Century America Kenneth Mostern illustrates the relationship between narrative and racial categories such as colored Negro black or African American in the work of writers such as W E B Du Bois Zora Neale Hurston Malcolm X Martin Luther King Paul Robeson Angela Davis and bell hooks Mostern shows how these autobiographical narratives attempt to construct and transform the political meanings of blackness The relationship between a black masculine identity that emerged during the 1960s and the counter movement of black feminism since the 1970s is also discussed This wide ranging study will interest all those working in African American studies cultural studies and literary theory

**Conflict After the Cold War** Richard Betts, 2021-12-30 Edited by one of the most renowned scholars in the field Richard K Betts s *Conflict After the Cold War* assembles classic and contemporary readings on enduring problems of international security Offering broad historical and philosophical breadth the carefully chosen and excerpted selections in this popular reader help students engage in key debates over the future of war and the new forms that violent conflict will take *Conflict After the Cold War* encourages closer scrutiny of the political economic social and military factors that drive war and peace New to the Sixth Edition Eight new readings covering issues that have grown in salience since the previous edition or that present new interpretations of answers to old problems including pieces by Robert Kagan Edward O Wilson Scott D Sagan Robert Jervis and Jason Healey Jacqueline L Hazelton Oystein Tunsjo and Michael Beckley Updated volume and chapter introductions and a new reading by Richard K Betts [Avoiding The Terrorist Trap: Why Respect For Human Rights Is The Key To Defeating Terrorism](#) Thomas David Parker, 2019-06-17 This book makes uncomfortable reading both in its detailed analysis of terrorism and its causes and in the critique of state responses particularly in modern times It is unusual to have such a defence of a human rights framework from a counter terrorism practitioner rather than from within the legal fraternity It is this that makes the case even more persuasive All who are involved in counter terrorism strategy

should consider carefully the arguments put forward Global Policy Journal For more than 150 years nationalist populist Marxist and religious terrorists have all been remarkably consistent and explicit about their aims provoke states into over reacting to the threat they pose then take advantage of the divisions in society that result Yet state after state falls into the trap that terrorists have set for them Faced with a major terrorist threat governments seem to reach instinctively for the most coercive tools at their disposal and in doing so risk exacerbating the situation This policy response seems to be driven in equal parts by a lack of understanding in the true nature of the threat an exaggerated faith in the use of force and a lack of faith that democratic values are sufficiently flexible to allow for an effective counter terrorism response Drawing on a wealth of data from both historical and contemporary sources Avoiding the Terrorist Trap addresses common misconceptions underpinning flawed counter terrorist policies identifies the core strategies that guide terrorist operations consolidates the latest research on the underlying drivers of terrorist violence and then demonstrates why a counter terrorism strategy grounded in respect for human rights and the rule of law is the most effective approach to defeating terrorism Beyond the Lines Sarah E. Parkinson, 2023-01-15 Beyond the Lines explores the social underpinnings of rebel adaptation and resilience How do rebel groups cope with crises such as repression displacement and fragmentation What explains changes in militant organizations structures and behaviors over time Drawing on nearly two years of ethnographic research Sarah E Parkinson traces shifts in Palestinian militant groups internal structures and practices during the civil war of 1975 to 1990 and foreign occupations of Lebanon She shows that most militants approach asymmetrical warfare as a series of challenges centered around information and logistics characterized by problems such as supplying constantly mobile forces identifying collaborators disrupting rival belligerents operations and providing essential services like healthcare Effective negotiation of these challenges contributes to militant organizations resilience and survival In this context the foundation of rebel resilience lies with militants ability to repurpose their everyday social networks to organizational ends In the Lebanese setting Beyond the Lines demonstrates how regionalized differences in Israeli Syrian and Lebanese deployment of violence triggered distinct social network responses that led to divergent organizational outcomes for Palestinian militants **Daughters of Palestine** Amal Kavar, 1996-02-15 Based on interviews with 35 women leaders this is the first study of women s involvement in the Palestinian National Movement from the revolution in the mid 1960s to the Palestinian Israeli peace process in the 1990s **Essentials of Terrorism** Gus Martin, 2021-12-19 Captivating concise and accessible Essentials of Terrorism Concepts and Controversies covers key foundational topics by defining terrorism and introducing its history and causes Author Gus Martin introduces readers to the modern landscape of terrorism and discusses terrorist environments domestic international religious etc as well as tactics targets and counterterrorism Included in the Sixth Edition is an added focus on U S hate crimes and homeland security in addition to new introductory discussions information and data throughout each chapter
