want to believe Is there such a thing as self evident truths and if so what part can reason play in helping us to find it These are the questions raised in Shacklefree's book and the evidence presented covers a large part of human history from the time of the ancient Greek philosophers up to the present and explores the areas of faith science and reason Its pages document the abuse of reason throughout history not only by despots but also by scientists clerics and modern democratically elected leaders The book explains how doublethink and newspeak are very much a part of modern democracies and asks us all to consider if we are part of the problem rather than the solution The book is a call to the normal person to cast off the modern indoctrination branded as freedom and think critically about what our modern day prophets are telling us
