Griffiths,2005 **What's the Story?** John Burgess,2021-04-20 At the end of his first book Life Luck and Liaisons it was becoming apparent that sailing and travel were going to be essential ingredients in the life of John Burgess In his teens he had travelled the length and breadth of his homeland New Zealand Aged eighteen he had travelled with a friend to Australia hitch hiking from Sydney to Mossman north of Cairns There followed a two year sailing adventure across the Pacific and Asia He knew that such an experience would not be his last The seed was sown This second book is a series of travel stories His time spent in London in the swinging sixties and yacht racing in the English Channel and then discovering outback Australia after he finally settled in Sydney There were excursions to fish for Barramundi in Kakadu and a camping trip with his son in the Kimberley He travelled from Perth to Broome and on to Darwin as well as exploring Cairns to Cape York and Thursday Island In the nineties a sailing holiday in the West Indies reunited him with his English friend from sailing days in the UK However the most challenging sailing experience came later as crew on an Australian yacht sailing from the Maldives to Egypt There were other travel experiences including driving around Mexico s Yucatan Peninsula at the time of the Chiapas uprising In John s view Cuba offers a travel experience not to be missed although game safaris in Botswana with a train ride through South Africa thrown in would rank equally The God Hunters: Reunion Mark Reed,2013-05-06 The God Hunters Book Two Months ago David Ruger was an average human with a flighty boyfriend Now he lives in an alien universe called the Expanse and wields supernatural powers He s also traded in his flighty ex for Doug Colt a man with a heart of gold and nerves of steel which is a good thing because his occupation can get rough When David joins Doug and his brother Bryan on

a job to track down a group of vengeful trolls the journey takes them across the Expanse to the Shards of Exeter a magical place made of continent size landmasses shrouded in atmosphere There supernatural beings abound and formidable adversaries lurk in the shadows But the mission is more than it seems Through visions David learns of the role he must play in reshaping the Expanse and of the unspeakable evil that caused the God Hunters war so long ago With that same threat resurfacing David must embrace his destiny to save the family he has come to love The White Possessive Aileen

Moreton-Robinson,2015-05-15 The White Possessive explores the links between race sovereignty and possession through themes of property owning property being property and becoming propertyless Focusing on the Australian Aboriginal context Aileen Moreton Robinson questions current race theory in the first world and its preoccupation with foregrounding slavery and migration The nation she argues is socially and culturally constructed as a white possession Moreton Robinson reveals how the core values of Australian national identity continue to have their roots in Britishness and colonization built on the disavowal of Indigenous sovereignty Whiteness studies literature is central to Moreton Robinson s reasoning and she shows how blackness works as a white epistemological tool that bolsters the social production of whiteness displacing Indigenous sovereignties and rendering them invisible in a civil rights discourse thereby sidestepping thorny issues of settler colonialism Throughout this critical examination Moreton Robinson proposes a bold new agenda for critical Indigenous studies one that involves deeper analysis of how the prerogatives of white possession function within the role of disciplines **Children of**

Arnhem's Kaleidoscope Graham Wilson,2012 It was hot There was sudden stillness in the late afternoon air and the surface of the small waterhole shone with unnatural smoothness Fresh pig tracks at water s edge suggested pigs just gone Two bubbles popped to the surface near the edge of the pool just decaying vegetation said my mind I should have smelt crocodile A story of a missionary family in remote aboriginal Australia What is it about the Northern Territory that fascinates I have only to mention it s name in conversation and people turn to listen Why for 180 years has it drawn people from all over to come stay longer than they imagined and often never leave This book is a memoir of a family s life in a remote aboriginal community in Australia s Northern Territory something the equivalent of remote Canada or Alaska where few people go The place Oenpelli now Gunbalanya is near Kadadu National Park made famous in Crocodile Dundee This story tells of changing world as a missionary family and an aboriginal community become part of modern Australia This our family s story growing amongst the people animals and places and colours of this this strange land alongside an aboriginal community going through its own changes citizenship alcohol uranium mining land rights outstation development and community self management It is a memoir of growing up in one of the most isolated parts of Australia in a small aboriginal missionary community in the Northern Territory something the equivalent of the remote Canada or Alaska It is the landscape featured in the movie Crocodile Dundee It tells of the huge change in this place in the last half century with the coming of land rights and aboriginal self determination It also tells of my mother and fathers lives and Christian beliefs which motivated their

contribution to this change It is a story of my memories and love for this remote and beautiful place in which I lived as a child then worked as an adult and of many NT characters who gave me the memories It is also the story of me working as an adult across many parts of the NT and about the hardy outlandish characters that inhabit this place It also tells of my own experience of surviving attack by a large crocodile in a remote swamp It also provides a foundation for my novels in the Crocodile Spirit Dreaming Series The places in these books are the places in which I lived and worked and many of the stories came little changed from people I knew In particular my experience in surviving a crocodile attack of a large saltwater crocodile which mauled my leg as told in this book forms part of the central role of the crocodile as a predator in this novel series The role of my father in opening road transport including building a crossing of the East Alligator River developing outstations for aboriginal communities learning to fly on missionary wages and establishing an aviation service along with assisting the aboriginal peoples of this land to gain royalties from mining is a story that deserves to be told as a major part of NT history Along with his tireless work the contribution of many others is also an essential part of the story

Great Australian Volunteer Surf Life Saving Stories Bill Marsh, 2025-07-01 After I d got him out of harm s way I dived back in yet again and swam out past the surf break out to where the other two lads were floundering Then one at a time I took them back onto the rocks all done against the raging rip and wild surf By then an hour or so had passed Still severe cuts bruises and abrasions aside I d successfully saved the lives of the four young people who in all probability would ve otherwise drowned Surf Life Saving Australia is the nation s largest volunteer organisation with over 300 affiliated clubs and more than 198 000 members that s 198 000 Australians each with amazing stories to tell From the golden sands of Bondi to the remote coastlines of Arnhem Land and the chilly waters of Tasmania Bill Swampy Marsh has gathered some of the best of those stories from acts of remarkable bravery and daring rescues against the odds to lighthearted and humorous yarns of encounters with crocodiles and sharks Each story shines a light on the unwavering dedication community spirit and extraordinary experiences of everyday Australians who selflessly devote their time to protect others Filled with courage humour heartache and joy Great Australian Volunteer Surf Life Saving Stories shows that the power of the ocean is matched only by the hearts of those who guard its shores Mark Reed, 2010-07 Above a primordial Earth an ancient voice declares that change is needed For countless lifetimes she has tirelessly waited for her chance to escape and finally it approaches A young man is the key to the reshaping of her world but it will cost many lives He will need to be deceived lied to and manipulated by the one person closest to him In a universe unlike anything he could ever imagine a hatred of outsiders will perceive him as a threat The hunt then begins Would be gods will be eliminated **Children's Books in Print, 2007** ,2006

Preserving Public Lands for the Future William R. Lowry, 1998-10-01 Comparing national efforts to preserve public lands William R Lowry investigates how effectively and under what conditions governments can provide goods for future generations Providing intergenerational goods ranging from balanced budgets to space programs and natural environments

is particularly challenging because most political incentives reward short term behavior Lowry examines the effect of institutional structure on the public delivery of these goods He offers a theoretical framework accounting for both the necessary conditions public demand political stability and official commitment to long term delivery and constraining factors the tensions between public agencies and politicians as well as between different levels of government that determine the ability of a nation to achieve long term goals In support of this argument Lowry evaluates data on park systems from more than one hundred countries and provides in depth case studies of four the United States Australia Canada and Costa Rica to show how and why the delivery of intergenerational goods can vary For each of the cases he reviews background information discusses constraints on agency behavior and assesses expansion of the park systems and restoration of natural conditions at specific locations This extensive comparative analysis of the preservation of public lands offers new insights into the capability of nations to pursue long term goals
