My Home Is The Desert Who Am I Little Natures:

Children's Books from Other Countries Carl M. Tomlinson, United States Board on Books for Young People, 1998
Every child is entranced by the magic of story regardless of national boundaries. Many of the most memorable childhood stories have their origins in other countries. Exposing children to this multi-national body of literature introduces them to the great diversity of people and cultures that populate the world at a young age, enabling them to become more thoughtful and generous individuals. *Children's Books from Other Countries* is a complete and current guide to international children's literature. The concept of a bibliography of international children's literature is not new. In the past, many books have accomplished this task. The last two decades, however, have not yet produced a current reference source devoted to international children's books. *Children's Books from Other Countries* wonderfully rectifies this lack of attention. An introductory essay provides an overview of the field, including a discussion on the rationale of sharing international books with children, a brief history of the children's literature movement, related books and awards, and basic information about the International Board on Books for Young People (IBBY) and its American branch, the United States Board on Books for Young People (USBBY). An annotated bibliography contains over 700 titles from 29 different countries printed between 1950 and 1996. All titles are available in English; many have been translated, and others have originated in other English-speaking countries. The titles are organized by genre and have been selected for their high quality. They are primarily targeted for children ages 0-14, although a few outstanding young adult titles are included. Winners of the Mildred Batchelder Award and the Hans Christian Andersen Medal are listed in the appendix. Indexes include Author, Title, Country of Origin, and Subject. Affordable and readable, this timely resource is certainly a must for librarians and teachers and other professionals working with children. Sponsored by the United States Board on Books for Young People.

Step outside your door and reconnect with nature. From the author of *Writing and the Spiritual Life* comes a guide that will replenish your connection to the earth and inspire you to develop and strengthen your imagination. The natural world has inspired artists, seekers, and thinkers for millennia, but in recent times, as the pace of life has sped up, its demands have moved us indoors. Yet nature's capacity to lead us to important truths, to invigorate and restore our imagination and equilibrium, is infinite. *Step into Nature* makes nature personal again by stimulating awareness and increasing our understanding of the environment. But being in nature doesn't mean flying off to remote, faraway places. Nature is as close as opening your front

door and opening your heart to the sky above the miniature gardens that push their way up between the sidewalk cracks in our cities and the small stream just down the road Patrice Vecchione demonstrates how nature can support and enhance your creative output invigorate your curiosity and restore your sense of connection to and love of the earth Included throughout the book is The Cabinet of Curiosities exercises and suggestions for practical and unexpected ways to stimulate your imagination deepen your relationship with nature and experience the harmony between creativity and the natural world
