My Japan 1930 1951:

My Japan 1930-1951 Hiroko Nakamoto, Mildred Mastin Pace, 1970 A book about Hiroshima and the bomb that explicitly captures a Japanese child's point of view Step by step Hiroko records the changes that took place in her home life her school life and the lives of all Japanese people during the years 1930 1951 **My Japan** H. Nakamoto, 1996 *Japan and American Children's Books* Sybille Jagusch, 2021-06-18 Drawing from the Library of Congress's massive collection this volume takes readers on a fascinating and informative journey through nearly 200 years of American children's books and periodicals depicting life in Japan from fanciful travelogues full of exotic stereotypes to serious works about wartime atrocities Published by Rutgers University Press in association with the Library of Congress *Unthinking Collaboration* A. Carly Buxton, 2022-03-31 *Unthinking Collaboration* uncovers the little known history of Japanese Americans who weathered the years of World War II on Japanese soil Severed from the country of their birth when the attack on Pearl Harbor abruptly halted all passenger traffic on the Pacific these Nisei faced the years of total war as members of the Japanese populace yet as the target of anti American propaganda and suspicion Whereas their white American counterparts were sequestered by Japanese authorities placed on house arrest or sent home on exchange ships during the war American Nisei in Japan were left to contribute to the war effort alongside their Japanese neighbors as soldiers cryptographers interpreters and in farming and manufacturing When the dust of air raid bombings cleared many such Nisei transitioned into roles in service of the Allied occupation and its goals of democratization and demilitarization As censors translators interpreters and administrative staff they played integral roles in facilitating American Japanese interaction as well as in shaping policies and public opinion in the postwar era Weaving archival data with oral histories personal narratives material culture and fiction *Unthinking Collaboration* emphasizes the heterogeneity of Japanese immigrant experiences and sheds light on broader issues of identity race and performance of individuals growing up in a bicultural or multicultural context By distancing collaboration from its default elision with moral judgment and by incorporating contemporary findings from psychology and behavioral science about the power of the subconscious mind to influence human behavior author A Carly Buxton offers an alternative approach to history one that posits historical subjects as deeply embedded in the realities of their physical and discursive environment Walking beside Nisei as they navigate their everyday lives in transwar Japan readers unthink long held assumptions about the actions and decisions of individuals as represented in history The result is an ambitious historical study that speaks to readers who are interested in broader questions of race and trust empire building World War II and its legacy on both the Western and Pacific fronts and to all who consider questions of loyalty treason assimilation and collaboration **Valley of Darkness** Thomas R. H. Havens, 1986-07-10 This volume portrays the daily life of ordinary Japanese civilians on the home front during World War Two Drawing extensively on wartime records and early postwar recollections of people who lived through the war era the book reveals a surprisingly cohesive society that bore up remarkably well Originally published by W

W Norton and Company in 1978 **To Hell and Back** Charles Pellegrino, 2015-08-06 Drawing on the voices of atomic bomb survivors and the new science of forensic archaeology Charles Pellegrino describes the events and the aftermath of two days in August when nuclear devices detonated over Japan changed life on Earth forever To Hell and Back offers readers a stunning you are there time capsule wrapped in elegant prose Charles Pellegrino's scientific authority and close relationship with the A bomb survivors make his account the most gripping and authoritative ever written At the narrative's core are eyewitness accounts of those who experienced the atomic explosions firsthand the Japanese civilians on the ground As the first city targeted Hiroshima is the focus of most histories Pellegrino gives equal weight to the bombing of Nagasaki symbolized by the thirty people who are known to have fled Hiroshima for Nagasaki where they arrived just in time to survive the second bomb One of them Tsutomu Yamaguchi is the only person who experienced the full effects of both cataclysms within Ground Zero The second time the blast effects were diverted around the stairwell behind which Yamaguchi's office conference was convened placing him and few others in a shock cocoon that offered protection while the entire building disappeared around them Pellegrino weaves spellbinding stories together within an illustrated narrative that challenges the official report showing exactly what happened in Hiroshima and Nagasaki and why Also available from compatible vendors is an enhanced e book version containing never before seen video clips of the survivors their descendants and the cities as they are today Filmed by the author during his research in Japan these 18 videos are placed throughout the text taking readers beyond the page and offering an eye opening and personal way to understand how the effects of the atomic bombs are still felt 70 years after detonation News Letter United States. Department of State, 1970 **Newsletter**, 1970 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1972 Newsletter United States. Department of State, 1970 **Department of State News Letter** United States. Department of State, 1970 *Japan's Economic Planning and Mobilization in Wartime, 1930s-1940s* Yoshiro Miwa, 2015-01-22 Although most economists maintain a mistrust of a government's goals when it intervenes in an economy many continue to trust its actual ability They retain in other words a faith in state competence For this faith they adduce no evidence Sharing little skepticism about the government's ability they continue to expect the best of governmental intervention To study government competence in World War II Japan offers an intriguing laboratory In this book Yoshiro Miwa shows that the Japanese government did not conduct requisite planning for the war by any means It made its choices on an ad hoc basis and the war itself quickly became a dead end That the government planned for the war incompetently casts doubts on the accounts of Japanese government leadership more generally *Japan* Kokusai Bunka Kaikan (Tokyo, Japan). Toshoshitsu, 1979 **Women in Japanese Society** Kristina R. Huber, Kathryn Sparling, 1992-09-15 This exhaustive bibliography contains more than 2 300 annotated entries on the lives of women in Japan It includes books and book chapters articles in scholarly journals and popular magazines and published conference papers The authors have diligently researched databases bibliographies and indexes and have based their

detailed annotations on a close examination of the works cited The volume lists works published in English from 1841 to the present and a particularly significant feature is the inclusion of literary works by Japanese women The book is further balanced by material on non Japanese women living in Japan All materials are available in the United States through standard interlibrary loan sources A valuable introduction provides detailed instructions for using the volume The bibliography is divided into a number of broad sections on the public and private lives of women and entries in each section are grouped in more specific categories covering home life politics education religion careers the arts and other areas The sections on literature briefly introduce the lives and works of poets and prose writers listing their individual works available in English translation A concluding section provides access to reviews and overviews of scholarship on women in Japan The extensive author title and subject indexes make this book of tremendous value to researchers in a wide range of disciplines
