My Life In Politics:

The Education of a Public Man Hubert Horatio Humphrey, 1976 Experiencing Politics John E. McDonough, 2000-11-22

John E McDonough affords a rare glimpse into the practice of state politics in this insider's account of the fascinating interface between political science and real life politics. A member of the Massachusetts House of Representatives for thirteen years and a skilled storyteller, McDonough eloquently weaves together stories of politics and policy with engaging theoretical models in a way that illuminates both the theory and the practice. By providing a link between scholarship and the world of experience, he communicates much about the essence of representative democracy. In the process, he demonstrates how politics extend beyond the public sphere into many aspects of life involving diverse values and interests. McDonough describes the nature of conflict, the role of interests, agenda setting, the nature and pace of change, the use of language, and more. Accessible, insightful, and original, his stories touch on a broad range of issues including health care, politics, campaigns, and elections: a street gang called the X-Men, the death penalty, campaign finance reform, and tenants versus landlords. To the author, politics is everywhere and political dynamics are universal. While the setting for this book is one legislature, the lessons and insights are intended for everyone.

Beyond Politics Njeri Rugene, 2021-08-27

Kiraitu Murungi easily fits into the category of Philosopher King, a leader who, according to Plato, combines intellect, intelligence, and wisdom in leadership. An alumnus of the University of Nairobi and the prestigious Harvard University, Kiraitu has applied these qualities to serve the society at constituency, county, and national levels. In this candid interview with veteran journalist Njeri Rugene, Kiraitu is blunt, brutal, frank, and rational on politics and development issues. The first of its kind in the country, this lengthy interview is not only inspiring but also an insightful and igniting exposé of realpolitik in Kenya.

Events, Issues, and Actions R. G. Williams, 2025-08-18

This book is a collection of contemporary essays that explore modern politics, recent events, and the world today. Written over the past two decades, these essays mix personal reflections and analysis with an attempt to understand the world. The essays seek to understand our often troubled times and argue that by examining the events, issues, and realities around us, we can perhaps build a better society, a Democratic Socialist world.

Voices of Historical and Contemporary Black American Pioneers Vernon L. Farmer, Evelyn Shepherd-Wynn, 2012-05-15

The stories of black American professionals, both historic and contemporary, reveal the hardships and triumphs they faced in overcoming racism to succeed in their chosen fields. This extraordinary four-volume work is the first of its kind, a comprehensive exploration of the obstacles black men and women, both historic and contemporary, have faced and overcome to succeed in professional positions. *Voices of Historical and Contemporary Black American Pioneers* includes the life and career histories of black American pioneers, past and present, who have achieved extraordinary success in fields as varied as aviation and astronautics, education, social sciences, the humanities, the fine and performing arts, law, and government, and medicine and science. The set covers well-known figures but is also an invaluable source of information on lesser-known individuals whose accomplishments are no less

admirable Arranged by career category each section of the work begins with a biographical narrative of early black pioneers in the field followed by original interviews conducted by the editors or autobiographical narratives written by the subjects In all more than 150 scholars and professionals share inspiring insights into how they persevered to overcome racism and succeed in an often hostile world

The Politics of Drug Violence Angelica Duran-Martinez, 2017-12-13 Over the last few decades drug trafficking organizations in Latin America became infamous for their shocking public crimes from narcoterrorist assaults on the Colombian political system in the 1980s to the more recent wave of beheadings in Mexico However while these highly visible forms of public violence dominate headlines they are neither the most common form of drug violence nor simply the result of brutality Rather they stem from structural conditions that vary from country to country and from era to era In *The Politics of Drug Violence* Angelica Duran-Martinez shows how variation in drug violence results from the complex relationship between state power and criminal competition Drawing on remarkably extensive fieldwork this book compares five cities that have been home to major trafficking organizations for the past four decades Cali and Medellin in Colombia and Ciudad Juarez Culiacan and Tijuana in Mexico She shows that violence escalates when trafficking organizations compete and the state security apparatus is fragmented However when the criminal market is monopolized and the state security apparatus cohesive violence tends to be more hidden and less frequent The size of drug profits does not determine violence levels and neither does the degree of state weakness Rather the forms and scale of violent crime derive primarily from the interplay between marketplace competition and state cohesiveness An unprecedentedly rich empirical account of one of the worst problems of our era the book will reshape our understanding of the forces driving organized criminal violence in Latin America and elsewhere

American Civil Wars Alan Taylor, 2024-05-21 A Kirkus Reviews Best Book of 2024 A masterful history of the Civil War and its reverberations across the continent by a two time Pulitzer Prize winner In a fast paced narrative of soaring ideals and sordid politics of civil war and foreign invasion the award winning historian Alan Taylor presents a pivotal twenty year period in which North America's three largest countries the United States Mexico and Canada all transformed themselves into nations The American Civil War stands at the center of the story its military history and the drama of emancipation the highlights Taylor relies on vivid characters to carry the story from Joseph Hooker whose timidity in crisis was exploited by Robert E Lee and Stonewall Jackson in the Union defeat at Chancellorsville to Martin Delany and Mary Ann Shadd Cary Black abolitionists whose critical work in Canada and the United States advanced emancipation and the enrollment of Black soldiers in Union armies The outbreak of the Civil War created a continental power vacuum that allowed French forces to invade Mexico in 1862 and set up an empire ruled by a Habsburg archduke This inflamed the ongoing power struggle between Mexico's Conservatives landowners the military the Church and Liberal supporters of social

democracy led ably by Benito Juarez Along the southwestern border Mexico's Conservative forces made common cause with the Confederacy while General James Carleton violently suppressed Apaches and Navajos in New Mexico and Arizona When the Union triumph restored the continental balance of power French forces withdrew and Liberals consolidated a republic in Mexico Canada was meantime fending off a potential rupture between French speaking Catholics in Quebec and English speakers in Ontario When Union victory raised the threat of American invasion Canadian leaders pressed for a continent wide confederation joined by a transcontinental railroad The rollicking story of liberal ideals political venality and corporate corruption marked the dawn of the Gilded Age in North America *An Education in Politics* Dave Mulder,2012-09-13 Dave Mulder comes from an academic background and his experience in the world of politics has been insightful He has many timely observations as to how to strengthen the political system Tom Osborne Athletic Director University of Nebraska Lincoln Its refreshing to see two Legislators from two opposite parties both of great character and high moral values who can work and cooperate together on issues important to Iowa and not just vote the party line which in many cases truly fails the purpose of good law making for the betterment of the great state of Iowa Bernie Saggau Retired Executive Secretary of the Iowa High School Athletic Assoc Dave and Franks informative lively discussion of their years in the Iowa Senate is a must read for anyone who wants to serve in an elected office Their political philosophies including faith based life lessons give readers educators and students a unique in depth perspective on grass roots politics It is my privilege to edit this book Lianne Mercer Author of Compassionate Witness Before We Say Goodbye

The Politics and Crisis Management of Animal Health Security John Connolly,2016-03-09 The Politics and Crisis Management of Animal Health Security addresses the 2001 foot and mouth epidemic in the United Kingdom one of if not the most significant crises ever to face the UK farming industry Underpinned by interviews with politicians and bureaucrats and with significant primary documentary analysis the book shows that the crisis was a critical juncture in how disease outbreaks have been planned and managed ever since The author explores how this event affected policy and governance arrangements for managing subsequent disease induced threats such as avian influenza and bovine TB and concludes by considering the temporality of lesson learning by the UK government including the current and future challenges associated with managing incongruent risks e g flood protection swine flu and Ebola This book provides students of public policy and administration with a significant illustration of how key concepts and analytical lenses from public policy can be applied to the study of the contours of practical policy change

Congressional Pathfinders J. Michael Martinez,2021-02-04 Congressional Pathfinders First Members of Congress and How They Shaped American History discusses those men and women whose service in the United States Congress as improbable as it was marked a turning point in history To be the first black American or the first woman to serve in a largely white male dominated institution requires a level of moral courage seldom found in ordinary people To be openly gay to subscribe to the Muslim faith in a nation often fearful and ignorant of Islam or to navigate the hallways of power with

physical disabilities is to be cognizant of one's separateness To be an other is to feel the stigma of that difference and yet to persevere is to forge a path for later generations of others to follow The service of these courageous men and women forever changed Congress and by extension the nation they truly were congressional pathfinders Nancy Pelosi Daniel Inouye Margaret Chase Smith Shirley Chisholm Ilhan Omar and Hillary Clinton are among the many figures profiled in Congressional Pathfinders

Body Stories Jill Andrews, May Friedman, 2020-11-01 Body stories capture a nuanced interconnected interactive and complex telling of our understanding perception and experience of and through our bodies Plenty has been published on body image but image suggests a static fixed body unmitigated through our social interactions and varying times and spaces This book is not a how to guide for fat confidence It's not a compendium of fat suffering It's simply a collection of narratives about what it's like to survive in a weight hating world It resists the ways that marginalized bodies are being written and researched and put into other people's ideas about our existence The stories in this book are celebratory and are painful They look at intersections of race and queerness they destabilize womanhood by presenting a range of possible female embodiments They explore issues of disability and madness The full range of possibilities that are collected here give a picture of what it means to live in a society with strong and powerful messages about size about normalcy about what a moral and healthy life and body look like This book is a snapshot of its place and time but these stories remind us that we're here to stay The body stories will change but we will keep owning our own narratives While story especially written by women is often seen as outside the academic canon these stories these creative offerings are theory are research and are activism They are nothing less than the blueprint for liberation Writing about fat and about bodies outside of medicalized narratives without ignoring the impact of race sexuality class ability gender fashion appearance and beyond is radical and rigorous It is impossible to think about the future without wishing for liberation Liberation can come in many forms It can mean an awareness the ability to confront The stories in this book display the ways that liberation isn't a finish line or a thing we can complete rather it is a million small actions
