My Other Neighborhood:

Devotion to a Community Lefranc Guerin, 2012-02-27 The three devoted families had the same ambitions and followed the same path They have many things in common but the best one is the devotion they have to God The devotees abandoned a several activities to observe the Gods commandments The family of Saladin Guerin Anderson Monfleury and Morris Charles had a great attachment to each other as well a great devotion to their community In the Town of Spring Hill Valley where they lived they gathered in their community to help the needy people when it was required The three families were a prosperous group that always tried to understand the problem of each other They lay gathering their thoughts together and gathered themselves for a tremendous leap With their devotion to the community it implied to bring widely scattered things or people to one place but with no particular arrangement To gather three families in a lonely group they must have the same ambitions as well as the same devotion Saladin Anderson and Morris were the three families who had the same vision by sharing the similar location religions and other attribute The devotees lived near each other and had a one common interest Specifically Saladin Guerin was the one who devoted his life in the religious observance or prayer 100% With the real love he had for God he became the church clerk His performance had promoted him to be assistance manager Expand the War on Poverty United States. Homegirls in the Public Sphere Marie Miranda, 2003-12-01 Girls in gangs are usually treated as objects of public criticism and rejection Seldom are they viewed as objects worthy of understanding and even more rarely are they allowed to be active subjects who craft their own public persona which is what makes this work unique In this book Marie Keta Miranda presents the results of an ethnographic collaboration with Chicana gang members in which they contest popular and academic representations of Chicana o youth and also construct their own narratives of self identity through a documentary film It s a Homie Thang In telling the story of her research in the Fruitvale community of Oakland California Miranda honestly reveals how even a sympathetic ethnographer from the same ethnic group can objectify the subjects of her study She recounts how her project evolved into a study of representation and its effects in the public sphere as the young women spoke out about how public images of their lives rarely come close to the reality As Miranda describes how she listened to the gang members

and collaborated in the production of their documentary she sheds new light on the politics of representation and ethnography on how inner city adolescent Chicanas present themselves to various publics and on how Chicana gangs actually function

The Rousing Drum Scott Schnell, 1999-06-01 Ritual is too often equated with unvarying or

repetitive behavior This impression is encouraged by the ethnographic tendency toward an overly narrow time frame which highlights current relationships and conditions rather than long term developments The Rousing Drum takes a different view It adopts a historical perspective encompassing several hundred years in exploring the role of ritual as an effective medium for negotiating sociopolitical and economic change The setting is Furukawa a town located in Japan s mountainous interior Every spring the local Shinto shrine festival provides an opportunity for enacting social relationships and attitudes By day a portable shrine containing the spirit of the guardian deity is escorted through town in a stately procession At night however a different scenario unfolds A barrel shaped drum is borne through the nighttime streets on a massive grid like platform Prominent members of the community are obliged to ride upon the platform while teams of young adults rush out and attack it as it passes through their respective neighborhoods The action can become quite unruly and random fights and injuries are accepted as inevitable correlates In analyzing the festival over time Schnell reveals a dramatic transformation The drum ritual which originated as a minor preliminary to the other events emerged during the late 1800s as an occasion for airing hostilities and settling scores As Japan s modernization progressed the ritual performance came to embody a symbolic challenge to institutionalized authority and occasionally escalated into politically motivated violence While the religious ceremonies observed during the day were appropriated by local power holders the nighttime drum ritual represented a folk response to the officially sanctioned liturgy The festival as a whole thus represented the clash of competing ideologies within the context of a single public forum Today s ritual rather tame by comparison is being transformed into a tourist attraction aligned with the town s economic development objectives Schnell s careful examination of the ethnohistorical data offers a valuable new perspective on Japanese festivals as well as the events and conditions that influence their development His innovative look at ritual behavior over time persuades us that we can grasp the underlying significance of such activities only if we consider them within the context of larger historical patterns *Hearings* United States.
