the question of how diaries and these essays display Philippe Lejeune's expertise, eloquence, passion and humor as a commentator on the functions, practices and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay *The Autobiographical Pact* has shaped life writing studies for more than thirty years and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. His style is very personal, lively. It grabs the reader as scholarship rarely does. Lejeune's erudition and methodology are impeccable. Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies and cultural studies.

The Journals and Letters of Susan Burney Philip Olleson, 2016-03-09 Susan Burney 1755-1800 was the third daughter of the music historian Charles Burney and the younger sister of the novelist Frances Fanny Burney. She grew up in London where she was able to observe at close quarters the musical life of the capital and to meet the many musicians, men of letters and artists who visited the family home. After her marriage in 1782 to Molesworth Phillips, a Royal Marines officer who served with Captain Cook on his last voyage, she lived in Surrey and later in rural Ireland. Burney was a knowledgeable enthusiast for music and particularly for opera, with discriminating tastes and the ability to capture vividly musical life and the personalities involved in it. Her extensive journals and letters, a selection from which is presented here, provide a striking portrait of social, domestic and cultural life in London, the Home Counties and in Ireland in the late eighteenth century. They are of the greatest importance and interest to music and theatre historians and also contain much that will be of significance and interest for Burney scholars, social historians of England and Ireland, women's historians and historians of the family.

American Pigeon Journal, 1924 **The Worst Journey in the World (Illustrated Edition)** Apsley Cherry-Garrard, 2018-12-20 *The Worst Journey in the World* is a memoir of the 1910-1913 British Antarctic Expedition led by Robert Falcon Scott. It was written by a member of the expedition, Apsley Cherry-Garrard, and has earned wide praise for its frank treatment of the difficulties of the expedition, the causes of its disastrous outcome and the meaning of any of human suffering under extreme conditions. In 1910, Cherry-Garrard and his fellow explorers travelled by sailing vessel the *Terra Nova* from Cardiff to McMurdo Sound, Antarctica. The second in command, Dr Edward Wilson, had a personal goal in Antarctica: to recover eggs of the Emperor penguin for scientific study. As the bird nests during the Antarctic winter, it was necessary to mount a special expedition in July 1911 to the penguins' rookery at Cape Crozier. Wilson chose Cherry-Garrard to accompany him and another crew member across the Ross Ice Shelf under conditions of complete darkness and

temperatures of 40 C and below All three men barely alive returned from Cape Crozier with their egg specimens which were stored
