My Red Animal:

The Colours the Words Cast Christopher Butler, Anne-Marie Simon-Vandenberg, 2025-08-29 This book examines the use of colour terms in the poetry of Dylan Thomas adopting a primarily linguistic and stylistic rather than literary approach. Although critical studies of the poetry of Dylan Thomas abound, systematic and detailed linguistic studies of his poems are relatively rare. The authors' main aim is to investigate in detail the use of colour terms and in particular to link this to the associations between colours and their connotative symbolic meanings which form the basis for what have been called colour metaphors. They also provide a rich database of these associations which will be of use to researchers who may be interested in the use of colour terms in other texts, whether literary or non-literary. This book will be of interest primarily to academics and advanced students in the field of linguistic stylistics.

Beast-People Onscreen and in Your Brain Mark Pizzato, 2016-02-22 A new take on our bio-cultural evolution explores how the inner theatre of the brain and its animal-human stages are reflected in and shaped by the mirror of cinema. Vampire, werewolf and ape planet films are perennial favorites perhaps because they speak to something primal in human nature. This intriguing volume examines such films in light of the latest developments in neuroscience, revealing ways in which animal-human monster movies reflect and affect what we naturally imagine in our minds. Examining specific films as well as early cave images, the book discusses how certain creatures on rock walls and movie screens express animal-to-human evolution and the structures of our brains. The book presents a new model of the human brain with its theatrical, cinematic and animal elements. It also develops a theory of *rasa* catharsis as the clarifying of emotions within and between spectators of the stage or screen, drawing on Eastern and Western aesthetics as well as current neuroscience. It focuses on the inner movie theater of memories, dreams and reality representations involving developmental stages as well as the hall of mirrors, ape egos and body swapping identifications between human beings. Finally, the book shows how ironic twists onscreen, especially of contradictory emotions, might evoke a reappraisal of feelings, helping spectators to be more attentive to their own impulses. Through this interdisciplinary study, scholars, artists and general readers will find a fresh way to understand the potential for interactive mindfulness and yet cathartic backfire between human brains in cinema, in theater and in daily life.

Animals and the Afterlife Kim Sheridan, 2006-02-01 Amazing true life stories of contact with pets in the next life. Kim Sheridan grew up with animals as her constant companions. Each time she faced the death of a beloved pet, along with the pain came the same questions to which she could find no answers. Then mysterious things began to happen that she couldn't explain, which led her on an incredible journey to uncover the truth. Along with her own extraordinary experiences, she compiled heartwarming and meaningful true stories of everyday people around the world and discovered compelling

evidence that forever erased her own doubts about an afterlife for animals This book provides enormous comfort and reassurance to anyone who has ever cherished a pet and food for thought for anyone who has ever questioned the place of these beloved creatures in the larger scheme of things both here on Earth and beyond *Animals and Early Modern Identity* PiaF. Cuneo,2017-07-05 Animals were everywhere in the early modern period and they impacted at least in some way the lives of every kind of early modern person from the humblest peasant to the greatest prince Artists made careers based on depicting them English gentry impoverished themselves spending money on them Humanists exercised their scholarship writing about them Pastors saved souls delivering sermons on them Nobles forged alliances competing with them Foreigners and indigenes negotiated with one another through trading them The nexus between animal human relationships and early modern identity is illuminated in this volume by the latest research of international scholars working on the history of art literature and of sixteenth and seventeenth century Germany France England Spain and South Africa Collectively these essays investigate how animals horses dogs pigs hogs fish cattle sheep birds rhinoceroses even sea monsters and other creatures served people in Europe England the Americas and Africa to defend contest or transcend the boundaries of early modern identities Developments in the methodologies employed by scholars to interrogate the past have opened up an intellectual and discursive space for and a concomitant recognition of the study of animals as a topic that significantly elucidates past and present histories Relevant to a considerable array of disciplines the study of animals also provides a means to surmount traditional disciplinary boundaries through processes of dynamic interchange and cross fertilization

Experiences from the Threshold and Beyond Are Thoresen,2020-12-16 There is a physical world which we all accept as real but there is also a spiritual world which interpenetrates this material world and is its cause and foundation Between these two worlds exists a threshold that can be felt seen clairvoyantly traversed and passed through by anyone with a real desire to do so At this threshold there is a guardian whose task is to stop humans from passing across it unprepared From the Introduction Based on first hand knowledge Are Thoresen offers insights into the meaning of the threshold to the spiritual world He describes his own experiences in encountering this threshold and going beyond it But there are many thresholds to the spiritual world he says and many ways to pass them as there are many aspects to the guardian of the threshold and versions of the so called animals at the threshold The worlds beyond too have a variety of different constructions or as the Bible says In my Father s house are many mansions The author describes the methods and techniques for opening the spiritual sense organs required to cross the threshold and clarifies the differences between Imagination seeing spiritual pictures Inspiration understanding those pictures and Intuition living inside the spiritual reality Structuring the book on his own biography Thoresen conveys many of the lessons he has learnt through decades of familiarity with the invisible dimensions However he warns that there is only one good reason to attempt to cross the threshold and that is to serve God and humanity in the name of love If we do it out of curiosity or to enhance our personal development it would be
