Why We Curse Timothy Jay, 1999-12-15 Psychiatrists psychologists neurologists linguists and speech pathologists currently have no coherent theory to explain why we curse and why we choose the words we do when we curse The Neuro Psycho Social Theory of Speech draws together information about cursing from different disciplines and unites them to

explain and describe the psychological neurological cultural and linguistic factors that underlie this startling phenomenon Why We Curse is divided into five parts Part 1 introduces the dimensions and scope of cursing and outlines the NPS Theory while Part 2 covers neurological variables and offers evidence for right brain dominance during emotional speech events Part 3 then focuses on psychological development including language acquisition personality development cognition and so forth while Part 4 covers the wide variety of social and cultural forces that define curse words and restrict their usage Finally Part 5 concludes by examining the social and legal implications of cursing treating misconceptions about cursing and setting the agenda for future research The work draws on new research by Dr Jay and others and continues the research reported in his groundbreaking 1992 volume Cursing in America A psycholinguistic study of dirty language in the courts in the movies in the schoolyards and on the streets

The Oxford Companion to New Zealand Literature contains more than 1500 alphabetically arranged entries on writers novels plays poetry journals periodicals anthologies literary movements and professional organizations **Fairness and Freedom** David Hackett Fischer,2012-02-10

Fairness and Freedom compares the history of two open societies New Zealand and the United States with much in common Both have democratic polities mixed enterprise economies individuated societies pluralist cultures and a deep concern for human rights and the rule of law But all of these elements take different forms because constellations of value are far apart The dream of living free is America s Polaris fairness and natural justice are New Zealand s Southern Cross Fischer asks why these similar countries went different ways Both were founded by English speaking colonists but at different times and with disparate purposes They lived in the first and second British Empires which operated in very different ways Indians and Maori were important agents of change but to different ends On the American frontier and in New Zealand s Bush material possibilities and moral choices were not the same Fischer takes the same comparative approach to parallel processes of nation building and immigration women s rights and racial wrongs reform causes and conservative responses war fighting and peace making and global engagement in our own time with similar results On another level this book expands Fischer s past work on liberty and freedom It is the first book to be published on the history of fairness And it also poses new questions in the old tradition of history and moral philosophy Is it possible to be both fair and free In a vast array of evidence Fischer finds that the strengths of these great values are needed to correct their weaknesses As many societies seek to become more open never twice in the same way an understanding of our differences is the only path to peace **The Maverick Guide to New Zealand, 1987-88** Robert W. Bone,1986-12
