

Resume Preparation Tips

If you are seeking a new job, you cannot afford to be without a well-prepared resume. While writing an effective resume can often be one of the most difficult aspects of job hunting, following a few basic rules will make building and improving your resume less onerous.

The Basics

The objective of a resume is to sell your skills to a prospective employer, or at least generate enough interest to enable you to obtain an interview. Ask yourself "What are the main attributes that I have to offer an employer?", then make sure that these are covered in your resume. Stick to the facts and avoid over-embellishment, but don't be afraid to include all relevant factors that indicate your capability to do the job.

Keep the resume concise; it should rarely exceed three letter-sized pages. Use clear, precise language and ensure that all spelling is accurate and that there are no grammatical errors. It is a wise idea to have someone with good language skills proofread the document before you make copies. (Grammatical and typographical errors make a powerful negative impression!) Always strive for a clear, uncluttered look. Your resume should generally contain information under the following categories:

Personal Information

List your full name, address and home telephone number. If it is appropriate for people to contact you at your present employment, provide your business number and local, if applicable. Also provide a fax number and/or e-mail address if available. (Under Canadian legislation, your date of birth, marital status and number of dependents are considered privileged information, access to which a prospective employer is not entitled. Therefore, we generally recommend they be omitted.)

Career Objective

The objective gives focus to your resume. If you are seeking a challenging middle-management position, an entry-level position, or a career change, then say so. Don't leave the employers to guess what you are looking for. Be realistic. This isn't the time to talk about advancement potential or your long term plan.

Overview / Skills Summary

It may be beneficial for you to highlight your skills early in your resume. Depending upon your field, you could list the specific computer software, the styles of accounting systems in which you have experience, size of budget controlled, supervisory experience, foreign languages, sales awards received, etc.
