Howard A. Husock, 2019-09-10 Billions of American tax dollars go into a vast array of programs targeting various social issues the opioid epidemic criminal violence chronic unemployment and so on Yet the problems persist and even grow Howard Husock argues that we have lost sight of a more powerful strategy a preventive strategy based on positive social norms In the past individuals and institutions of civil society actively promoted what may be called bourgeois norms to nurture healthy habits so that social problems wouldn t emerge in the first place It was a formative effort Today a massive social service state instead takes a reformatory approach to problems that have already become vexing It offers counseling along with material support but struggling communities have been more harmed than helped by government s embrace And social service agencies have a vested interest in the continuance of problems Government can provide a financial safety net for citizens but it cannot effectively create or promote healthy norms Nor should it try That formative work is best done by civil society This book focuses on six key figures in the history of social welfare to illuminate how a norm promoting culture was built then lost and how it can be revived We read about Charles Loring Brace founder of the Children s Aid Society Jane Addams founder of Hull House Mary Richmond a social work pioneer Grace Abbott of the federal Children s Bureau Wilbur Cohen of the Department of Health Education and Welfare and Geoffrey Canada founder of the Harlem Children s Zone a model for bringing real benefit to a poor community through positive social norms We need more like it **Sociological Lives and Ideas** Fred C. Pampel, 2006-09-15 Despite their role in founding and defining the discipline of sociology the field s

classical theorists typically receive only cursory attention in standard introductory texts Written specifically for undergraduate students this supplemental text Fred Pampel s Sociological Lives and Ideas brings to life the fundamental ideas of Karl Marx Emile Durkheim Max Weber Georg Simmel George H Mead and W E B DuBois by placing them in the context of each theorists biography By exploring the lives and times of these key figures students will gain a richer understanding of their intellectual legacies as well as of the ways in which their work can be applied to current issues
