

# 5 KEY STEPS OF FINANCIAL PLANNING

1.

## GETTING TO KNOW YOU

Financial planning is not a rubber-stamp process. Before we even talk about finances, we take the time to get to know who you are. Where have you been and where do you see yourself going? And you will take this time to get to know us and how we can help.

## YOUR GOALS & DREAMS

A skilled financial planner can assist you to identify your financial goals, prioritise them and understand the steps required to turn your dreams into reality. By knowing your goals and timeframes, it's easier to see where to concentrate your efforts. You'll also spot the distractions that would otherwise blow you off course.

2.

3.

## CREATING A PLAN

Developing a written plan with a clear emphasis is critical to achieving your financial objectives. We can provide budgeting and debt management advice to help you start creating wealth without the costly anchor of "bad" debt. Investments and structures that suit your personal circumstances and goals are a key component. Protecting your future dreams with appropriate risk cover is fundamental to your plan.

## IMPLEMENTATION

Once you have agreed on the plan we have prepared, each recommendation for investments, risk cover and structures will be put into place. This is when your financial plan comes alive and becomes part of your exciting future.

4.

5.

## MONITOR & REVIEW

Life rarely turns out exactly as anyone expects, so when changes come along it's important that your financial plan changes too. With regular reviews we will be there to steer you on your path to financial independence and ensure your plan remains relevant and on track.

and the finance function at the MOD does not have as central role in strategic planning as it should have Annual financial plans at the MOD have been over committed By the end of July 2009 the budget for the Department was exceeded by its forecast for the rest of that year by 700 million When the assumptions underlying the plan for 2010 11 were reassessed the forecast deficit grew from 185 million to over 500 million The Department should make choices in setting its budgets and priorities and could use financial management more effectively to address those factors which are within its control The shortfalls in financial management have significant consequences The over commitment in future spending plans has led to additional savings being necessary During 2009 10 the Department had to find additional savings of 800 million to bring its planned expenditure back into line with its budgets Finding these reductions mid year is a time consuming and destabilising exercise Many areas have to revisit or adjust their plans leading to delays material changes to project specifications and costly renegotiation of contracts with industry Delaying projects also leads to significant increases in the project cost The forthcoming Strategic Defence and Security Review will provide an opportunity for the Department to rebalance its future spending plans in the short term Over the longer term however the challenge for the MOD will be to ensure that these plans remain in balance
