

PERSONAL KNOWLEDGE AND BEYOND

RESHAPING THE ETHNOGRAPHY OF RELIGION

EDITED BY
JAMES W. SPICKARD, J. SHAWN LANDRICK,
AND MEREDITH B. MCQUIRE

Personal Knowledge And Beyond

Peter Hervik

Personal Knowledge And Beyond:

Personal Knowledge and Beyond James V. Spickard, Shawn Landres, Meredith B. McGuire, 2002-02 Personal Knowledge and Beyond seeks to foster a cross disciplinary rethinking of ethnography's possibilities and limits for the study of religions. It provides an overview of recent debates while also pushing them in new directions.

Personal Knowledge and Beyond James V. Spickard, Shawn Landres, Meredith B. McGuire, 2002-02 Personal Knowledge and Beyond seeks to foster a cross disciplinary rethinking of ethnography's possibilities and limits for the study of religions. It provides an overview of recent debates while also pushing them in new directions.

Personal Knowledge Management David J. Pauleen, 2016-05-13 Individuals need to survive and grow in changing and sometimes turbulent organizational environments while organizations and societies want individuals to have the knowledge, skills, and abilities that will enable them to prosper and thrive. Personal Knowledge Management (PKM) is a means of coping with complex environmental changes and developments; it is a form of sophisticated career and life management. Personal Knowledge Management is an evolving concept that focuses on the importance of individual growth and learning as much as on the technology and management processes traditionally associated with organizational knowledge management. This book looks at the emergence of PKM from a multi-disciplinary perspective, and its contributors reflect the diverse fields of study that touch upon it. Relatively little research or major conceptual development has so far been focused on PKM, but already significant questions are being asked, such as: is there an inherent conflict between personal and organizational knowledge management, and how best do we harmonize individual and organizational goals? This book will inform, stimulate, and challenge every reader. By delving both deeply and broadly into its subject, the distinguished authors help all those concerned with knowledge work and knowledge workers to see how PKM supports and affects individuals, organizations, and society as a whole, to better understand the concepts involved and to benefit from relevant research in this important area.

Beyond Legitimation Donald Wiebe, 2016-01-01 The early essays in this volume proceed on the assumption that a compatibility system can be fashioned that will not only bring religious knowledge claims into harmony with scientific claims but will also show there to be a fundamental similarity of method in religious and scientific thinking. They are not, however, unambiguously successful. Consequently, Professor Wiebe sets out in the succeeding essays to seek an understanding of the religion/science relationship that does not assume they must be compatible. That examination in the final analysis reveals a fundamental contradiction in the compatibility system building programme, which more than suggests that religious belief/knowledge is beyond legitimation.

Faith and Knowledge Douglas Sloan, 1994-01-01 Sloan explores the impact that the Protestant theological renaissance (1925-1960) had on American colleges and universities, focusing in particular on the church's most significant claim to have a continuing voice in higher education. He traces the role of the national ecumenical and denominational organizations and studies the changing place of college chaplains.

Beyond the Facts James W. Cortada, 2025-08-07 This book describes tacit knowledge: what it is, how it

used and its role in our current data driven world It argues that fuzzy hard to describe information is greater and more important than just hard facts What is tacit knowledge It is what we might consider knowledge that is unable to be fully communicated knowledge that we understand implicitly but it is a bit hard to explain For example it is the kind of knowledge one needs to ride a bicycle but that cannot be described precisely on paper in the way one might be able to explain how to cook a dish Tacit knowledge is the least understood type of information and one of the most difficult to communicate Yet there is more tacit knowledge in our lives than the specific facts one can find in a book on the Internet or in the simple form of a fact This book is designed to introduce the reader to the concept of tacit knowledge and how to recognize and use it This book offers definitions of tacit knowledge and compares the topic to explicit knowledge then describes how the former is used today The author argues that both types are used today and explains how one can use both types of knowledge in their lives Topics include The role of tacit knowledge in business and government The wide use of Knowledge Management techniques in tacit knowledge and the newly emerging set of ideas quietly spreading in the workplace called Critical Systems Thinking How one can understand and apply tacit knowledge How AI can apply tacit knowledge And more This book is essential primer to understanding tacit knowledge and learning how to use it to your advantage The World Beyond Your Head Matthew B. Crawford, 2015-03-31 In his bestselling book Shop Class as Soulcraft Matthew B Crawford explored the ethical and practical importance of manual competence as expressed through mastery of our physical environment In his brilliant follow up The World Beyond Your Head Crawford investigates the challenge of mastering one's own mind We often complain about our fractured mental lives and feel beset by outside forces that destroy our focus and disrupt our peace of mind Any defense against this Crawford argues requires that we reckon with the way attention sculpts the self Crawford investigates the intense focus of ice hockey players and short order chefs the quasi autistic behavior of gambling addicts the familiar hassles of daily life and the deep slow craft of building pipe organs He shows that our current crisis of attention is only superficially the result of digital technology and becomes more comprehensible when understood as the coming to fruition of certain assumptions at the root of Western culture that are profoundly at odds with human nature The World Beyond Your Head makes sense of an astonishing array of common experience from the frustrations of airport security to the rise of the hipster With implications for the way we raise our children the design of public spaces and democracy itself this is a book of urgent relevance to contemporary life

Mayan People Within and Beyond Boundaries Peter Hervik, 2013-12-02 Mayan People Within and Beyond Boundaries explores the Maya of Yucatan the Maya of academic institutions and the Maya of the tourist industry It examines the interplay between the local and the external academic categories of the Maya and seeks to transcend the paradoxical and incongruent relationship between the social spaces that breathe life into the categories The notion of shared social experience is introduced to embody a focus on reflexivity that goes beyond the subjective position of the author and helps demystify the coexisting subjectivities characteristic of

ethnographic fieldwork It provides a basis for overcoming the exclusive focus on author text and discourse in contemporary postmodernist ethnography while still conveying important ethnographic information

Proceedings of the Boston Colloquium for the Philosophy of Science 1966/1968 Robert S. Cohen,Marx W. Wartofsky,2012-12-06 The fourth volume of Boston Studies in the Philosophy of Science consists mainly of papers which were contributed to our Colloquium during the past few years The volume represents a wide range of interests in contemporary philosophy of science issues in the philosophy of mind and of language the neurophysiology of perceptual and linguistic behavior philosophy of history and of the social sciences and studies in the fundamental categories and methods of philosophy and the inter relationships of the sciences with ethics and metaphysics Papers on the logic and methods of the natural sciences including biological physical and mathematical topics appear in the fifth volume of our series We have included in the present volume the first English translation of the classic and fundamental work on aphasia by Carl Wernicke together with a lucid and appreciative guide to his work by Dr Norman Geschwind The papers were not written to form a coherent volume nor have they been edited with such a purpose They represent current work in progress both in the United States and in Europe Although most of the authors are philosophers it is worth noting that we have essays of philosophical significance here written by a sociologist an anthropologist a political scientist and by three neurophysiologists We hope that collaboration among working scientists and working philosophers may develop further

Beyond Territory Harald Bathelt,Maryann Feldman,Dieter F. Kogler,2012-03-29 The main purpose of the book is to discuss new trends in the dynamic geography of innovation and argue that in an era of increasing globalization two trends seem quite dominant rigid territorial models of innovation and localized configurations of innovative activities The book brings together scholars who are working on these topics Rather than focusing on established concepts and theories the book aims to question narrow explanations rigid territorializations and simplistic policy frameworks it provides evidence that innovation while not exclusively dependent on regional contexts can be influenced by place specific attributes The book will bring together new empirical and conceptual work by an interdisciplinary group of leading scholars from areas such as economic geography innovation studies and political science Based on recent discussions surrounding innovation systems of different types it aims to synthesize state of the art know how and provide new perspectives on the role of innovation and knowledge creation in the global political economy

Beyond E-Learning Marc J. Rosenberg,2005-12-13 A follow up to his best selling E Learning Beyond E Learning explains the most current thinking on how organizations learn and apply what they know to be successful and explores the increasingly important role that technology plays not as an end in itself but as a vital means to get there The book also provides a clear path for helping to integrate learning including e learning knowledge management and performance support and will help training professionals and the organizations they serve go beyond common myths and misconceptions about training and e learning focus training learning activities directly on organizational know how and implement a framework that can at last be

a catalyst for true organizational learning Beyond Method Gareth Morgan,1983-05 Research is often seen as a neutral technical process through which researchers simply reveal or discover knowledge A broader and more self reflective stance is advocated in *Beyond Method* one in which a knowledge of technique needs to be complemented by an appreciation of the nature of research as a distinctively human process through which researchers make knowledge Such an appreciation requires a reframing of understanding and debate about research in a way that goes beyond considerations of method alone

Moving Beyond Academic Discourse Christian R. Weissler,2002 Weissler English U of Hawaii Hilo addresses the issue of how to move writing instruction into the public sphere Coverage includes the historical background recent progressive theories in composition studies on writing as a site of political and social engagement existing theoretical conversations and how they are understood within contemporary social and cultural theory with a focus on the work of Jurgen Habermas the role of the intellectual in postmodern society and the degree to which the material conditions of academic life allow for public intellectualism For theorists teachers and writers at all levels Annotation copyrighted by Book News Inc Portland OR

Beyond Bullying Simone Paul,2014-04-24 *Beyond Bullying* offers guidance and advice on conducting practitioner research into bullying and provides resources to assist practitioners and researchers in doing so It draws on a case study of almost 1 000 secondary school students over a period of 5 academic years to explore student perception of traditional bullying and cyber bullying and how recommended approaches to bullying research can be applied to practice The book provides an overview of bullying and cyber bullying literature considering recent research in the field how this was conducted and what the findings were In addition the case study illustrates how a positive anti bullying school ethos can be established through practitioner research Each chapter will impart both practical and academic knowledge enabling the reader to conduct bullying research with secondary school students complete research activities with bullies and victims help students to raise awareness of bullying in school inform school staff of problems occurring at class level *Beyond Bullying* discusses how bullying research can be used to construct a model of bullying behaviour in the school environment and establishes suitable approaches to bullying intervention The book will appeal to practitioner researchers in the area of school bullying as well as practitioners researchers and postgraduate students in the fields of education sociology and related disciplines Beyond Methods B. Kumaravadivelu,2003-01-01 Publisher's description In this original book B

Kumaravadivelu presents a macrostrategic framework designed to help both beginning and experienced teachers develop a systematic coherent and personal theory of practice His book provides the tools a teacher needs in order to self observe self analyze and self evaluate his or her own teaching acts The framework consists of ten macrostrategies based on current theoretical empirical and experiential knowledge of second language and foreign language teaching These strategies enable teachers to evaluate classroom practices and to generate techniques and activities for realizing teaching goals With checklists surveys projects and reflective tasks to encourage critical thinking the book is both practical and accessible

Teachers and future teachers researchers and teacher educators will find the volume indispensable **Supporting Self-Directed Learning in Science and Technology Beyond the School Years** Léonie J. Rennie, Susan M.

Stockmayer, John K. Gilbert, 2018-12-21 While much has been written about science education from pre K through to postgraduate study interaction with science and technology does not stop when schooling ends Moving beyond scholarship on conventional education this book extends the research and provides an original in depth look at adult and lifelong learning in science and technology By identifying the knowledge and skills that individuals need to engage in self directed learning the book highlights how educators can best support adult learners beyond the years of formal schooling Through case studies and empirical analysis the authors offer a research based exploration of adults self directed learning and provide tools to support adults learning experiences in a wide range of environments while being inclusive of all educational backgrounds

Beyond the Courtroom Hal Abramson, 2020-11-03 Beyond the Courtroom provides a compilation of articles and chapters by a dispute resolution scholar who has made remarkable contributions over his thirty year career Professor Abramson has focused his research and practice on parties trying to resolve their own disputes This book includes publications that have contributed to launching the then new field of mediation representation with special attention on how attorneys as gate keepers to mediation can effectively represent clients The book also includes his original publications that have contributed to the emerging field of intercultural and international mediation and the already robust and mature field of negotiations

Thinking Beyond Technology J. DiVanna, 2002-11-15 The book examines the value proposition of technology and its relationship with business innovation social preferences and its role as a mechanism of labour savings or revenue generation In the same style as his first book Redefining Financial Services the author combines empirical knowledge with a historical approach revealing the explicit nature of technological advancement while analysing the implicit impact on the process of business The book presents the reader with a question does society shape technology or is technology shaping society

TRANSLATING Coaching Codes of Practice - Leading the way into the personal knowledge bases of everyday practitioners Yvonne Thackray, 2017-09-22 Leading the way into the personal knowledge bases of every day practitioners is the third book in the Translating Coaching Codes of Practice series Our latest edited volume continues to be packed with refreshingly candid and insightful experiences Over thirty established practitioners both new and regular share their realised insights and patterns from their unique code of practice They report on key events that have influenced how they practice They may be working from within an organisation They may be working from a portfolio of service contracts with professionals in various organisations They are all working with an individual directly with groups and or teams in different locations all around the world Their insights and patterns of practice will be valuable to anyone seeking to make sense of how their coaching approach works in their own space Importantly the real knowledge of how coaching works lives in the heads of practitioners **Knowledge Beyond Colour Lines** Monwabisi K. Ralarala, Salochana Lorraine Hassan, Rajani

Naidoo, 2021-05-25 Knowledge remains timely in education The need for academics to contemplate its relevance worth use and everything in between deems a continuous intellectual project rather than a conundrum to be solved This book takes the South African context by the horns as it challenges the often dormant and traditionalist ways in which higher education spaces see knowledge Through original research and the voices of academics and students this book argues for repurposing knowledge generation knowledge sharing and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained The contentious tensionalities that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines Prof Shan Simmonds PhD NWU This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa The issues dealt with here are varied and encompassing They are treated with intellectual delicacy and probing sensitivity articulacy informed data and bold conclusions They serve well Prof Kwesi Kwaa Prah Emeritus Professor of Sociology University of the Western Cape Founder of the Centre for Advanced Studies of African Society

Unveiling the Magic of Words: A Overview of "**Personal Knowledge And Beyond**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Personal Knowledge And Beyond**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound impact on the souls of its readers.
