Personal Recollections Of Harvey Wood:

Personal Recollections of Harvey Wood Harvey Wood,1955 Personal Recollections of Harvey Wood Harvey Wood,1896 Personal Recollections Harvey Wood,1955 Harvey Wood 1828 1895 a young clerk in a New Jersey store joined the Kit Carson Association of would be California miners that set out from New York in February 1849 sailing to Texas and crossing Mexico overland to find passage north to San Diego Wood reached the Southern Mines in July 1849 spending the next seven years searching for gold on the Merced and Stanislas Rivers In 1856 he purchased an interest in Robinsons Ferry across the Stanislas River a business he maintained the rest of his life Personal recollections 1955 reprints a memoir written in 1878 and first published in 1896 Wood describes his voyage to California and his experiences as a miner in modern Calaveras and Tuolumne Counties 1849 1850 **Stealing the Gila** David H. DeJong,2016-09-15 By 1850 the Pima Indians of central Arizona had developed a strong and sustainable agricultural economy based on irrigation As David H DeJong demonstrates the Pima were an economic force in the mid nineteenth century middle Gila River valley producing food and fiber crops for western military expeditions and immigrants Moreover crops from their fields provided an additional source of food for the Mexican military presidio in Tucson as well as the U S mining districts centered near Prescott For a brief period of about three decades the Pima were on an equal economic footing with their non Indian neighbors This economic vitality did not last however As immigrants settled upstream from the Pima villages they deprived the Indians of the water they needed to sustain their economy DeJong traces federal territorial and state policies that ignored Pima water rights even though some policies appeared to encourage Indian agriculture This is a particularly egregious example of a common story in the West the flagrant local rejection of Supreme Court rulings that protected Indian water rights With plentiful maps tables and illustrations DeJong demonstrates that maintaining the spreading farms and growing towns of the increasingly white population led Congress and other government agencies to willfully deny Pimas their water rights Had their rights been protected DeJong argues Pimas would have had an economy rivaling the local and national economies of the time Instead of succeeding the Pima were reduced to cycles of poverty their lives destroyed by greed and disrespect for the law as well as legal decisions made for personal gain **Melones** Julia G. Costello,1983 **Roaring Camp: The Social World of the California Gold Rush** Susan Lee Johnson,2000-12-17 Winner of the Bancroft Prize The world of the California Gold Rush that comes down to us through fiction and film is one of half truths In this brilliant work of social history Susan Lee Johnson enters the well worked diggings of Gold Rush history and strikes a rich lode Johnson explores the dynamic social world created by the Gold Rush in the Sierra Nevada foothills east of Stockton charting the surprising ways in which the conventions of identity ethnic national and sexual were reshaped With a keen eye for character and story she shows us how this peculiar world evolved over time and how our cultural memory of the Gold Rush took root Hispanic Arizona, 1536-1856 James E. Officer,2015-11-15 The history of the American West has usually been seen from the perspective of

American expansion Drawing on previously unexplored primary sources James E Officer has now produced a major work that traces the Hispanic roots of southern Arizona and northern Sonora one which presents the Spanish and Mexican rather than Anglo point of view Officer records the Hispanic presence from the earliest efforts at colonization on Spain's northwestern frontier through the Spanish and Mexican years of rule thus providing a unique reference on Southwestern history The heart of the work centers on the early nineteenth century It explores subjects such as the constant threat posed by hostile Apaches government intrigue and revolution in Sonora and the provincias internas and patterns of land ownership in villages such as Tucson and Tubac Also covered are the origins of land grants in present day southern Arizona and the invasion of southern Arizona by American 49ers as seen from the Mexican point of view Officer traces kinship ties of several elite families who ruled the frontier province over many generations men and women whose descendants remain influential in Sonora and Arizona today

Mangas Coloradas, Chief of the Chiricahua Apaches Edwin Russell Sweeney, 1998 The first full length life of the Apache warrior leader Mangas Coloradas describes his outstanding qualities the Apache culture in which he rose to power and the battles against white and Mexican settlements in New Mexico that made him widely feared UP

The Lessening Stream Michael F. Logan, 2006-09-01 Newcomers to Tucson know the Santa Cruz River as a dry bed that can become a rampaging flood after heavy rains Yet until the late nineteenth century the Santa Cruz was an active watercourse that served the region's agricultural needs until a burgeoning industrial society began to tap the river's underground flow The Lessening Stream reviews the changing human use of the Santa Cruz River and its aquifer from the earliest human presence in the valley to today Michael Logan examines the social cultural and political history of the Santa Cruz Valley while interpreting the implications of various cultures impacts on the river and speculating about the future of water in the region Logan traces river history through three eras archaic modern and postmodern to capture the human history of the river from early Native American farmers through Spanish missionaries to Anglo settlers He shows how humans first diverted its surface flow then learned to pump its aquifer and today fail to fully understand the river's place in the urban environment By telling the story of the meandering river from its origin in southern Arizona through Mexico and the Tucson Basin to its terminus in farmland near Phoenix Logan links developments throughout the river valley so that a more complete picture of the river's history emerges He also contemplates the future of the Santa Cruz by confronting the serious problems posed by groundwater pumping in Tucson and addressing the effects of the Central Arizona Project on the river valley Skillfully interweaving history with hydrology geology archaeology and anthropology The Lessening Stream makes an important contribution to the environmental history of southern Arizona It reminds us that

because water will always be the focus for human activity in the desert we desperately need a more complete understanding of its place in our lives **American Studies** Janice A. Radway, Kevin Gaines, Barry Shank, Penny Von Eschen, 2009-03-09 American Studies is a vigorous bold account of the changes in the field of American Studies over the last thirty five years Through this set of carefully selected key essays by an editorial board of expert scholars the book demonstrates how changes in the field have produced new genealogies that tell different histories of both America and the study of America Charts the evolution of American Studies from the end of World War II to the present day by showcasing the best scholarship in this field An introductory essay by the distinguished editorial board highlights developments in the field and places each essay in its historical and theoretical context Explores topics such as American politics history culture race gender and working life Shows how changing perspectives have enabled older concepts to emerge in a different context Surviving Conquest Timothy Braatz, 2003-01-01 Surviving Conquest is a history of the Yavapai Indians who have lived for centuries in central Arizona Although primarily concerned with survival in a desert environment early Yavapais were also involved in a complex network of alliances rivalries and trade In the sixteenth and seventeenth centuries European missionaries and colonizers moved into the region bringing diseases livestock and a desire for Indian labor Beginning in 1863 U S settlers and soldiers invaded Yavapai lands established farms towns and forts and initiated murderous campaigns against Yavapai families Historian Timothy Braatz shows how Yavapais responded in a variety of ways to the violations that disrupted their hunting and gathering economies and threatened their survival In the 1860s some stole from American settlements and some turned to wage work Yavapais also asked U S officials to establish reservations where they could live safe from attack in their homelands Despite the Yavapais successful efforts to become sedentary farmers in 1875 U S officials relocated them across Arizona to the San Carlos Apache Reservation For the next twenty five years they remained in exile but were determined to return home They joined the commercial Arizona economy repeatedly requested permission to leave San Carlos and repeatedly denied left anyway a few families at a time By 1901 nearly all had returned to Yavapai lands and through persistence and savvy lobbying eventually received three federally recognized reservations Drawing on in depth archival research and accounts recorded in the early twentieth century by a Yavapai named Mike Burns Braatz tells the story of the Yavapais and their changing world *The Publishers Weekly*, 1924 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1957 Includes Part 1 Number 1 2 Books and Pamphlets Including Serials and Contributions to Periodicals January December **Calaveras Gold** Ronald H. Limbaugh, Willard P. Fuller, 2003-10-01 California s Calaveras County made famous by Mark Twain and his celebrated Jumping Frog is the focus of this comprehensive study of Mother Lode mining Most histories of the California Mother Lode have focused on the mines around the American and Yuba Rivers However the Southern Mines those centered around Calaveras County in the central Sierra were also important in the development of California s mineral wealth Calaveras Gold offers a detailed and meticulously researched history of mining

and its economic impact in this region from the first discoveries in the 1840s until the present Mining in Calaveras County covered the full spectrum of technology from the earliest placer efforts through drift and hydraulic mining to advanced hard rock industrial mining Subsidiary industries such as agriculture transportation lumbering and water supply as well as a complex social and political structure developed around the mines The authors examine the roles of race gender and class in this frontier society the generation and distribution of capital and the impact of the mines on the development of political and cultural institutions They also look at the impact of mining on the Native American population the realities of day to day life in the mining camps the development of agriculture and commerce the occurrence of crime and violence and the cosmopolitan nature of the population Calaveras County mining continued well into the twentieth century and the authors examine the ways that mining practices changed as the ores were depleted and how the communities evolved from mining camps into permanent towns with new economic foundations and directions Mining is no longer the basis of Calaveras s economy but memories of the great days of the Mother Lode still attract tourists who bring a new form of wealth to the region **Bookman's Guide to Americana** Joseph Norman Heard, Charles F. Hamsa, 1986 No descriptive material is available for this title **Catalog of Printed Books. Supplement** Bancroft Library, *Bancroftiana* ,1967 **Las Calaveras** ,1953
