**Personality Theories : a Comparative Analysis** Salvatore R. Maddi,1980      **Personality Theories** Salvatore R. Maddi,1972      **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1974      **Jung's Theory of Personality** Clare Crellin,2014-05-23 This book provides a re appraisal of Carl Jung s work as a personality theorist It offers a detailed consideration of Jung s work and theory in order to demystify some of the ideas that psychologists have found most difficult such as Jung s religious and alchemical writings The book shows why these two elements of his theory are integral to his psychology of personality and goes on to propose a framework on which to base a collaborative research programme that could provide much needed and at present unavailable validation data for some of Jung s key theoretical concepts Divided into two parts theory and practice the author begins by emphasising the importance of religion and alchemy for understanding Jung s key concepts of individuation and the self as well the link between Jung s concept of the archetype and its function in the development and transformation of personality The book considers the whole of Jung s work as a comprehensive theory of personality to which all strands including his writings on religion and on alchemy contribute The second part of the book is both empirical and theoretical Crellin reviews the history of the presentation of Jung s work in personality literature and discusses how inaccurate representation the limitations of existing evaluation criteria and consequent negative perceptions of Jung s theory in textbooks of personality psychology have contributed to the creation of a mythical Jung This book will appeal to both psychological practitioners who are unfamiliar or only have a vague understanding of Jung s ideas as well as Jungian psychoanalysts who are knowledgeable about Jung s writings but whose training may not have addressed the problem of theory evaluation in relation to Jung s theory      *Current Catalog* National Library of Medicine (U.S.),1968 Includes subject section name section and 1968 1970 technical reports      *Human Motivation* B. Weiner,2012-12-06 This book represents a major revision of my earlier work *Theories of Motivation From Mechanism to Cognition* A number of shortcomings in the p revious book became increasingly evident to me First of all there were serious omissions Second there has been much new knowl edge since the inception of the prior book so that it was becoming out dated And finally I was dissatisfied with some of the writing feeling that parts of the book were needlessly complex and that certain topics did not deserve the space that they were allotted A revision therefore was initiated I attempted to fill some of the gaps by including chapters on psychoanalytic social learning and humanistic theory Furthermore other topics that could have been dis cussed within the outline of *Theories of Motivation* but were neglected are incorporated into the present volume These topics include for ex ample social facilitation arousal emotions personal responsibility and the irrationality of attributions In addition to this new material I up dated the ideas examined in *Theories of Motivation* Little could be altered in the sections on H ullian and Lewinian theory for these con ceptions are no longer undergoing modification The discussion of these theories was merely shortened and simplified bringing them more in line

with their current influence in psychology But achievement and attribution theories have changed in the past years or at least our understanding in these areas has changed and discussion of these topics was greatly altered **Hans Eysenck: Consensus And Controversy** Sohan Modgil,Celia Modgil,2012-10-12 During the last forty years Hans Eysenck s brilliant contribution to knowledge has beenwell known world wide From its early transmission his work has not been without itscritics Naturally criticisms persist although his work continues to be frequentlyacknowledged with great admiration in the channels of psychology With such prolificwork it would seem justified to consider the discrepancies the omissions together withthe various interpretations which have been and are currently being highlighted **Dancing the Wheel of Psychological Types** Mary Loomis,1991-09-01 Mary Loomis s book shows truly how all great paths of knowledge are interwoven All are part of the great Medicine Wheel of life Sun Bear **Psychological Foundations of The Entrepreneurial Mindset** Kelly G. **The Social Influence Processes** James T. Tedeschi, 2017-07-12 Social psychologists have always been concerned with two person interactions and the factors enabling one person to gain dominance Although social psychology has devised a revolutionary set of techniques to investigate the phenomenon of power hypotheses are too often ambiguously stated research programs end in cul de sacs and experiments take on the character of one shot studies In an attempt to stimulate new directions in research and to provide cumulative emphasis on the development of scientific theory in the area of power relations Tedeschi has assembled original and path breaking essays from a dozen outstanding scholars and researchers in the behavioral sciences More tightly integrated than leading books in the field of power relations The Social Influence Processes focuses on two person interactions A full explanation of the terms power and influence is followed by an analysis of the major variables in connections between two persons that must be taken into account in a scientific theory of social influence The subsequent chapters respond to the categories established attempting a comprehensive construction of social reality and offering suggestions and techniques for measuring and ordering its complexity Particular areas of research and theory are isolated for consideration in depth such topics as personality as a power construct Power and Personality by Henry L Minton influence in exchange theory The Tactical Use of Social Power by Andrew Michener and Robert W Suchner and leadership through charisma Interpersonal Attraction and Social Influence by Elaine Walster and Darcy Abrahams In the final chapter Tedeschi Thomas Bonoma and Barry R Schlenker attempt to provide a general theory of social influence processes as they affect the target individual by reviewing the research literature in their own theoretical terms This

Harold, 2016-06-15 Rationality within Modern Psychological Theory examines the rational and irrational dimensions of human nature and of the psyche and logos Harold combines the traditionally divided views of classical philosophy's affirmation of the existence of intellect and modern psychology's emphasis on immanent psychological factors over rational transcendent relations By accepting the power of being in an adequate relation to reality while still admitting the manifold ways that people evade truth and reality psychologists will be able to emphasize the power of an individual to establish a truthful relation with reality This book is recommended for scholars of psychology and philosophy
