**The Personality of the Urban African in South Africa** C. de Ridder, 2013-11-05 First Published in 1998 This is Volume VI of thirteen in the Urban and Regional Sociology series Written in 1953 this text is a thematic apperception test study which presents the results of some six years research into the urban African personality as it has evolved in the major industrial area of the Union of South Africa is an attempt to bridge this gap between opinions and facts **The Effects of Race** Nina G. Jablonski, Gerhard Mar,, 2018-10-15 The STIAS research theme on Being Human Today explores the interrelated questions What does it mean to be human And What is the nature of the world in which we aspire to be human In the context of post apartheid South Africa race and racism remain key references in both these questions Why is this so considering that the biological basis of race thinking has been refuted Templates of race and racialism remain at the core of state policy in South Africa periodic gross incidents of racism surface in public and notions of the existence of races remain central to everyday thinking and discourse This book is the result of the work of a group of leading thinkers and their in depth conversations at STIAS during the winter of 2015 on the effects of race Convened by evolutionary anthropologist Nina Jablonski and sociologist Gerhard Mar the group included Njabulo Ndebele Chabani Manganyi Barney Pitso Rabe Crain Soudien G. van der Merwe Mikael Hjerm Zimitri Erasmus and George Chaplin The group reconvened annually through 2017 This is the first in a series of planned publications on the their work Black Power in South Africa Gail M. Gerhart, 2023-04-28 This book better than any I have seen provides an understanding of the politics and ideology of orthodox African nationalism or Black Power in South Africa since World War II from the Youth League of the African Student National Congress ANC of the late 1940s to the South African Student Organization SASO and the Black Consciousness Movement of the 1970s Perspective Clarifies some of the main issues that have divided the black leadership and rescues the work of some pioneering nationalist theorists It is an absorbing piece of history New York Times Informative and well researched She ably explores the nuances of the two main movements until 1960 and explains why blacks were so receptive to black consciousness in the late Sixties New York Review This book better than any I have seen provides an understanding of the politics and ideology of orthodox African nationalism or Black Power in South Africa since World War II from the Youth League of the African Student National Congress ANC *Urban Africans in the Republic of South Africa, 1950-1966* Angela Shulmith Lurie, 1969 South Africa, a Study in Conflict Pierre L. Van den Berghe, 1967-01-01 About the conflict between various ethnic groups in South Africa Area Handbook for the Republic of South Africa Irving Kaplan, 1971 *Being Black in the World* N. Chabani Manganyi, 2019-09-01 An annotated edition of a classic text by South Africa's first black psychologist a collection of essays reflecting on what it meant to be black during the apartheid years Being Black in the World one of N Chabani Manganyi's first publications was written in 1973 at a time of global socio political change and renewed resistance to the brutality of apartheid rule and the emergence of Black Consciousness in the mid 1960s Manganyi is one of South Africa's most eminent

intellectuals and an astute social and political observer He has written widely on subjects relating to ethno psychiatry autobiography black artists and race In 2018 Manganyi's memoir *Apartheid and the Making of a Black Psychologist* was awarded the prestigious ASSAf The Academy of Science of South Africa Humanities Book Award Publication of *Being Black in the World* was delayed until the young Manganyi had left the country to study at Yale University His publishers feared that the apartheid censorship board and security forces would prohibit him from leaving the country and perhaps even incarcerate him for being a radical revolutionary The book found a limited public circulation in South Africa due to this censorship and original copies were hard to come by This new edition is an invitation to a younger generation of citizens to engage with early decolonialising thought by an eminent South African intellectual While the essays in this book are clearly situated in the material and social conditions of that time they also have a timelessness that speaks to our contemporary concerns regarding black subjectivity affectivity and corporeality the persistence of a racial and racist order and the possibilities of a renewed de colonial project Each of these short essays can be read as self contained reflections on what it meant to be black during the apartheid years Manganyi is a master of understatement and yet this does not stop him from making incisive political criticisms of black subjugation under apartheid The essays will reward close study for anyone trying to make sense of black subjectivity and the persistence of white insensitivity to black suffering Ahead of its time the ideas in this book are an exemplary demonstration of what a thoroughgoing and rigorous de colonial critique should entail The republication of this classic text is enriched by the inclusion of a foreword and annotation by respected scholars Garth Stevens and Grahame Hayes respectively and an afterword by public intellectual Njabulo S Ndebele

**Theatre and Cultural Struggle under Apartheid** Robert Mshengu Kavanagh, 2017-06-15 In this book South African performer and activist Robert Mshengu Kavanagh reveals the complex and conflicting interplay of class nation and race in South African theatre under Apartheid Evoking an era when theatre itself became a political battleground Kavanagh displays how the struggle against Apartheid was played out on the stage as well as on the streets Kavanagh's account spans three very different areas of South African theatre with the author considering the merits and limitations of the multi racial theatre projects created by white liberals the popular commercial musicals staged for black audiences by emergent black entrepreneurs and the efforts of the Black Consciousness Movement to forge a distinctly African form of revolutionary theatre in the 1970s The result is a highly readable pioneering study of the theatre at a time of unprecedented upheaval diversity and innovation with Kavanagh's cogent analysis demonstrating the subtle ways in which culture and the arts can become an effective means of challenging oppression
