Persons And Life After Death:

Persons and Life after Death Hywel D Lewis, 1978-06-29 **Life After Death** Farnáz Ma'súmián, 2002 What happens to us when we die Does a part of us conquer death and live a different existence Will we have an encounter with a creator What is the soul Where are heaven and hell Questions such as these about death and dying have intrigued humanity since the dawn of time *Life After Death* explores these questions in detail by providing a general overview from the scriptures of seven world religions Hinduism Zoroastrianism Judaism Buddhism Christianity Islam and the Bah Faith *Life After Death Today in the United States, Japan, and China* Gordon Mathews, Yang Yang, Miu Ying Kwong, 2023-01-24 This book is about contemporary senses of life after death in the United States Japan and China By collecting and examining hundreds of interviews with people from all walks of life in these three societies the book presents and compares personally held beliefs experiences and interactions with the concept of life after death Three major aspects covered by the book Include but are certainly not limited to the enduring tradition of Japanese ancestor veneration China's transition from state sponsored materialism to the increasing belief in some form of afterlife as well as the diversity in senses of or disbelief in life after death in the United States Through these diverse first hand testimonies the book reveals that underlying these changes in each society there is a shift from collective to individual belief with people developing their own visions of what may or may not happen after death This book will be valuable reading for students of Anthropology as well as Religious Cultural Asian and American Studies It will also be an impactful resource for professionals such as doctors nurses and hospice workers *Life After Death* Alan Segal, 2010-06-23 A magisterial work of social history *Life After Death* illuminates the many different ways ancient civilizations grappled with the question of what exactly happens to us after we die In a masterful exploration of how Western civilizations have defined the afterlife Alan F Segal weaves together biblical and literary scholarship sociology history and philosophy A renowned scholar Segal examines the maps of the afterlife found in Western religious texts and reveals not only what various cultures believed but how their notions reflected their societies realities and ideals and why those beliefs changed over time He maintains that the afterlife is the mirror in which a society arranges its concept of the self The composition process for Judaism Christianity and Islam begins in grief and ends in the victory of the self over death Arguing that in every religious tradition the afterlife represents the ultimate reward for the good Segal combines historical and anthropological data with insights gleaned from religious and philosophical writings to explain the following mysteries why the Egyptians insisted on an afterlife in heaven while the body was embalmed in a tomb on earth why the Babylonians viewed the dead as living in underground prisons why the Hebrews remained silent about life after death during the period of the First Temple yet embraced it in the Second Temple period 534 B C E 70 C E and why Christianity placed the afterlife in the center of its belief system He discusses the inner dialogues and arguments within Judaism and Christianity showing the underlying dynamic behind them as well as the ideas that mark the differences between the two religions In a thoughtful

examination of the influence of biblical views of heaven and martyrdom on Islamic beliefs he offers a fascinating perspective on the current troubling rise of Islamic fundamentalism In tracing the organic historical relationships between sacred texts and communities of belief and comparing the visions of life after death that have emerged throughout history Segal sheds a bright revealing light on the intimate connections between notions of the afterlife the societies that produced them and the individual s search for the ultimate meaning of life on earth *Persons and Life After Death* Hywel David Lewis,1978-01-01

Marriage and Life After Death Anthony Onyekwe,2015-01-29 In Africa the emphasis on family marriage and offspring suggest that there is a kind of an unwritten ancestral law that imposes on every male the duty of begetting a son The reason is because the core of African soteriology is centered on offspring The predicament of the childless couples therefore stems from the desire for immortality and salvation that culminates in the admission of the dead into the ancestral world This quest for salvation and immortality constitute social emotional psychological and spiritual problems for Christian as well as non Christian childless couples **Persons and Immortality** Kenneth A. Bryson,Ken Bryson,1999 This book casts the argument for personal immortality into new light as the outcome of systems processes rather than human nature Personal immortality is the output of becoming human rather than of being human If this is the case then God must be seen to enter into personal relationships with us a view that current science supports Jacket

Jan Patočka and the Phenomenology of Life After Death Gustav Strandberg,Hugo Strandberg,2023-12-12 This volume contains for the first time in English Jan Pato ka s seminal essay The Phenomenology of Afterlife as well as contributions surrounding and analyzing this text In his essay Pato ka reflects on our relation to the dead and on how the departure of a loved one affects our continued existence The premise of Pato ka s investigation is that our existence always takes place by and through an originary and reciprocal being for others The contributors in the volume extend the field of inquiry into the wider phenomenological and post phenomenological discussion of death by being cognizant of how works of literature can broaden our understanding of the care of death grief forgiveness and non reciprocal love Also included are reflections on issues of philosophical anthropology community collective memory and the ecstatic nature of life issues that can all be related back to Pato ka s initial reflections but which nonetheless radiate into a myriad of directions This volume appeals to students and researchers in the field **Death in the**

Early Twenty-first Century Sébastien Penmellen Boret,Susan Orpett Long,Sergei Kan,2017-07-18 Focusing on tradition technology and authority this volume challenges classical understandings that mortuary rites are inherently conservative The contributors examine innovative and enduring ideas and practices of death which reflect and constitute changing patterns of social relationships memorialisation and the afterlife This cross cultural study examines the lived experiences of men and women from societies across the globe with diverse religious heritages and secular value systems The book demonstrates that mortuary practices are not fixed forms but rather dynamic processes negotiated by the dying the bereaved funeral experts and public institutions In addition to offering a new theoretical perspective on the anthropology of death this work

provides a rich resource for readers interested in human responses to mortality the one certainty of human existence
