Perspectives In Child Psychology Research And Review:

Perspectives in Child Psychology Thomas D. Spencer, Norman Kass, 1970 *Perspectives in Child Psychology* Norman Kass, 1970 **Perspectives in child psychology: research and review, ed** Thomas D. Spencer, Norman Kass,

Psychological Perspectives on Understanding and Addressing Violence Against Children Scott L. Moeschberger, Laura E. Miller-Graff, 2023 Violence against children is one of the most significant widespread and preventable threats to human development in our world today Children are the future of our society and understanding and addressing violence against children is critical to building cultures and systems that promote a just and sustainable peace This edited volume aims to provide an integrative review of psychological research on violence against children from a global perspective Drawing from frameworks in both psychology and peace studies contributors focus on the psychological research across global settings to illustrate the nature and effects of violence against children in various settings and examine recommendations for prevention practice and policy Current Perspectives on Child Language Acquisition Caroline F. Rowland, Anna L. Theakston, Ben Ambridge, Katherine E. Twomey, 2020-09-15 In recent years the field has seen an increasing realisation that the full complexity of language acquisition demands theories that explain how children integrate information from multiple sources in the environment to build linguistic representations at a number of different levels and learn how to combine these representations in order to communicate effectively These new findings have stimulated new theoretical perspectives that are more centered on explaining learning as a complex dynamic interaction between the child and her environment This book is the first attempt to bring some of these new perspectives together in one place It is a collection of essays written by a group of researchers who all take an approach centered on child environment interaction and all of whom have been influenced by the work of Elena Lieven to whom this collection is dedicated Human Development Grace J. Craig, Don Baucum, 1999 Designed for students from a wide range of backgrounds this text takes a chronological and interdisciplinary approach to human development With its focus on context and culture the 8 E illustrates that the status of human development is inextricably embedded in a study of complex and changing cultures **The Child's World, Third Edition** Jan Horwath, Dendy Platt, 2018-12-06 Fully updated edition of THE bestselling book on assessing children in need and their families Comprehensive and multidisciplinary it covers all aspects of assessment from early help through to child protection Explores implications of recent legislation and the very latest issues for practice Rutter's Child and Adolescent Psychiatry and Psychology Anita Thapar, Daniel S. Delinquency From Childhood To Young Adulthood Rolf Loeber,Wesley G. Jennings,Lia Ahonen,Alex R. Piquero,David P. Farrington,2016-11-23 This Brief fills a gap in criminological literature as there are few empirically based studies on delinquency of adolescent girls It provides results of a longitudinal study The Pittsburgh Girls Study PGS which includes 2 451 girls followed annually from age 10 19 the ages when criminal behavior tends to emerge This study provides the most extensive and comprehensive investigation into the criminal offending and self reported trajectories of offending of PGS participants along with an in depth examination of other criminal career dimensions In five chapters this short volume reviews the limited extent of girls delinquency literature presents data on girls offending patterns onset persistence specialization and desistence provides insights on gender differences by comparison with the Pittsburgh Youth Study which focused on male offenders and explores the theoretical and practical implications of the results By understanding the origins and onset of criminal behavior in girls researchers can begin to understand effective interventions and crime prevention This Brief will be of interest to researchers in criminology and criminal justice as well as related fields such as sociology public policy and psychology

The Oxford Handbook of Externalizing Spectrum Disorders Theodore P. Beauchaine,Stephen P. Hinshaw,2015-10-01 Recent developments in the conceptualization of externalizing spectrum disorders including attention deficit hyperactivity disorder conduct disorder antisocial personality disorder and substance use disorders suggest common genetic and neural substrates Despite this neither shared vulnerabilities nor their implications for developmental models of

externalizing conduct are captured by prevailing nosologic and diagnostic systems such as the DSM 5 The Oxford Handbook of Externalizing Spectrum Disorders is the first book of its kind to capture the developmental psychopathology of externalizing spectrum disorders by examining causal factors across levels of analysis and developmental epochs while departing from the categorical perspective World renowned experts on externalizing psychopathology demonstrate how shared genetic and neural vulnerabilities predispose to trait impulsivity a highly heritable personality construct that is often shaped by adverse environments into increasingly intractable forms of externalizing conduct across development Consistent with contemporary models of almost all forms of psychopathology the Handbook emphasizes the importance of neurobiological vulnerability and environmental risk interactions in the expression of externalizing behavior across the lifespan The volume concludes with an integrative ontogenic process model of externalizing psychopathology in which diverse equifinal and multifinal pathways to disorder are specified

Developmental Psychopathology, Maladaptation and Psychopathology Dante Cicchetti, 2016-02-01 A comprehensive reference on external contributing factors in psychopathology Developmental Psychopathology is a four volume compendium of the most complete and current research on every aspect of the field Volume Three Risk Disorder and Adaptation explores the everyday effects and behaviors of those with behavioral mental or neurological disorders and the disorder's real world impact on their well being Now in its third edition this comprehensive reference has been fully updated to better reflect the current state of the field and detail the latest findings in causation intervention contextual factors and the risks associated with atypical development Contributions from expert researchers and clinicians explore the effects of abuse and traumatic stress memory development emotion regulation impulsivity and more with chapters specifically targeted toward autism schizophrenia narcissism antisocial behavior bipolar disorder and borderline personality disorder Advances in developmental psychopathology have burgeoned since the 2006 publication of the second edition and keeping up on the latest findings in multiple avenues of investigation can be burdensome to the busy professional This series solves the problem by collecting the information into one place with a logical organization designed for easy reference Learn how childhood experiences contribute to psychopathology Explore the relationship between atypical development and substance abuse Consider the impact or absence of other developmental traits Understand the full risk potential of any behavioral or mental disorder The complexity of a field as diverse as developmental psychopathology deepens with each emerging theory especially with consideration of the multiple external factors that have major effects on a person's mental and emotional development Developmental Psychopathology Volume Three Risk Disorder and Adaptation compiles the latest information into a cohesive broad reaching reference with the most recent findings

The Wiley Handbook of Developmental Psychopathology Luna C. Centifanti, David M. Williams, 2017-11-06 The Wiley Handbook of Developmental Psychopathology offers a concise up to date and international overview of the study of developmental psychopathology Examines the cognitive neurobiological genetic and environmental influences on normal and

abnormal development across the lifespan Incorporates methodology theory and the latest empirical research in a discussion of modern techniques for studying developmental psychopathology Considers the legal societal and policy impacts of changes to diagnostic categories in the light of the transition to DSM 5 Moves beyond a disorder based discussion to address issues that cut across diagnostic categories **Educating for Sustainability in a Small Island Nation** Jane Spiteri,2023-01-19

This volume problematizes the intentions of early childhood education for sustainability ECEfS from two new perspectives the context of small island states and the bi directional intergenerational learning about the environment and sustainability that takes place in a variety of contexts including the family home and school It questions how belonging to a small island and the children s home influence learning in the early years of life In doing so this book offers new insights and new theoretical perspectives into intergenerational environmental learning in the school family and beyond Informed by consideration of the most recent literature in early childhood education and sustainability this volume also looks at how these informal learning spaces provide young children with the opportunities to enhance further learning in the field thus portraying the fluidity of intergenerational learning from different theoretical standpoints It provides a deep insight into ECEfS and intergenerational learning about the environment and environmental issues in early childhood education from a perspective of a small island state by adopting a children s rights perspective It additionally explores the relationship between early childhood theories children s rights and postcolonial theory **Innovative Practice and Interventions for Children and Adolescents with Psychosocial Difficulties and Disabilities** Angie Hart,Elias Kourkoutas,2015-06-18 This book engages with a wide spectrum of questions and topics related to children s adolescents and families difficulties as well as to epistemological meta theoretical taxonomical and intervention issues Particular emphasis is given throughout the book to discussing and suggesting various alternative methods and practices of promoting the potential and capacity of children families and schools to deal with various personal and contextual risks and adversities Most of the contribu

Social Research for our Times Claire Cameron ,Alison Koslowski,Alison Lamont ,Peter Moss,2023-11-14 For 50 years researchers at UCL s Thomas Coram Research Unit have been undertaking ground breaking policy relevant social research Their main focus has been social issues affecting children young people and families and the services provided for them Social Research for our Times brings together different generations of researchers from the Unit to share some of the most important results of their studies Two sections focus on the main findings and conclusions from research into children and children services and on family life minoritised groups and gender A third is then devoted to the innovative methods that have been developed and used to undertake research in these complex areas Running through the book is a key strategic question what should be the relationship between research and policy Or put another way what does policy relevant research mean This perennial question has gained new importance in the post Covid post Brexit world that we have entered making this text a timely intervention for sharing decades of experience Taking a unique opportunity to reflect on research context as well as research
