Perspectives Of An Iconoclast Writings In Latin American Studies And International Relations:

Perspectives of an Iconoclast Antonio Karantonis, 2005 Perspectives of an Iconoclast Writings in Latin American Studies and International Relations provides summaries of various Latin American cultures as well as essays that give historical accounts of relations with the United States including past CIA operations and interventions that still affect those respective Latin American societies today The book provides such provocative essays as Sleepwalking Through History an abstract analysis of the socioeconomic incentives of modern war Coca Culture an essay that reveals the traditional use of Coca among Bolivia's indigenous people and how Coca plays a practical function within Bolivian culture including harvest and work cycles bartering for goods ect The book's essays also promote the ideals of collective security and multilateralism in international relations including a progressive role for the United Nations and other international organizations that will serve to strengthen democracy and promote sustainable development abroad

9/11 and its Remediations in Popular Culture and Arts in Africa Heike Behrend, Tobias Wendl, 2015 9/11 has been described as an absolute event that radically changed the course of history It reinforced the opposition between Christian and Muslim worlds and led to the declaration of a unilateral war against a global network of terrorists that broke up the classical definition of war as a war between nation states Yet 9/11 also created responses in parts of the world that were not directly involved in the unfolding war on terror In Africa local conflicts were re mapped into an emerging new geography of anger that also reflects the effects of marginalization in a globalized world The essays of this volume explore local remediations of 9/11 in African popular culture posters photographs videos cartoons etc and visual arts They give evidence of the fundamental ambivalence towards the event of 9/11 and provide insights into the various ways distant conflicts are translated into intense proximities Series African Art and Visual Cultures Vol 3 Subject African Studies Cultural Studies Art

Acting Alone Bradley F. Podliska, 2010-02-15 Acting Alone A Scientific Study of American Hegemony and Unilateral Use of Force Decision Making is a straight forward analysis of unilateral U S military actions which are dependent upon the power disparity between the U S and the rest of the world In solving the puzzle as to why individual presidents have made the wrong decision to act alone the author lays out a president's behavior during a crisis as a two step decision process Acting Alone reviews the well studied first decision deciding to use force based on international conflict literature and organized along traditional lines The author then details the second decision deciding to use unilateral force with an explanation of the criticisms of multilateralism and the reasons for unilateralism To test a new theory of unilateral use of force decision making Acting Alone devises a definition and coding rules for unilateral use of force develops a sequential model of presidential use of force decision making and constructs a new alternative measure of military power a Composite Indicator of Military Revolutions CIMR It then uses three methods a statistical test with a heckman probit model an experiment and case studies to test U S crisis behavior since 1937 By applying these three methods the author finds that presidents are realists and make expected utility calculations to

act unilaterally or multilaterally after their decision to use force The unilateral decision in particular positively correlates with a wide military gap with an opponent an opponent located in the Western hemisphere and a national security threat

Body Politics and the Fictional Double Debra Walker King, 2000-10-22 *Body Politics and the Fictional Double* Edited by Debra Walker King Examines the disjunction between women's appearance and reality In recent years questions concerning the body and its place in postmodern discourses have taken center stage in academic disciplines *Body Politics* joins these discussions by focusing on the challenges women face when their externally defined identities and representations as bodies their body fictions speak louder than what they know to be their true selves Racialized gendered or homophobic body fictions disfigure individuals by placing them beneath a veil of invisibility and by political emotional or spiritual suffocation As objects of interpretation female bodies in search of health care legal assistance professional respect identity confirmation and financial security must first confront their fictionalized doubles in a collision that in many cases ends in disappointment distress and even suicide The contributors reflect on women's day to day lives and the cultural productions literature MTV film etc that give body fictions their power and influence By exploring how these fictions are manipulated politically expressively and communally they offer reinterpretations that challenge the fictional double while theorizing the discursive and performative forms it takes Contributors include Trudier Harris Maude Hines S Yumiko Hulvey Debra Walker King Sue V Rosser Stephanie A Smith Maureen Turim Caroline Vercoe Gloria Wade Gayles and Rosemary Weatherston Debra Walker King Associate Professor of English at the University of Florida Gainesville is author of *Deep Talk Reading African American Literary Names* She has published articles and reviews in *Names the Journal of the American Name Society* *Philosophy and Rhetoric* and *African American Review* Contents Introduction Body Fictions Debra Walker King Who Says an Older Woman Can't Shouldn't Dance Gloria Wade Gayles When Body Politics of Partial Identifications Collide with Multiple Identities of Real Academics Limited Understandings of Research and Truncated Collegial Interactions Sue V Rosser Body Language Corporeal Semiotics Literary Resistance Maude Hines Writing in Red Ink Debra Walker King Myths and Monsters The Female Body as the Site for Political Agendas S Yumiko Hulvey Agency and Ambivalence A Reading of Works by Coco Fusco Caroline Vercoe Performing Bodies Performing Culture An interview with Coco Fusco and Nao Bustamante Rosemary Weatherston Women Singing Women Gesturing The Gendered and Racially Coded Body of Music Video Maureen Turim Bombshell Stephanie A Smith Afterword The Unbroken Circle of Assumptions Trudier Harris

Guess, James D. Savage, 2021-01-07 Every government engages in budgeting and public financial management to run the affairs of state Effective budgeting empowers states to prioritize policies allocate resources and discipline bureaucracies and it contributes to efficacious fiscal and macroeconomic policies Budgeting can be transparent participatory and promote democratic decision making or it can be opaque hierarchical and encourage authoritarian rule This book compares budgetary systems around the world by examining the economic political cultural and institutional contexts in which they are formulated adopted and executed The second edition has been updated with new data to offer a more expansive set of national case studies with examples of budgeting in China India Indonesia Iraq and Nigeria Chapters also discuss Brexit and the European Union's struggle to require balanced budgets during the Euro Debt Crisis Additionally the authors provide a deeper analysis of developments in US budgetary policies from the Revolutionary War through the Trump presidency

Bowker's Law Books and Serials in Print, 1986 **American Book Publishing Record**, 1981 *Uniform Trade List Annual*, 1989 *The Organic Line* Irene V. Small, 2024-10-08 A major rethinking of twentieth century abstract art mobilized by the work of Brazilian artist Lygia Clark What would it mean to treat an interval of space as a line thus drawing an empty void into a constellation of art and meaning laden things In this book Irene Small elucidates the signal discovery of the Brazilian artist Lygia Clark in 1954 a fissure of space between material elements that Clark called the organic line For much of the history of art Clark's discovery much like the organic line has escaped legibility Once recognized however the line has seismic repercussions for rethinking foundational concepts such as mark limit surface and edge A spatial cavity that binds discrepant entities together the organic line transforms planes into flexible topologies borders into membranes and interstices into points of connection As a paradigm the organic line has profound historiographic implications as well inviting us to set aside traditional notions of influence and origin in favor of what Small terms weak links and plagiotropic relations These fragile oblique and transversal ties have their own efficacy and Small's innovative readings of canonical modernist works such as Kazimir Malevich's Black Square John Cage's 4 33 and Le Corbusier's machine habiter as well as contemporary works by such artists as Adam Pendleton Ricardo Basbaum and Mika Rottenberg reveal the organic line's remarkable potential as an analytic instrument Mobilizing a rich repertoire of archival sources and moving across multiple chronologies geographies and disciplines this book invites us to envision modernism not as a stable construct defined by centers and peripheries inclusions and exclusions but as a topological field of interactive destabilizing tensions More than a history of a little known artistic device *The Organic Line Toward a Topology of Modernism* is a user's guide and manifesto for reimagining modern and contemporary art for the present **Nazis in the New World** Aaron Gillette, 2025-05-27 The incredible story of Nazi German exchange students in the United States during WWII In the 1930s international exchange students in the United States celebrated their Christmas breaks in Florida enthusiastically engaged in college aged antics rowdy parties and the defiance of authorities In between such mayhem they admired the beauty of America quietly discussed

their impressions of their host country and agonized over their future which would now be reshaped by their study abroad experiences These were not typical international college students however These students were Nazis In Nazis in the New World Aaron Gillette reveals the unknown history of Nazi German exchange students sent to America in the 1930s After receiving the Gestapo s stamp of approval they were instructed to use their charm and charisma to promote the Third Reich Some also served Hitler as covert operatives against the United States In many cases the Nazi government came to regret sending its students across the ocean Gillette argues that Nazism was an abject failure in the United States that antisemitism was on the decline that German espionage in America was a disaster for the Reich and that FDR and J Edgar Hoover brilliantly manipulated Nazi blunders to propel America into the war against Hitler and to empower the FBI Meanwhile numerous German exchange students in the United States were transformed from Nazis into fiercely patriotic Americans
