Perspectives On Alcohol Prevention Stockholm Studies In Sociology Ns No 3:

Perspectives on Alcohol Prevention Håkan Leifman,1996 **Acta Universitatis Stockholmiensis** ,1996 **Subject Guide to Books in Print** ,1971 Forthcoming Books Rose Arny,1997-04 *Current Catalog* National Library of Medicine (U.S.),1993-04 **Ulrich's International Periodicals Directory** Carolyn Farquhar Ulrich,1998 **Medical and Health Care Books and Serials in Print** ,1986 **From Science to Action? 100 Years Later - Alcohol Policies Revisited** Richard Müller,Harald Klingemann,2013-10-03 Alcohol has been central to social religious and personal use throughout the history Alcohol drinking goes back almost as far as the human race does A hundred years therefore may be seen as only a flash The past century however has witnessed a fundamental change in dealing with alcohol problems Hence to give an overview of a hundred years of alcohol policies is a rather ambitious task and the contributions to this book shed only some light on the way in which alcohol policy issues have changed in this period This authoritative volume is relevant to both scientists and policy makers providing a state of the art in alcohol policy from different perspectives covering both science research treatment and prevention practice and linking these areas **Community Prevention of Alcohol Problems** Marja Holmila,1997-08-18 This book is an action research study of a community at work The community prevention project set the system in motion revealing its character and internal dynamics This process and its context are analyzed from a sociological point of view It is shown that the type of community prevention that really works and creates sustainable changes is neither value neutral nor given from above it adheres to reason rituals and emotions alike and requires subjective involvement of the people in the community *Mapping the Social Consequences of Alcohol Consumption* Harald Klingemann,G. Gmel,2013-03-14 Research on alcohol related consequences has traditionally focused mainly on health aspects of alcohol consumption or effects which can be more easily quantified or measured It is evident that alcohol has many consequences which can be characterised as social in nature and which are not or not only medical and are directly health related Such consequences include violence crime and psychosocial factors The increasing relevance of consequences of alcohol consumption other than medical is also reflected in the second European Action Plan 2000 2004 of WHO aiming at the prevention and reduction of harm done by alcohol to the health and wellbeing of individuals families and communities This book attempts to provide a comprehensive overview of social consequences of alcohol consumption on the individual group organisational and societal level It is a result of a two year collaborative study under the leadership of WHO Euro with the participation of alcohol researchers from Finland Germany Norway Scotland and Switzerland Although the book was written by experts in the field it is targeted not only at scientists but at all people dealing with alcohol related problems in practice (*Lectures on the Prevention of Alcoholism*, V. 3) Andreas Stephanus Roux,1962* **Intervening in a Social World** Devy Lysandra Elling,2022 **Alcohol-related Problems in Eastern Europe** Jonas Landberg,2010
