**The Handbook of Aging and Cognition** Fergus I.M. Craik, Timothy A. Salthouse, 2011-03-15 Cognitive aging is a flourishing area of research A significant amount of new data a number of new theoretical notions and many new research issues have been generated in the past ten years This new edition reviews new findings and theories enables the reader to assess where the field is today and evaluates its points of growth The chapters are organized to run from reviews of current work on neuroimaging neuropsychology genetics and the concept of brain reserve through the mainstream topics of attention memory knowledge and language to a consideration of individual differences and of cognitive aging in a lifespan context This edition continues to feature the broad range of its predecessors while also providing critical assessments of current theories and findings      *The Development of Logic in Adulthood* Jan D. Sinnott, 2013-03-09 In this book Jan D Sinnott synthesizes her 20 years of research on lifespan cognitive development to describe the growth of complex or postformal thought in adults She shows specifically how adults improve mentally over a lifetime and learn to think in more complex and wiser ways Applications of postformal thought are demonstrated in such diverse areas as family relations adult education personal identity and spirituality Chapters examine relations between postformal thought and pertinent variables such as age health memory and vocabulary Other sections deal with issues in humanistic psychology such as guided imagery mind body medicine and creative intentionality      Handbook of Theories of Aging, Second Edition Merril Silverstein PhD, Vern L. Bengtson PhD, Norella Putney PhD, Daphna Gans PhD, 2008-10-27 The field of gerontology has often been criticized for being

data rich but theory poor The editors of this book address this issue by stressing the importance of theory in gerontology While the previous edition focused on multidisciplinary approaches to aging theory this new edition provides cross disciplinary integrative explanations of aging theory The contributors of this text have reached beyond traditional disciplinary boundaries to partner with researchers in adjacent fields in studying aging and age related phenomena This edition of the Handbook consists of 39 chapters written by 67 internationally recognized experts in the field of aging It is organized in seven sections reflecting the major theoretical developments in gerontology over the past 10 years Special Features Comprehensive coverage of aging theory focusing on the biological psychological and social aspects of aging A section dedicated to discussing how aging theory informs public policy A concluding chapter summarizing the major themes of aging and offering predictions about the future of theory development Required reading for graduate students and post doctoral fellows this textbook represents the current status of theoretical development in the study of aging

*Handbook of Adult Development and Learning* Carol Hoare, 2006 Adult development and learning have always existed as two separate fields of study with development falling under psychology and learning under education Recent advances in theory research and practice however have made it clear that an important reciprocal relationship exists between them advances in development frequently lead to learning and conversely learning quite often fuels development The synchronicity between development and learning is responsible for positive changes in many capacities including insight intelligence reflective and meta cognition personality expression interpersonal competence and self efficacy This synchronicity is also leading to the growth of a new discipline at the borders of adult development and learning The Handbook of Adult Development and Learning is the first to bring together the leading scholars from both adult development and learning to explore what will form the foundation for this new discipline the latest research at the intersection of these fields It examines six major aspects of their intersection foundations key areas of integration the self system higher reaches of development and learning essential contexts and specific applications An introductory chapter explains why it is so important to recognize and fuel the growth of this new discipline Subsequent chapters review the latest theoretical and empirical literature and provide a rich itinerary for future research This handbook is a must read for all who promote optimal aging It will be an invaluable reference for scholars in development and education as well as rich resource for policy makers and practitioners such as corporate executives and human resource personnel

Handbook of Intelligence Robert J. Sternberg, 2000-03-13 Not since the landmark publication of Handbook of Human Intelligence in 1982 has the field of intelligence been more alive than it is today Spurred by the new developments in this rapidly expanding field Dr Sternberg has brought together a stellar list of contributors to provide a comprehensive broad and deeply thematic review of intelligence that will be accessible to both scholar and student The field of intelligence is lively on many fronts and this volume provides full coverage on topics such as behavior genetic models evolutionary models cognitive models emotional intelligence practical intelligence and group

difference Handbook of Intelligence is largely expanded covering areas such as animal and artificial intelligence as well as human intelligence It fully reflects important theoretical progress made since the early 1980s

### **The Aging Consumer**

Aimee Drolet,Carolyn Yoon,2020-10-01 The Aging Consumer Perspectives from Psychology and Marketing 2nd edition takes stock of what is known around age and consumer behavior identifies gaps and open questions within the research and outlines an agenda for future research There has been little systematic research done with respect to the most basic questions related to age and consumer behavior such as whether older adults versus young and middle age adults respond to marketing activities including pricing promotions product design and distribution Written by experts The Aging Consumer compiles research on a broad range of topics on consumer marketing from an individual to a societal level of analysis This second edition provides new versions of chapters contained in the 2010 volume that have been updated to reflect the latest psychological and marketing research and thinking Included also are ten new chapters which cover exciting new ground such as changes in metacognition in older adults motivated cognition of the aging consumer and a global perspective on aging and the economy across cultures This updated volume is beneficial for researchers and practitioners in marketing consumer behavior and advertising Additionally The Aging Consumer 2nd edition will appeal to professionals in other fields such as psychology decision sciences gerontology and gerontological social work and those who are concerned with normal human aging and its implications for the everyday behavior of older individuals It will also be of interest to those in fields concerned with the societal implications of an aging population such as economics policy and law
