Rethinking Displacement: Asia Pacific Perspectives Kuntala Lahiri-Dutt, 2016-04-08 This book responds to the need to explore the multitude of interconnected factors causing displacements that compel people to move within their homelands or traverse various borders in the contemporary world that is characterised by extensive and rapid movements of people It addresses this need by bringing together historical and contemporary accounts and critical examinations of the displaced by articulating the commonalities in their lived experiences It accomplishes the task of charting a new path in displacement studies by offering a number of studies from interdisciplinary and diverse methodological approaches comprising ethnographic and qualitative research and literary interpretations to

emphasise that although the forms and conditions of mobility are highly divergent individual experiences of displacement and placelessness offer a critical challenge to the artificial categorisations of people's movements. Each chapter adds insights into the different configurations of displacement and placement and offers fresh interpretations of migration and dislocation in today's rapidly changing world. The contributors critically examine a variety of displacement processes and experiences in the context of war, tourism, neoliberal policies of development and the impact of various agro-forestry policies. They focus on a range of countries enabling a thorough comparative analysis in terms of scope and range of examples and methods of analysis. This book makes an original contribution to the growing body of literature on displacement and will appeal to a wide readership including advanced undergraduates and graduate students and professors in disciplines such as human geography, development studies, sociology and anthropology, regional studies and comparative impact assessment.

Politicising Democracy J. Harriss, K. Stokke, Olle Törnquist, 2004-11-11 There is a major contradiction in contemporary politics: there has been a wave of democratization that has swept across much of the world while at the same time globalization appears to have reduced the social forces that have built democracy historically. This book by an international group of authors analyzes the ways in which local politics in developing countries often neglected in work on democratization render democratic experiments more or less successful in realizing substantial democracy.

Religious Devotion and the Poetics of Reform George Pati, 2019-02-18 The poetry emanating from the bhakti tradition of devotional love in India has been both a religious expression and a form of resistance to hierarchies of caste, gender and colonialism. Some scholars have read this art form through the lens of resistance and reform but others have responded that imposing an interpretive framework on these poems fails to appreciate their authentic expressions of devotion. This book argues that these declarations of love and piety can simultaneously represent efforts towards emancipation at the spiritual, political and social level. This book through a close study of Na'ini's 1911 Malayalam lyric poem as well as other poems authored by Mahakavi Kumbhakaran (1873-1924), a low-caste Kerala poet, demonstrates how he employed a theme of love among humans during the modern period in Kerala that was grounded in the native South Indian bhakti understanding of love of the deity. He believed that personal religious freedom comes from devotion to the deity and that love for humans must emanate from love of the deity. In showing how devotional religious expression also served as a resistance movement, this study provides new perspective on an understudied area of the colonial period. Bringing to light an underexplored medium in both religious and artistic terms, this book will be of great interest to scholars of religious studies, Hindu studies and religion and literature as well as academics with an interest in Indian culture.

Maritime India Pius Malekandathil, 2010 This volume discusses the various socio-economic and political processes that evolved over centuries in the vast coastal fringes of India and out of the circuits of the Indian Ocean, ultimately giving it the distinctive consciousness and identity of Maritime India. The book comments on a wide range of issues including the nature of maritime trade of the Sassanids with India, the impact of

maritime trade on the political processes of Goa the impact of Portuguese commercial expansion on the traditional Muslim merchants of Kerala and the role of private traders in the structure and the functioning of Estado da India *The State and Society in Medieval India* J.
