Marketing Michael John Baker, 2001 **New Perspectives in Management Control** Tony Lowe, John L. J. Machin, 1983 **The Guru in Me - Critical Perspectives on Management** Stefan Pertz, 2007-10. Seminar paper from the year 2005 in the subject Business economics Business Management Corporate Governance, grade 92 percent. First University of Lincoln. 24 entries in the bibliography. Language: English. Abstract: Peters is the father of the post modern corporation. Why do people follow Gurus? One explanation can be the search for meaning in life. They offer fulfilment and promise a peaceful and happy life. Herein the emphasis lies on management Gurus. Can we transfer the above to a management context? In management we follow rules, rituals, and symbols. Every morning we are called to the holy mass, worshipping the corporate identity manual and confessing our company's inability to keep the promise of short delivery times to our customer. Our consultant will teach us by showing us how we can improve quality, reduce wastage, and improve happiness in our jobs. Tom Peters, with his work on excellent companies, lay the foundation of the work presented.

Utilizing postmodernist techniques the author challenges the teachings of the so called management gurus Decentering deconstructing and reflecting back on itself the author critically re evaluates his personal guru As a result a new perception of the circle commonly known as management gurus materializes and the insights gained are to be used as a tool in modern management Are modern managers mislead in their thinking by following the wrong ideas *Entrepreneurship* Norris F. Krueger,2002 This new collection provides a much needed retrospective view of the key academic work published in this area The papers here highlight the importance of studying entrepreneurship from a wide range of perspectives including research that derives from economics history sociology psychology and from different business disciplinary bases such as marketing finance and strategy The overall focus in this set is on entrepreneurial activity rather than specifically small or family owned business and favours research articles over those that deal purely with practice Knowledge Management in the Construction Industry: A Socio-Technical Perspective Kazi, Abdul Samad,2004-11-30 This book presents a portfolio of concepts methods models and tools supported by real life case studies from various corners of the globe providing insights into the management of knowledge in the construction industry **Management Challenges for Africa in the Twenty-First Century** Felix M. Edoho,2000-12-30 Edoho and his contributors examine the management challenges facing African governments and businesses on the eve of a new millennium As the authors make clear Africa s future is defined by how Africa does in the 21st century For Africa a major challenge is how to effectively and efficiently manage its vast wealth Africa is not poor because it is poor it is poor because it cannot manage its development process The shortages of managerial knowledge skills and talents are pervasive Consequently the region lacks the ability to organize production and run operations effectively and efficiently The task of developing managerial manpower in Africa is not only imperative it is urgent After outlining theoretical and applied perspectives on management the volume examines the public and private sector planning and management It then explores the globalization of management technology provides case studies of African management dilemmas looks at management ethics and morality and concludes with an analysis of the role of management in African national development As the authors make clear abundant resources will not of themselves usher in an African economic renaissance Africa needs skills to identify and analyze its resources to undertake investment and to establish and run all kinds of organizations Until Africa develops its indigenous managerial talents development will continue to be elusive and the process traumatizing An important resource for scholars students and policy makers involved with African economic development Management Accounting Change Danture Wickramasinghe,Chandana Alawattage,2012-08-21 Written by two experienced lecturers this is the first student centered textbook to bridge the technical and theoretical aspects of management accounting change Packed full of pedagogical features including mini cases learning outcomes key terms article summaries key concept boxes real world cases chapter summaries and further reading suggestions and resources it is clear and accessibly written covering all the major emerging topics in management accounting theory Discussing technical
