Perspectives on Morality William K. Frankena, 1976-01-01 **Making Moral Judgments** Donelson Forsyth, 2019-10-17

This fascinating new book examines diversity in moral judgements drawing on recent work in social personality and evolutionary psychology reviewing the factors that influence the moral judgments people make Why do reasonable people so often disagree when drawing distinctions between what is morally right and wrong Even when individuals agree in their moral pronouncements they may employ different standards different comparative processes or entirely disparate criteria in their judgments Examining the sources of this variety the author expertly explores morality using ethics position theory alongside other theoretical perspectives in moral psychology and shows how it can relate to contemporary social issues from abortion to premarital sex to human rights Also featuring a chapter on applied contexts using the theory of ethics positions to gain insights into the moral choices and actions of individuals groups and organizations in educational research political medical and business settings the book offers answers that apply across individuals communities and cultures Investigating the relationship between people s personal moral philosophies and their ethical thoughts emotions and actions this is fascinating reading for students and academics from psychology and philosophy and anyone interested in morality and ethics

Boss, 1998 Aims to anchor moral theory in real life through the use of discussion questions case studies and the integration of selections from non Western traditions and other disciplines **Philosophical Perspectives on Communalism and Morality in African**

Traditions Polycarp Ikuenobe, 2006-01-01 This book examines the idea of communalism in African cultures as a dominant philosophical theme that provides the conceptual foundation for African traditional moral thoughts moral education values beliefs conceptions of reality practices ways of life and the now popular African saying it takes a village to raise a child It defends communalism against various criticisms and argues that when properly understood and harnessed it could provide the necessary foundation for Africa s development Morality for Humans Mark Johnson, 2015-09-04 A welcome renewal

and defense of John Dewey s ethical naturalism which Johnson claims is the only morality fit for actual human beings Notre Dame Philosophical Reviews What is the difference between right and wrong This is no easy question to answer yet we constantly try to make it so frequently appealing to absolutes whether drawn from God universal reason or societal authority Combining cognitive science with a pragmatist philosophical framework Mark Johnson argues that appealing solely to absolute principles is not only scientifically unsound but even morally suspect He shows that the standards for the kinds of people we should be and how we should treat one another are frequently subject to change Taking context into consideration he offers a nuanced naturalistic view of ethics that sees us creatively adapt our standards according to given needs emerging problems and social interactions Ethical naturalism is not just a revamped form of relativism Indeed Johnson attempts to overcome the absolutist versus relativist impasse that has been one of the most intractable problems in the history of

philosophy Much of our moral thought he shows is automatic and intuitive gut feelings that we attempt to justify with rational analysis and argument However good moral deliberation is not limited to intuitive judgments supported after the fact by reasoning Johnson points out a crucial third element we imagine how our decisions will play out how we or the world would change with each action we might take Plumbing this imaginative dimension of moral reasoning he provides a psychologically sophisticated view of moral problem solving one perfectly suited for the embodied culturally embedded and ever developing human creatures that we are
