Perspectives On The United Arab Emirates:

United Arab Emirates Ibrahim Abed, Peter Hellyer, 2001 An authoritative and wide ranging book uncovering the rich heritage of the United Arab Emirates its political renaissance and its modern transformation into one of the most developed nations in the world *Perspectives on the United Arab Emirates* Edmund Ghareeb, 1997 An up to date authoritative analysis of the strategically located United Arab Emirates covering their physical geography archaeology history politics traditions and economic and social development *Health Development in the United Arab Emirates from a Global Perspective* Hans Rosling, 1999-07-13 The United Arab Emirates has seen a phenomenal improvement in health development over the last four decades The country has registered a quantum leap from the dismal situation in the sixties when it was counted among the ten countries with the highest child mortality rates Today the health of its population as measured by the child mortality rate ranks among the most healthy billion of the world population and is comparable to levels in Western Europe and the United States This dramatic progress which is the fastest in recorded history is attributable not only to the country's rapid economic development but also to the judicious allocation of national resources the universal provision of basic amenities such as housing water and food supplies the high educational levels of women and the good quality of health services which include preventive and curative primary health care as well as advanced referral services The health transition in the UAE has been unique in its pattern and is reflected in the changes in disease patterns The low incidence of alcohol and drug abuse and the low occurrence of AIDS are noteworthy factors While many diseases have decreased to almost the zero level others which were formerly rare have increased in incidence This health transition is also associated with a fall in fertility rates and one of the lowest proportion of elderly citizens in the world In combination these factors have resulted in a dramatic change in the age composition of the population Taking into account the steady growth in the proportion of the elderly and the possibility of higher occurrence of chronic diseases in the middle aged population the per capita cost of health care is likely to increase in the future The main challenge confronting the country in the health sector will be to maintain the present high quality of health services despite these negative trends **English Language and General Studies Education in the United Arab Emirates** Christine Coombe, Lana Hiasat, Georgia Daleure, 2022-03-16 This book presents an up to date account of current English language English teaching and General Studies practices in the UAE The chapters written by leading language teacher educators feature theoretical and empirical aspects of teaching learning assessment as well as related research Throughout the book the link between theory and practice is highlighted and exemplified This reader friendly book is suitable for undergraduate and graduate students teachers researchers and administrators of English language and general studies programs in the UAE and beyond who wish to keep abreast of recent developments in the field **International Perspectives on Workforce Education and Development** Jay W. Rojewski, 2004-12-01 Development of this text has been based on the notion that workforce education and development

WFED systems such as secondary and postsecondary vocational and technical education VTE career education and guidance human resource and organizational development HROD and adult training and retraining including literacy programs have essential roles to play in supporting both individual and national efforts to successfully participate in and reap the benefits offered by globalization While this assumption has intuitive appeal not everyone believes that vocational preparation programs result in positive outcomes Psacharopoulos 1997 an outspoken international critic of vocational education and training argues that WFED programs often have a low rate of return on a country's investment when compared to that of the general academic curriculum He contends that WFED initiatives often fail because too much emphasis is placed on these efforts to address myriad complex issues and that decision makers do not utilize the available evidence about VTE to make prudent informed choices Instead major players in the global economy like the World Bank tout basic academic education as an essential priority for developing countries wanting to enter into global markets and exchange
