Weekes-Shackelford, Todd K. Shackelford, 2014-07-08 This volume in the Springer Series in Evolutionary Psychology presents a state of the art view of the topic of sexuality and sexual behavior drawing on theoretical constructs and research of noted individuals in the field Comprehensive and multi disciplinary this book seeks to provide a broad overview without sacrificing the complexity of a multi faceted approach The book is framed by introductory and closing sections that provide a context for the range of ideas contained within Ample space is provided in designated sections that focus on key areas of sexuality from both male and female perspectives and that include information from primate studies This volume can serve as a graduate text in sexual behavior in evolutionary terms and as a guide for further research

**Human Perspectives** Terry J. Newton, Ashley Joyce, 2012 Human Perspectives 2A 2B has been written to address the updated units of the Human Biology course Each chapter features information under clear subject headings making it easy to navigate read and assimilate The content is highly illustrated with photographs electron micrograph images and annotated diagrams which are designed to engage students and to encourage scientific thinking investigation and problem solving The text is supported by a NelsonNet website and NelsonNetBook

**Anthropological Perspectives on Children as Helpers, Workers, Artisans, and Laborers** David F. Lancy, 2017-12-12 The study of childhood in academia has been dominated by a mono cultural or WEIRD Western educated industrialized rich and democratic perspective Within the field of anthropology however a contrasting and more varied view is emerging While the phenomenon of children as workers is ephemeral in WEIRD society and in the literature on child development there is ample cross cultural and historical evidence of children making vital contributions to the family economy Children s labor is of great interest to researchers but widely treated as extra cultural an aberration that must be controlled Work as a central component in children s lives development and identity goes unappreciated Anthropological Perspectives on Children as Helpers Workers Artisans and Laborers aims to rectify that omission by surveying and synthesizing a robust corpus of material with particular emphasis on two prominent themes the processes involved in learning to work and the interaction between ontogeny and children s roles as workers
