Perspectives on Development: the Euro-Mediterranean Partnership George Joffe, 2023-05-09 The Euro Mediterranean Partnership Initiative launched by the Barcelona Conference in 1995 is the most ambitious project to date directed at comprehensive prosperity and security in the Mediterranean region Yet the assumptions on which it is based are untried and untested This study seeks to analyse what they are and to draw some conclusions as to the potential of the Initiative for success by comparing it with other experiences of regional development

The Union for the Mediterranean Federica Bicchieri, Richard Gillespie, 2014-07-10 This is the first comprehensive analysis of the Union for the Mediterranean UfM launched in 2008 amid great controversy within the European Union Affected from the start by negative fallout from the failure of Middle East peace initiatives its inadequacies have been underlined by the popular movement for regime change in the Arab world Leading experts provide here the first integrated analysis of the significance and shortcomings of the UfM Beginning with critical questioning of the motives and institutional logics informing this venture the collection proceeds to analyse its key actors as well as major policy dossiers such as energy and development The book explains how and why an initiative aiming to depoliticize Euro Mediterranean relations in fact proved wide open to political discord bringing huge disruption to UfM activity While some aspects are found to have merit the volume is critical of the way in which EU Mediterranean policy became driven by a narrow range of national interests lost sight of the political objectives of the preceding Barcelona Process and became overwhelmingly bilateral in approach at the expense of more ambitious region building efforts It concludes by highlighting the need to reform the EU Mediterranean policy framework in the light of the Arab uprisings of 2011 This book was published as a special issue of Mediterranean Politics

The European Union's Mediterranean Policy: Model or Muddle? K. Knio, 2013-11-15 By analysing case studies through the lens of new constructivist Institutional perspective this book sheds new light on the failure of EU policies in the Mediterranean It suggests that these failures are the result of problems at the very heart of EU policy making which clearly privilege economic concerns over social concerns

Evaluating Euro-Mediterranean Relations Stephen Calleya, 2013-07-04 First Published in 2004 This book focuses on international relations in the Mediterranean area with a particular examination of patterns of relations in the Euro Mediterranean area

Investing in the Middle East Ashraf Mishrif, 2010-07-30 The effect of foreign direct investment FDI on economic development has been widely debated However the real challenge is not only to examine the effect of FDI on economic development but to also investigate the most appropriate economic policies that are conducive to increasing levels of FDI Ashraf Mishrif here addresses this challenge and examines the interplay between external and internal forces to determine whether recent EU Egyptian trade agreements have led to any significant improvement in Egypt's investment environment and in the growth levels of European direct investment in the country This important study makes a key contribution to our understanding of the inward investment strategies and options of the Arab World's most populous and powerful player It will be an essential point of reference for all economists bankers and investment advisors dealing with

the Middle East *Civilian or Military Power?* Helene Sjursen, 2013-09-13 This text critically examines the belief that the EU not only has an impact on the international system but also a normative civilian and civilizing power The contributors question whether this assertion fits with the empirical record or is merely based on anecdotal evidence and whether there is a theoretical basis for the expectation of a normative or civilizing power Moving the research agenda forward the book establishes criteria and assessment standards for examining the EU's international role and its putative normative dimension Such an endeavour is particularly important against the backdrop of recent developments in European security and defence The acquisition of military means or the EU's ambition to acquire such means might weaken at least the argument that the EU is a civilian power and could provoke a shift towards a policy more akin to traditional great powers This book was previously published as a special issue of the Journal of European Public Policy **Spain** Richard Gillespie, Richard Youngs, 2001 The Mediterranean a firm priority of Spanish foreign policy Jes's A Nez Villaverde Spain and the United States military primacy Felipe Sahag'n Spanish defence policy Eurocorps and NATO reforms Crispin Coates Development co operation and humanitarian action in Spanish foreign policy Mariano Aguirre and Francisco Rey *Evaluating Euro-Mediterranean Relations* Stephen C. Calleya, 2005 What are the prospects for the future of the Euro Mediterranean area and what relevant role can the EMP play in this future This book focuses on international relations in the Mediterranean area with a particular examination of patterns of politics security and socio economic relations *Euro-Mediterranean Security: A Search for Partnership* Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU's approach towards security in the Mediterranean After examining the EU's interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy *Borderlands* Raffaella A. Del Sarto, 2021 The study proposes a different understanding of the complex relationship between Europe and the Mediterranean Middle East and North Africa it challenges the conventional wisdom on Europe's benevolent foreign policy and the image of Fortress Europe alike *Routledge Handbook of Mediterranean Politics* Richard Gillespie, Frédéric Volpi, 2017-08-14 The Mediterranean space defined by a major sea a large number of littoral countries and to some extent their hinterlands is at the same time an interface between Europe Africa and Asia This brings complex challenges in terms of achieving peace and stability Recently it has received intense international attention through the internal destructiveness and spill over from

conflicts primarily those waged in Libya Syria and more remotely Iraq This Handbook provides an overview of the political processes that shape the Mediterranean region in the contemporary context It explores the issues of crucial importance to Mediterranean dynamics through a series of analytical sections that guide the reader towards a comprehensive understanding of the main regional interactions and trends The Handbook explores the complex historical formation of the contemporary Mediterranean geopolitical perspectives issues around peace and conflict the political economy of the region the role of non state actors and social movements societal and cultural trends The wide range of contributions from many of the leading academic experts on the region offers not only insights into the debates and processes that structure each theme but also key pointers for a more general understanding of how distinct political economic social and cultural dynamics interact across the region It will therefore be a key resource for policy makers and students and scholars of Mediterranean politics and international relations

Challenges to Global Security Hussein Solomon, 2007-10-24 Ours is an age of great upheaval where change sometimes appears to be the only constant Three of the most important forces driving such change are globalization regionalization and democratization This substantial work makes a concerted attempt to understand these forces and to show how they impact on the vitally important question of global security The volume brings together a wide range of scholars who hold diverse views and who collectively make a very significant contribution to current discourses within international relations and contemporary geopolitics Such is the book's breadth that it covers every region of the world addressing in turn security problems in the USA Latin America South Asia South East Asia Europe Russia and environs the Middle East and Africa Each discourse receives substantial coverage from economics and politics to religion religious fundamentalism and human rights *Challenges to Global Security* offers one of the richest comparative volumes yet to be published on the subject and will have strong appeal to students scholars and policymakers in the fields of international relations ethics and politics

The European Neighbourhood Policy in a Comparative Perspective Sieglind Gstohl, 2016-07-22 The European Neighbourhood Policy ENP has evolved into one of the European Union's major foreign policy instruments and received considerable attention However other EU neighbourhood policies and their relevance for the ENP also require examination The Arab uprisings civil wars in Libya and Syria the continuing Israeli Palestinian conflict the crisis in Ukraine and Russia's annexation of the Crimean peninsula have all brought the institutional design and tools of the ENP into question and a comparative perspective is crucial to understand EU neighbourhood policies in a wider sense This timely book puts the ENP into context by exploring the major challenges and key lessons of the EU's other policy frameworks with neighbouring countries Mapping the EU's bi lateral and multilateral neighbourhood relations in comparison to the ENP and investigating the major challenges faced it provides a comprehensive up to date view of the EU's relations with its neighbours Focusing on current affairs and future challenges the comparison with the ENP and the lessons to be drawn generate novel insights into the EU's closest external relations This book will be of key interest to students and scholars
