Perspectives On Political Parties Classic Readings:

Perspectives on Political Parties S. Scarrow, 2002-10-03 *Perspectives on Political Parties* is a collection of primary documents that show the changing understandings of partisan politics during the nineteenth century the first era in which parties played a central role in governing The texts taken from British American German and French publication speak to today's students and scholars of history and political science by showing the deep roots of still current debates about representative democracy and mass politics The reader is designed to fill a hole in contemporary teaching and scholarship by assembling hard to access sources that form the basis of modern debates about parties *Perspectives on Political Parties*

S. Scarrow, 2002-12-18 *Perspectives on Political Parties* is a collection of primary documents that show the changing understandings of partisan politics during the nineteenth century the first era in which parties played a central role in governing The texts taken from British American German and French publication speak to today's students and scholars of history and political science by showing the deep roots of still current debates about representative democracy and mass politics The reader is designed to fill a hole in contemporary teaching and scholarship by assembling hard to access sources that form the basis of modern debates about parties Routledge International Handbook of Contemporary Social and Political Theory

Gerard Delanty, Stephen P. Turner, 2021-09-20 The triangular relationship between the social the political and the cultural has opened up social and political theory to new challenges The social can no longer be reduced to the category of society and the political extends beyond the traditional concerns of the nature of the state and political authority This Handbook will address a range of issues that have recently emerged from the disciplines of social and political theory focusing on key themes as opposed to schools of thought or major theorists It is divided into three sections which address the most influential theoretical traditions that have emerged from the legacy of the twentieth century the most important new and emerging frameworks of analysis today the major theoretical problems in recent social and political theory The Second edition is an enlarged revised and updated version of the first edition which was published in 2011 and comprised 42 chapters The new edition consists of 50 chapters of which seventeen are entirely new chapters covering topics that have become increasingly prominent in social and political theory in recent years such as populism the new materialism postcolonialism Deleuzian theory post humanism post capitalism as well as older topics that were not covered in the first edition such as Arendt the gift critical realism anarchism All chapters retained from the first edition have been thoroughly revised and updated The Routledge International Handbook of Contemporary Social and Political Theory encompasses the most up to date developments in contemporary social and political theory and as such is an essential research tool for both undergraduate and postgraduate students as well as researchers working in the fields of political theory social and political philosophy contemporary social theory and cultural theory **New Technology, Organizational Change and Governance**

E. Avril, C. Zumello, 2013-05-07 Globalization and the technological revolution have forced organizations to

rethink decision making structures favouring the adoption of highly innovative practices This book analyzes the impact of new technologies testing empowerment engagement and democratization against the new organizational morphology of political parties and corporations

Studying Political Parties as Organizations Emil Husted,2024-06-25 This book outlines what it means to study political parties as organizations by developing and applying four theoretical perspectives to the case of an unconventional Green party in Denmark called Alternativet meaning the alternative Drawing on an ethnographic study the book tracks the party s humble origins in 2013 as a social movement through its inaugural term until the 2022 national elections spotlighting Alternativet s unprecedented organizational dynamics By dissecting this party that did not want to be a party through classical configurational comparative and cultural lenses the author opens a new area of enquiry to scholars in organization and management studies

Multiple Populisms Paul Blokker,Manuel Anselmi,2019-09-17 This book provides a comprehensive interpretation of the multiple manifestations of populism using Italy the only country amongst consolidated constitutional democracies in which populist political forces have been in government on various occasions since the early 1990s as the starting point and benchmark Populism is a complex multi faceted political phenomenon which redefines many of the essential characteristics of democracy participation representation and political conflict This book considers contemporary versions of populism that pose a real challenge to representative and constitutional democracy Contributors provide an integrative interpretation of populism and analyse its principal historical social and politico legal variables to provide a multi dimensional reflection on the concept of populism comprehensive analysis of the populist phenomenon and a theoretical and comparative perspective on the diverse political experiences of populism Based on conceptual and interdisciplinary reflections from expert authors this book will be of great interest to scholars and post graduate students of cultural studies European studies political sociology political science comparative politics political philosophy and political theory with an interest in a comparative and interdisciplinary theory of populism and its manifestations

The Lottocratic Mentality Cristina Lafont,Nadia Urbinati,2024-11-14 In recent years there has been great interest in new forms of citizen participation such as citizens assemblies or deliberative polls that involve ordinary citizens in political decision making Many see these innovations as the best solution to the current crisis of democracy The most radical among them propose replacing elections with the random selection of ordinary citizens transforming electoral democracy into a lottocracy These developments are driven by a lottocratic mentality that is deeply transforming our understanding of democracy political equality representation and more In The Lottocratic Mentality Lafont and Urbinati focus on this way of thinking which is flourishing in public debates inspiring the organization of citizens assemblies worldwide and bridging democratic and nondemocratic regimes in the vision of a unified global order based on problem solving allotted assemblies free from electoral competition The authors analysis shows that it amounts to a worrisome form of technopopulism that justifies conferring legislative power on randomly selected assemblies based on a mixture of populist

and technocratic grounds This lottocratic mentality legitimizes the anti democratic idea that the many should be ruled by the few chosen by chance Against this view they show how lottery based institutions could be used with the democratic aim of empowering the citizenry but only if the lottocratic mentality is rejected

Contemporary Germany and the Fourth Wave of Far-Right Politics Manès Weisskircher,2023-09-28 This volume provides a state of the art analysis on the fourth wave of far right politics in Germany by leading scholars in the field Innovatively the book focuses not only on the role of the electoral breakthrough of AfD the Federal Republic s first ever nationally established far right party but also on the many crucial instances of non party activism such as the New Right intellectual circles PEGIDA street protest and political violence For a long time Germany was regarded as an exceptional case because of the lack of an established far right party on the national level Times have changed but Germany still remains unique The book highlights four features that continue to make the case exceptional within Western Europe I The strong diversity of vibrant far right political players in Germany and their many interconnections II the electoral success of AfD i e the delayed electoral breakthrough of a far right party on the national level III the importance of militant democracy specifically how established players have responded to AfD and IV the relevance of the east west divide for understanding far right politics in Germany Contributions on these topics highlight the broader theoretical relevance of the analysis of the German far right connecting to many research questions that have occupied scholars also in other contexts The book is essential reading for all those with an interest in the far right German and European politics as well as in the interconnections between political parties social movements and subcultural milieus

Guide to U.S. Political Parties Marjorie R. Hershey,2014-04-01 This one volume reference presents the major conceptual approaches to the study of U S political parties and the national party system describing the organization and behavior of U S political parties in thematic narrative chapters that help undergraduate students better understand party origins historical development and current operations Further it provides researchers with in depth analysis of important subtopics and connections to other aspects of politics Key Features Thematic narrative chapters organized into six major parts provide the context as well as in depth analysis of the unique system of party politics in the United States Top analysts of party politics provide insightful chapters that explore how and why the U S parties have changed over time including major organizational transformations by the parties behavioral changes among candidates and party activists and attitudinal changes among their partisans in the electorate The authors discuss the way the traditional concept of formal party organizations gave way over time to a candidate centered model fueled in part by changes in campaign finance the rise of new communication technologies and fragmentation of the electorate This book is an ideal reference for students and researchers who want to develop a deeper understanding of the current challenges faced by citizens of republican government in the United States

Student's Guide to Elections CQ Press,2008-06-03 The first elections reference specifically created to support students and teachers in U S government course Student s Guide to Elections is an informative and engaging reference tool for young

researchers seeking information on voting the electoral process and the history of U S elections It offers accessible access to the key topics in high school U S government and U S history curricula A comprehensive single volume resource it features essays encyclopedic entries and primary source documents to help students understand the history and significance of the U S electoral process The user friendly design includes boxed features time lines photos maps charts tables and political cartoons Student s Guide to Elections is the first title in a brand new Student s Guide series from CQ Press Uniquely the Student s Guide series of books is written so that students need no prior knowledge to understand the essays encyclopedia entries or primary sources in these resources With the 2008 presidential election looming in November this volume will prove to be an indispensable resource for high school and public libraries and a teaching resource for courses on U S government and political system

Groups, representation and democracy Darren Halpin, 2013-07-19 Whether called pressure groups NGOs social movement organisations or organised civil society the value of groups to the policy process to economic growth to governance to political representation and to democracy has always been contested However there seems to be a contemporary resurgence in this debate largely centred on their democratising potential can groups effectively link citizens to political institutions and policy processes Are groups an antidote to emerging democratic deficits Or do groups themselves face challenges in demonstrating their legitimacy and representativeness This book debates the democratic potential and practice of groups focussing on the vibrancy of internal democracies and modes of accountability with those who join such groups and to the constituencies they advocate for It draws on literatures covering national European and global levels and presents new empirical material from the UK and Australia

Democracy and the Cartelization of Political Parties Richard S. Katz, Peter Mair, 2018-07-11 Political parties have long been recognized as essential institutions of democratic governance Both the organization of parties and their relationships with citizens the state and each other have evolved since the rise of liberal democracy in the 19th and early 20th centuries Going into the 21st century it appears that parties losing popular support putting both parties and potentially democracy in peril This book traces the evolution of parties from the model of the mass party through the catch all party model to argue that by the late 20th century the principal governing parties and their allied smaller parties collectively the political mainstream were effectively forming a cartel in which the form of competition might remain and indeed even appear to intensify while its substance was increasingly hollowed out The spoils of office were increasingly shared rather than restricted to the temporary winners contentious policy questions were kept off the political agenda and competition shifted from large questions of policy to minor questions of managerial competence To support this cartel the internal arrangements of parties changed to privilege the party in public office over the party on the ground The unintended consequence has been to stimulate the rise of extra cartel challengers to these cozy arrangements in the form of anti party system parties and populist oppositions on the left but especially on the right Comparative Politics is a series for researchers teachers and students of political science

that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow John and Rebecca Moores Professor of Political Science University of Houston

The Funding of Political Parties Keith Ewing, Jacob Rowbottom, Joo-Cheong Tham, 2011-08-30 This book explores the problems associated with regulating the funding of political parties and election campaigns in a timely assessment of a topic of great political controversy From interest in Obama s capacity to raise vast sums of money to scandals that have rocked UK and Australian governments party funding is a global issue reflected in this text with case studies from Australia Canada New Zealand United Kingdom and the United States Taking an interdisciplinary approach with leading scholars from politics geography and law this text addresses key themes contributions spending controls the role of broadcasters and special interests and the role of the state in funding political parties With regulatory measures apparently unable to change the behaviour of parties why have existing laws failed to satisfy the demands for reform and what kind of laws are necessary to change the way political parties behave The Funding of Political Parties Where Now brings fresh comparative material to inform this topical and intractable debate and assesses the wider implications of continuing problems in political funding This book will be of interest to students and scholars of political science political theory policy and law

Political Parties and Democratic Linkage Russell J. Dalton, David M. Farrell, Ian McAllister, 2011-09-29 Political Parties and Democratic Linkage examines how political parties ensure the functioning of the democratic process in contemporary societies Based on unprecedented cross national data the authors find that the process of party government is still alive and well in most contemporary democracies

Handbook of Party Politics Richard S Katz, William J Crotty, 2006-01-05 This thoughtful and wide ranging review of parties and party research contains contributions from many of the foremost party scholars and is a must for all library shelves Richard Luther Keele University The study of political parties has never been livelier and this genuinely international Handbook theoretically rich comparatively informed and focused on important questions defines the field This volume is both an indispensable summary of what we know and the starting point for future research R K Carty University of British Columbia Political parties are ubiquitous but their forms and functions vary greatly from regime to regime from continent to continent and from era to era The Handbook of Party Politics captures this variation and richness in impressive ways The editors have assembled an excellent team and the scope of the volume is vast and intriguing Kaare Strom University of California San Diego Political parties are indispensable to democracy and a central subject of research and study in political science around the world This major new handbook is the first to comprehensively map the state of the art in contemporary party politics scholarship The Handbook is designed to provide an invaluable survey of the major

theories and approaches in this dynamic area of study and research give students and researchers a concise road map to the core literatures in all the sub fields of party related theorizing and research identify the theories approaches and topics that define the current cutting edge of the field The Handbook is comparative in overall approach but also addresses some topics to be addressed in nationally or regionally specific ways The resulting collaboration has brought together the world s leading party theorists to provide an unrivalled resource on the role of parties in the pressing contemporary problems of institutional design and democratic governance today

Partisanship and Political Liberalism in Diverse Societies Matteo

Bonotti,2017 This book examines the role of political parties in liberal democracies and their function within the context of one of the most influential contemporary political theories John Rawls s political liberalism *Political Parties and Interest Groups in Norway* Elin Haugsgjerd Allern,2024-10-31 How do today s political parties relate to other organisations Do they prefer rather distant relationships with a wide range of interest groups or have they virtually detached themselves from civil society altogether Scholars seem to agree that traditionally close relationships such as those between social democratic parties and trade unions have grown weaker since the 1960s But to date only limited systematic research has been conducted While parties and interest groups attract a great deal of attention from political scientists the links between them have been largely overlooked This book is an attempt to bridge the gap starting from the party side of the relationship It throws new light on the topic by presenting a theory driven comprehensive study of Norway s seven major political parties and their relationships with interest groups at the beginning of the new millennium Based on original and extensive data including party documents in depth interviews with key players and a survey of national party elites Elin Haugsgjerd Allern paints a nuanced picture of the nature and significance of these relationships and the factors that shape them A major conclusion is that Norway s parties tend to maintain rather distant but wide ranging relationships with interest groups today However some parties still have fairly strong links with their traditional associates and a narrower network of links with other groups Hence Allern also shows that significant differences exist between parties that are apparently exposed to the same social political and institutional environment Beyond Party Members Susan E. Scarrow,2015 This book offers a broad overview of an important and ongoing transformation in relations between political parties and their closest supporters It focuses on established parliamentary democracies showing how the changing nature of party membership is affecting how political parties define themselves and the choices presented to voters **The Hollow Parties** Daniel Schlozman,Sam Rosenfeld,2025-10-28 A major history from the Founding to our embittered present that explains the void Politico at the center of America s political parties Featured on The Ezra Klein Show and The Weekly Show with Jon Stewart America s political parties are hollow shells of what they could be locked in a polarized struggle for power and unrooted as civic organizations The Hollow Parties takes readers from the rise of mass party politics in the Jacksonian era through the years of Barack Obama and Donald Trump Today s parties at once overbearing and ineffectual have emerged from the interplay of

multiple party traditions that reach back to the Founding Daniel Schlozman and Sam Rosenfeld paint unforgettable portraits of figures such as Martin Van Buren whose pioneering Democrats invented the machinery of the mass political party and Abraham Lincoln and other heroic Republicans of that party's first generation who stood up to the Slave Power And they show how today's fractious party politics arose from the ashes of the New Deal order in the 1970s Activists in the wake of the 1968 Democratic National Convention transformed presidential nominations but failed to lay the foundations for robust movement driven parties Instead modern American conservatism hollowed out the party system deeming it a mere instrument for power Party hollowness lies at the heart of our democratic discontents With historical sweep and political acuity *The Hollow Parties* offers powerful answers to pressing questions about how the nation's parties became so dysfunctional and how they might yet realize their promise

The Digital Party Paolo Gerbaudo, 2018-12-14 From the Five Star Movement to Podemos from the Pirate Parties to La France Insoumise from the movements behind Bernie Sanders to those backing Jeremy Corbyn the last decade has witnessed the rise of a new blueprint for political organisation the digital party Paolo Gerbaudo addresses the organisational revolution that is transforming political parties in the time of Facebook Twitter Instagram and Cambridge Analytica Drawing on interviews with political leaders and organisers Gerbaudo demonstrates that besides rapidly growing in votes these formations have also revitalised party democracy involving hundreds of thousands in discussions carried out on online decision making platforms Participatory yet plebiscitarian open and democratic yet dominated by charismatic hyperleaders digital parties display both great potentials and risks for the development of new forms of mass participation in an era of growing inequality All political parties will have to reckon with the lessons of the digital party

The Enigmatic Realm of **Perspectives On Political Parties Classic Readings**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic.
