**Perspectives on Political Philosophy** James V. Downton, David K. Hart, 1973      **John Rawls: Political liberalism and the law of peoples** John Rawls, 2002      **Leo Strauss and His Legacy** John Albert Murley, 2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss's students and their students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss's own complete bibliography and that of one of his most revered students George Anastaplo      The Political Thought of Václav Havel Daniel Brennan, 2016-10-05 The book considers Václav Havel's body of writing as a cohesive whole offering a consistent political philosophy This bold claim is backed up through a close examination of Havel's plays letters essays and aphorisms The political philosophy that a close reading of Havel reveals is a liberal one However Havel is not the run of the mill liberal having influences from the field of phenomenology Husserl Heidegger Levinas Patočka and Masaryk which give him a nuanced view of the self Havel sees the self as something always being formed Hence for Havel man has an ability to shake his current state and invite transcendence into his life This agonistic process reveals our responsibility and liberates the self from forces which coerce behaviour      Politics, Nature, and Piety: On the Natural Basis of Political Life Laurence Berns, 2022-11-15 The writings in this volume are the fruit of a lifetime devoted to the study of ancients and moderns both poetic and philosophic Full of insights into foundational texts ranging from Aristotle's Poetics to the Declaration of Independence they are marked by an admirable clarity of thought and expression and a persistent effort to engage the reader as a fellow thinker I rejoice that the writings of Laurence Berns are now available in a single volume Peter Kalkavage Tutor St John's College and author of The Logic of Desire An Introduction to Hegel's Phenomenology of Spirit The essays in Politics Nature and Piety take up the central question of political philosophy What is the good life and what place do nature politics and piety have in that life The unity of the essays Alex Priou writes in his introduction lies in the various tensions explored between ancients and moderns religion and philosophy magnanimity and prudence justice and friendship and most fundamentally spiritedness and the intellect Laurence Berns proves an excellent guide for beginning one's study of the great books of political philosophy from Plato to the present      Aristotle's 'Politics' Judith A. Swanson, C. David Corbin, 2009-07-21 An accessible introduction to Aristotle's Politics a classic of political theory widely considered to be the founding text of Western political science      Democracy of Expression Andrew T. Kenyon, 2021-06-17 Free speech has positive dimensions of enablement and negative dimensions of non restraint both of which require protection for democracy to have substantial communicative legitimacy In Democracy of Expression Andrew Kenyon explores this need for sustained plural public speech linked with positive communicative freedom Drawing on sources from media studies human rights political theory free speech theory and case law Kenyon shows how positive dimensions of free speech could be imagined and pursued While recognising that democratic governments face challenges of public communication and free speech that cannot be easily

solved Kenyon argues that understanding the nature of these challenges including the value of positive free speech at least makes possible a democracy of expression in which society has a voice formulates judgments and makes effective claims of government In this groundbreaking work Kenyon not only reframes how we conceptualize free speech but also provides a roadmap for reform
