Perspectives On Punishment An Interdisciplinary Exploration:

Perspectives on Punishment Richard Mowery Andrews, 1997 Papers presented at a conference of the Society of Fellows in the Humanities Columbia University May 18 20 1990 The Proto-totalitarian State Dmitry Shlapentokh, 2017-07-05

Totalitarian rule is commonly thought to derive from specific ideologies that justify the complete control by the state of social cultural and political institutions The major goal of this volume is to demonstrate that in some cases brutal forms of state control have been the only way to maintain basic social order Dmitry Shlapentokh seeks to show that totalitarian or semi totalitarian regimes have their roots in a fear of disorder that may overtake both rulers and the society at large Although ideology has played an important role in many totalitarian regimes it has not always been the chief reason for repression In many cases the desire to establish order led to internal terror and intrusiveness in all aspects of human life Shlapentokh seeks the roots of this phenomenon in France in the fourteenth to sixteenth centuries when social processes in the wake of the Hundred Years War led to the emergence of a brutal absolutist state whose features and policies bore a striking resemblance to totalitarian regimes in the Soviet Union and China State punishment and control allowed for relentless drive to normalize society with the state actively engaged in the regulation of social life There were attempts to regulate the economy and instances of social engineering attempts to populate emerging colonial empires with exiles and produce new men and women through reeducation This increased harshness in dealing with the populace in fact the emergence of a new sort of bondage was combined with a twisted form of humanitarianism and the creation of a rudimentary safety net Some of these elements can be found in the democratic societies of the modern West although in their aggregation these attributes are essential features of totalitarian regimes of the modern era Law and the Humanities Austin Sarat, Matthew Anderson, Cathrine O. Frank, 2009-10-30

Law and the Humanities An Introduction brings together a distinguished group of scholars from law schools and an array of the disciplines in the humanities Contributors come from the United States and abroad in recognition of the global reach of this field This book is at one and the same time a stock taking both of different national traditions and of the various modes and subjects of law and humanities scholarship It is also an effort to chart future directions for the field By reviewing and analyzing existing scholarship and providing thematic content and distinctive arguments it offers to its readers both a resource and a provocation Thus Law and the Humanities marks the maturation of this law and enterprise and will spur its further development **Law as Performance** Julie Stone Peters, 2022 Explores the history of legal theatricality from antiquity to the eighteenth century It recovers a long tradition of jurisprudential thought about law as a form of theatre a tradition that ancient medieval early modern and later theorists transmitted across centuries continually elaborating and reworking it to suit changing conditions Montesquieu's Science of Politics David W. Carrithers, Michael A. Mosher, Paul A. Rahe, 2000-12-20

Montesquieu's *The Spirit of Laws* is one of a handful of classic works of political philosophy deserving a fresh reading every generation The product of immense erudition

Montesquieu's treatise has captured since its first printing 1748 the imagination of an impressive array of intellectuals including Rousseau Voltaire Beccaria Madison Hamilton Jefferson Herder Siey's Condorcet Robespierre Bentham Burke Constant Hegel Tocqueville Emile Durkheim Raymond Aron and Hannah Arendt In what constitutes the only English language collection of essays ever dedicated to the analysis of Montesquieu's contributions to political science the contributors review some of the most vexing controversies that have arisen in the interpretation of Montesquieu's thought By paying careful attention to the historical political and philosophical contexts of Montesquieu's ideas the contributors provide fresh readings of *The Spirit of Laws* clarify the goals and ambitions of its author and point out the pertinence of his thinking to the problems of our world today

The Self in the Cell Sean C. Grass, 2014-01-27 Michel Foucault's writing about the Panopticon in *Discipline and Punish* has dominated discussions of the prison and the novel and recent literary criticism draws heavily from Foucauldian ideas about surveillance to analyze metaphorical forms of confinement policing detection and public scrutiny and censure But real Victorian prisons and the novels that portray them have few similarities to the Panopticon Sean Grass provides a necessary alternative to Foucault by tracing the cultural history of the Victorian prison and pointing to the tangible relations between Victorian confinement and the narrative production of the self *The Self in the Cell* examines the ways in which separate confinement prisons with their demand for autobiographical production helped to provide an impetus and a model that guided novelists' explorations of the private self in Victorian fiction

Graduate Study for the Twenty-First Century Gregory M. Colón Semenza, 2005-10-06 Many graduate students continue to be regarded as apprentices despite the fact that they are expected to design and teach their own classes serve on university committees and conference and publish regularly The Chronicle of Higher Education reports that the attrition rate for American Ph.D. programmes is at an all time high between 40% and 50% higher for women and minorities Of those who finish only one in three will secure tenure track jobs These statistics highlight waste of millions of dollars by universities and of time and energy by students Rather than teaching graduate students how to be graduate students then the guide prepares them for what they really seek a successful academic career
