## **Persuaded A Great Lakes Story:**

**Tragedy and Triumph on the Great Lakes** Richard Gebhart, 2024-02-01 Richard Gebhart traces little known voyages of Great Lakes ships that sailed the Atlantic beginning in the 1850s They bore cargoes to and from the lakes and as far as Constantinople Gebhart recovers the voices of long ago ship captains along with their cargo manifests and itineraries Drawing on deep research in old newspapers and maritime archives he traces the construction of new ships and shipyards and the comings and goings and travails of the lakes workhorses Included is a mournful visit to a boneyard where many ships lives ended Among many other lost tales Gebhart brings to light the rise of oil tankers marking the great twentieth century energy transition in shipping A must read for Great Lakes shipping fans *Adrift on the Pacific: A Boy's Story of the Sea and its Perils* Edward Sylvester Ellis, 2020-09-28 For the first time Captain Strathmore looked down at the little girl who was staring around her with the wondering curiosity of childhood She was apparently about six years of age and the picture of infantile innocence and loveliness She was dressed with good taste her little feet being incased in Cinderella like slippers while the pretty stockings and dress set off the figure to perfection She wore a fashionable straw hat with a gay ribbon and indeed looked like a child of wealthy parents who had let her out for a little jaunt along some shady avenue When Captain Strathmore looked down upon this sweet child a great pang went through his heart for she was the picture of the little girl that once called him father Her mother died while little Inez was an infant and as soon as the cherished one could dispense with the care of a nurse she joined her father the captain and henceforth was not separated from him She was always on ship or steamer sharing his room and becoming the pet of every one who met her no less from her loveliness than from her childish winning ways But there came one awful dark day away out in the Pacific when the sweet voice was hushed forever and the rugged old captain was bowed by a grief such as that which smites the mountain oak to the earth The little girl who now looked up in the face of Captain Strathmore was the image of Inez who years before had sunk to the bottom of the sea carrying with her all the sunshine music and loveliness that cheered her father s heart With an impulse he could not resist the captain reached out his arms and the little stranger instantly ran into them *Perilous Pursuit on the Santa Fe Trail* Inez Ross, 2005 Private investigator Sheila Jones the modern counterpart of Sherlock Holmes and her trusty assistant Dora Watling are trying to protect their young client Helen Stones from an evil stepfather as he leads them on a dangerous game along the Santa Fe Trail *The Inside History of the Carnegie Steel Company* James Howard Bridge, 2010-01-09 For years I have been convinced that there is not an honest bone in your body Now I know that you are a god damned thief Henry Clay Frick reportedly told Andrew Carnegie at their last meeting in 1900 just before J P Morgan bought the Carnegie Steel Company and founded United States Steel Three years later James Bridge who had served as Carnegie s personal secretary published this book In it he recounted the events that led up to the final confrontation between two of America s most powerful capitalists The book created a sensation when it appeared in 1903 Not only did it describe the raw emotions of

Carnegie and Frick those most brilliant and uneasy of business partners it also told of the history and inner workings of the industrial giant Carnegie Steel Bridge was an open partisan of Frick and the portrait of Carnegie that emerges from this book is not flattering But he was an experienced journalist and he uses sources carefully His book remains a striking insider s narrative of the American steel industry in the last decades of the nineteenth century as well as the most revealing account of the emotions of some of its major owners The introduction by John Ingram places the book in perspective for both the historian and general reader close History of the Upper Peninsula of Michigan Anonymous,2024-01-06 Reprint of the original first published in 1883 *History of Canada* François-Xavier Garneau,1862 **History of Canada** Andrew Bell,2022-07-27 Reprint of the original first published in 1860 *Pioneer History Stories for Third and Fourth Grades* Charles Alexander McMurry,1891 **Prologue** ,1990 History of the Upper Peninsula of Michigan ,1883 Publisher description This volume presents a detailed study of the climate strategies of ExxonMobil Shell and Statoil With an innovative analytical approach the authors explain variations at three decision making levels within the companies themselves in the national home bases of the companies and at the international level The analysis generates policy relevant knowledge about whether and how corporate resistance to a viable climate policy can be overcome History of Canada ... Robinson,2023-04-30 This book explores the leadership of state and federal environmental agencies and local environmental groups in restoring the degraded rivers that flow into North America s Great Lakes and other sites in the northeastern industrial corridor of the US Robinson examines twenty of the forty eight sites included in the Areas of Concern Program of the Great Lakes Water Quality Agreement between Canada and the US These twenty include heavily urbanized locales such

as those along the River Rouge and Detroit River but also more pristine locales such as the St Louis River that flows through Duluth Additionally Robinson examines challenging river restorations within the northeastern industrial corridor which are led by effective local environmental advocacy organizations the Penobscot Nation of Indigenous People the Mystic River Watershed Association and the Housatonic River Valley Association All of these river restorations are led and managed by the environmental experts of i state and federal agencies ii academia and iii environmental NGOs Local restorations of industrially degraded water bodies now compose a significant segment of the environmental movement and ultimately Robinson demonstrates that local environmental advocacy organizations can help marshal state and local funding for those efforts
