State Under Siege Philip Mauceri, 2018-03-29 Using a framework that highlights how societal and international factors have shaped state capacities Philip Mauceri examines Peru's volatile politics in the country's move from a developmentalist state to neoliberalism He explores the challenges to state authority during the military regimes reformist experiment arguing that they were intensified in the 1980s by poor planning and limited policy choices He then examines how social and international conditions have influenced the Fujimori regime's attempt to retool the state along neoliberal lines Using a framework that highlights how societal and international factors have shaped state capacities Philip Mauceri examines the volatile politics in Peru from the Velasco through the Fujimori regimes as the country has moved from a developmentalist state to neoliberalism Dr Mauceri begins by reassessing the reformist experiment of the Peruvian military regime 1968-1980 arguing that it led to the development of unexpected challenges to state authority both from new social actors and international financial organizations During the 1980s these challenges intensified made even worse by poor planning and limited policy choices The author then argues that the attempt by the Fujimori regime backed by a neoliberal coalition to

retool the state indicates the degree to which state capacities are determined by social and international conditions Mauceri also gives special attention to the relation between changing state power and social control Separate chapters on the evolution of a Lima shantytown and the Shining Path examine how changes in state society relations have had impacts at the grassroots level
