Perversion and the Social Relation Molly Anne Rothenberg, Dennis A. Foster, Slavoj Zizek, 2003-05-21 Discusses the history representation and theorization of perversion and shows its relevance for understanding social relations especially racism liberalism class antagonism abjection and multiculturalism as well as considering its role in the esta **It Didn't Mean Anything** Alexander N. Howe, 2008-03-17 This critical study of American detective fiction examines the history and development of the detective genre through the lens of psychoanalysis Applying the ideas of French psychoanalyst Jacques Lacan the author identifies and categorizes popular works according to the fictional protagonist s hysteria obsessive neurosis perversion or psychosis The first chapter identifies several instances of hysteria within the fiction of two of the genre s pioneers Edgar Allan Poe and Arthur Conan Doyle Chapter Two traces the development of the hard boiled detective s code of honor through the works of Dashiell Hammett Raymond Chandler and Mickey Spillane identifying the often paradoxical nature of this code and its origins in obsessive neurosis Chapter Three analyzes the anti detective fiction of Philip K Dick in terms of paranoid psychosis and the final chapter returns to the question of hysteria taking up the female hard boiled detectives of author Marcia Muller **Desire and Consent in Representations of Adolescent Sexuality with Adults** Maureen Turim, Diane Waldman, 2023-10-02 This book presents an innovative comparative view of how the issue of adolescent sexuality and consent is differently treated in various media Analyzing teenage sexual encounters with adults across a variety of media including films television novels and podcasts the volume takes a positive stance on the expression of teenage sexuality while remaining sensitive to the power of adults to abuse and manipulate The anthology treats these representations as negotiations between conflicting forces desire sexual self knowledge unequal power and the law the latter both actual legal statutes and internalized law in the philosophical and psychoanalytic sense Questions of unequal power inherent in such relations are theorized The authors examine variations of this configuration of sexual relations between teenagers and adults from different perspectives to consider how various forms of expression rework it formally These essays are attuned to both nuances of presentation and contexts of reception and they consider how aesthetics play a role Contributing to the general debate about the ways that societies construct and regulate adolescent sexuality this book will be of great interest to scholars and students of media studies cultural studies film studies television studies sociology and gender studies **Contemporary Literature and Emergent Space** Gregory Dean Nicholson, 2007 American Book Publishing Record , 1998 **What are Perversions?** Sergio Benvenuto, 2018 This book explores what we mean when we use the term perversion Are we dealing with a sexological classification a mental disturbance an ethical deviation a hedonistic style or an historical cultural artifact The book retraces some of the fundamental stages in the field of psychoanalytic thought from Freud to Masud Khan Stoller and Lacan and proposes an original approach that paraphilias today are taken as an ethical failure of the sexual relationship with the other The perversions signal a specific relationship with the other who is

treated not simply as a sexual object but someone whose subjectivity is ably exploited precisely in order to get a perverse pleasure Acts if considered perverse are understood as a metaphorical re edition of a trauma above all sexual in which the subject as a child suffered the bitter experience of exclusion or jealousy The book articulates an heterodox hypothesis by drawing on clinical cases from both the author s own analytic practice and those of others but it also draws on cinema historical episodes social psychology experiments for example Stanley Milgram s experiment stories and novels and philosophical works The final appendix delves more deeply into Freud s theory of masochism Provided by publisher The Language of Perversion and the Language of Love Sheldon Bach,1999-05 From long before the Trojan War to the ethnic cleansings of our own century people have often used their potential to treat other human beings as things It is this treatment of another person as a thing rather than as a human being that the eminent psychoanalyst Dr Sheldon Bach sees as a perversion of object relationships and that forms the background of this powerful book Perversion is a lack of capacity for whole object love and while this includes the sexual perversions it also includes certain character perversions character disorders and psychotic conditions Dr Bach s clinical work has led him to conclude that sexual perversions are generally inconsistent with whole object love Therapeutic experience suggests that the pathways to object love may be strewn with outgrown and discarded sexual perversions But whether a sexual perversion per se exists or not the issue of how it happens that one person can degrade another to the status of a thing is an issue of importance not only for the psychoanalysis of character but for our larger understanding of human nature as well Perversions are attempts to simplistically resolve or defend against some of the central paradoxes of human existence How is it possible for us to be born of someone s flesh yet be separate from them or to live in one s own experience yet observe oneself from the outside How are we able to deal with feelings of being both male and female child and adult or to negotiate between the worlds of internal and external stimulation People with perversions have special difficulty in dealing with the ambiguity of human relationships They have not developed the transitional psychic space that would allow them to contain paradox making it difficult for them to recognize the reality and legitimacy of multiple points of view Thus they tend to think in either or dichotomies to search for dominant submissive relationships and to perceive the world from idiosyncratically subjective or coldly objective perspectives In this
