Peshchernye Goroda V Krymu:

Christianizing Crimea Mara Kozelsky, 2010 In nineteenth century Russia religious culture permeated politics at the highest levels and Orthodox Christian groups including refugees from the Russo Ottoman wars as well as the church itself influenced Russian domestic and foreign policy Likewise Russian policy with the Ottoman Empire inspired the creation of a holy place in ethnically and religiously diverse Crimea Looking to the monastic state of Mount Athos in Greece Orthodox Church authorities in the mid 1800s attempted to create a monastic community in Crimea which they called Russian Athos The Crimean War catalyzed the Russian Christianization that had begun decades earlier and decimated Crimea s Muslim population Wartime propaganda portrayed Crimea as the cradle of Russian Christianity and by the end of the war the Black Sea Region acquired a Christian identity The same interplay of religion politics and culture has found new ground in Crimea today as its sacred monuments and ruins lie vulnerable to abuse by nationalist groups sparring over the land Christianizing Crimea is the first English language work to analyze the Christian renewal in Crimea Drawing on archives in Odessa Simferopol and St Petersburg that to date have remained untapped by Western scholars Kozelsky provides both a fascinating case study of past and present religious nationalism in Eastern Europe and an examination of the political conflicts and compromises endemic to holy places She explores the diverse strategies of church expansion the importance of Byzantine history and the Greek population the assimilation of local pagan and Tatar traditions into sacred narratives the crafting of Russian identity through print culture and Crimea s re Christianizing in the post Soviet era Kozelsky s unique approach joins the fields of contemporary history religion and archaeology to show how Crimea has been reshaped as a holy place Christianizing Crimea will appeal to both scholars and general readers who are interested in past and current religious and political conflicts **Catalogue: Authors** Peabody Museum of Archaeology and Ethnology. Library, 1963 *Selective Remembrances* Philip L. Kohl, Mara Kozelsky, Nachman Ben-Yehuda, 2008-11-15 When political geography changes how do reorganized or newly formed states justify their rule and create a sense of shared history for their people Often the essays in *Selective Remembrances* reveal they turn to archaeology employing the field and its findings to develop nationalistic feelings and forge legitimate distinctive national identities Examining such relatively new or reconfigured nation states as Iran Iraq Turkey Israel Russia Ukraine India and Thailand *Selective Remembrances* shows how states invoke the remote past to extol the glories of specific peoples or prove claims to ancestral homelands Religion has long played a key role in such efforts and the contributors take care to demonstrate the tendency of many people including archaeologists themselves to view the world through a religious lens which can be exploited by new regimes to suppress objective study of the past and justify contemporary political actions The wide geographic and intellectual range of the essays in *Selective Remembrances* will make it a seminal text for archaeologists and historians **Catalogue** Peabody Museum of Archaeology and Ethnology.
