Hosea: A Textual Commentary Mayer I. Gruber, 2017-07-27 Mayer I Gruber provides a new commentary on and translation of Hosea Building upon his work that debunked the myth of sacred prostitution Gruber now goes on to show that the book of Hosea repeatedly advocates a single standard of marital fidelity for men and women and teaches cheated women to fight back Gruber employs the latest and most precise findings of lexicography and poetics to solve the difficulties of the text and to determine both how Hosea can be read and what this means The translation differs from classical and recent renderings in eliminating forms and expressions which are neither modern English nor ancient Hebrew Referring to places events and material reality of the 9th and 8th centuries BCE Gruber uncovers the abiding messages of the heretofore obscure book of Hosea As in previous studies Gruber employs the insights of behavioral sciences to uncover forgotten meanings of numerous allusions idioms similes and metaphors Judicious use is made also of textual history reception history and personal voice criticism One of the least biblical books now speaks more clearly to present and future audiences than it did to many previous audiences

Corpus Linguistics and Textual History Percy van Keulen, Willem Th. van Peursen, 2018-07-17 Over the years the use of computers for research has become increasingly important in Biblical Studies However a combination of computational linguistics with diachronic text critical and text historical approaches has hardly ever taken place Quite often there is mutual misunderstanding between computational linguistics and more traditional approaches in the field of linguistics and textual analysis For example in computer assisted research of modern text corpora it is common to treat the text as an unequivocal and unidimensional sequence of characters In Biblical Studies however either text is considered an abstraction the result of a scholarly reconstruction based on the extant textual witnesses Here a fundamental difference in approach reveals itself The present volume tries to overcome the misunderstanding between the various disciplines and to establish how a fruitful interaction of information technology linguistics and textual criticism can contribute to the analysis of ancient texts It addresses questions concerning the confrontation between synchronic and diachronic approaches the role of linguistic analysis in the interpretation of texts and the interaction of linguistic theory and the analysis of linguistic data The first section of this volume contains the papers presented at the CALAP seminar 2003 In the second section different aspects of the interdisciplinary analysis are applied to a selected passage from the Peshitta of Kings *Biblical Hebrew, Biblical Texts* Ada Rapoport-Albert, Gillian Greenberg, 2001-12-01 This collection focuses on the Hebrew Bible its ancient versions and textual history These are the fields in which the late Dr Weitzman had made his name and the volume commemorates his

lifetime's work so prematurely ended. But it also stands on its own as an authoritative statement of current research in these and closely related fields. Contributors include Edward Ullendorff, Andrew Macintosh, Robert Gordon, Hugh Williamson, Gillian Greenberg, Jan Joosten, Sebastian Brock, Michael Knibb, Philip Alexander, George Brooke, and Alison Salvesen. Special attention is given to the exegetical aspects of the textual transmission, literary issues, and the problem of the original shape of the biblical text. This is a solid and durable work which, given its technical character, is written in a readable way. Frank Moore Cross, Harvard University. Nowhere else can you find such a thorough presentation of how the Bible was transmitted in Second Temple times. This excellently written handbook represents a major step forward for biblical studies. Lawrence Schiffman, New York University. History will surely regard Emanuel Tov's monumental work as the definitive discussion of textual criticism of this generation. A must have for any serious scholar of the Bible. Sidnie A. White, University of Nebraska. The basic reference work on the textual criticism of the Hebrew Bible for at least the next decade. This is a magisterial work which is badly needed and masterfully done. Journal for the Study of Judaism. This book will soon be viewed as a classic of biblical studies. Ralph W. Klein, Journal of Religion. Replete with examples, tables, plates, lucid definitions, and explanations, as well as extensive bibliographies, the volume brings together a wealth of information not previously so accessible and makes the theory and practice of textual criticism easily understandable and visually clear. Judith E. Sanderson, Seattle University.
