Legislative Calendar United States. Congress. House. Committee on Agriculture, 2001 Toward Safer Food Sandra Hoffmann, Michael R. Taylor, 2010-09-30 In 1998 a National Academy of Sciences panel called for an integrated risk based food safety system This goal is widely embraced but there has been little advance in thinking about how to integrate

knowledge about food safety risks into a system wide risk analysis framework Such a framework is the essential scientific basis for better priority setting and resource allocation to improve food safety Sandra Hoffmann and Michael Taylor bring together leading scientists risk analysts and economists as well as experienced regulators and policy analysts to better define the priority setting problem and focus on the scientific and intellectual resources available to construct a risk analysis framework for improving food safety *Toward Safer Food* provides a common starting point for discussions about how to construct this framework The book includes a multi disciplinary introduction to the existing data research and methodological and conceptual approaches on which a system wide risk analysis framework must draw It also recognizes that efforts to improve food safety will be influenced by the current institutional context and provides an overview of the ways in which food safety law and administration affect priority setting Hoffman and Taylor intend their book to be accessible to people from a wide variety of backgrounds At the same time they retain the core conceptual sophistication needed to understand the challenges that are inherent in improving food safety The editors hope that this book will help the U S move beyond a call for an integrated risk based system toward its actual construction *Pesticide Data Program* ,1999
