F*CK DATA MESH Martyn Jones, 2025-08-01 Welcome brave soul to a book about data information and data warehousing Yes I know exciting stuff You might think this is going to be a thrilling ride through the wild and woolly world of spreadsheets and servers Or perhaps you expect a riotous romp through the land of acronyms that sound like dodgy cocktails ETL BI SaaS And in many ways you d be right But more importantly this book is your guide to navigating the Upside Down World of data where truth is as slippery as a politician at a fringe festival and quality is often just code for someone else s problem Now before you abandon this tome for a nice walk or a lukewarm pint let me assure you this isn t your typical tech manual promising to turn you into a data demigod by page 20 No this is a love letter to the chaos the nonsense and the occasional brilliance of the data world told with a nod a wink and a smirk that would make Peter Cook and Dudley Moore raise an eyebrow from beyond Inside you ll find chapters with titles that sound like the rants of a disgruntled barista or the musings of someone who s had one too many meetings about data mesh whatever that is We ll talk about Data Omens Preparing Your Idiot Organisation for Degenerative AI and why Data Warehousing Stands in the Way of Progress Spoiler it s complicated It s like arguing with a Brexit campaigner who s just discovered blockchain and insists it ll fix everything But fear not Amidst the madness there s method if only to spot the charlatans decode the gobbledygook and maybe just maybe find a single version of the truth or at least a decent approximation that won t make you want to throw your laptop out the window *The Data Dialogues* Martyn Richard Jones, 2025-07-25 The world of data information and knowledge is not merely technical It is cultural Philosophical Even spiritual at times It offers the promise of precision in an age of confusion a kind of sacred geometry hiding within spreadsheets APIs and machine learning models At its best this world stretches the human mind challenging how we define truth how we negotiate complexity and how we reconcile seemingly irreconcilable contradictions It is the domain of paradox and possibility But if that sounds a little too poetic for a tech column it s because the real story of data today is more conflicted and more compromised Beneath the surface of the data revolution where we are supposedly unlocking insight at scale and democratising analytics lies a darker current One of opportunism one of illusion The world of data is not just full of brilliant engineers and thoughtful epistemologists it s also teeming with chancers charlatans and con artists A rogues gallery of pitch deck hustlers and clickbait futurists A carnival of snake oil salesmen dressed in TED Talk casual hawking AI powered this and cloud native that with all the depth of a bumper sticker We are in the middle of a data gold rush and like every gold rush in history it has attracted not just pioneers but profiteers *Tragically I Was an Only Twin* Peter Cook, 2003-11-19 This is a unique collection of Cook s finest and funniest writings of which many have never been published before *The Invisible Kingdom* Idan Ben-Barak, 2009-08-04 With the wit of Bill Bryson and the spirit of Natalie Angier Idan Ben Barak takes us on a fantastic voyage into the infinitesimal world of microbiology In *The Invisible Kingdom* he introduces us to the amazing lives and workings of genes proteins bacteria and viruses and the ways in which they interact to

shape life on Earth Exploring everything from radioactive waste and insect sex change operations to the inner workings of antibiotics Ben Barak reveals how important these tiny critters are to all of us He brings this largely unseen world to life with refreshing analogies and metaphors cells pop like bubbles and bacteria dream of rain On the journey we learn about the teamwork required to rot human teeth the origins of diseases what really goes on inside cow stomachs and the ways in which microbes benefit human life An infectious and informative scientific exploration *The Invisible Kingdom* will change the way we see the world around us

Cowpoke Justice William Hopson,2019-11-01 *Cowpoke Justice* first published in 1941 is a fast paced western set in 19th century Montana William Hopson authored a number of popular cowboy and western themed novels in the 1930s 40s From the dust jacket Dud Hardin was coming home to the Montana range country with thirty thousand dollars and a thousand head of cattle acquired along the Rio Grande And the bitterness of fifteen years rolled away from the salty rannihan as he thought of seeing his father once more But his grimness returned threefold when he discovered that both his father and his father s partner had been murdered and that the human vultures who had done it were preparing to take over his ranch Moreover an outlaw had been hired to impersonate the long lost Dud and accused the real son of dry gulching his own father

[Goodbye Again](#) Peter Cook,2005 Peter Cook and Dudley Moore are the greatest double act that Great Britain has ever produced Today it s impossible to imagine modern sketch shows without them If you re a fan of Monty Python The Comic Strip or The Fast Show then you re a fan of Cook and Moore This collection of their works is a comprehensive compilation of the finest sketches that

Cook and Moore ever wrote together from the beginning of their partnership in the groundbreaking stage show *Beyond The Fringe* to the notorious taboo busting Derek and Clive LPs that captured the spirit of punk rock and inspired the scatological anarchy of *Alternative Comedy* Featuring transcripts of one night stands long since almost forgotten such as their Royal Variety performance as well as a wealth of virtually unknown material including previously unpublished scripts for *Not Only But Also* *Goodbye Again* promises to be a revelation even for Cook and Moore s most informed fans As well as illuminating their work this book also promises to shed light on their intimate yet turbulent relationship from a middle class public boarding school background and diminutive club footed Moore working class but with an impressive musical talent came together to develop the closest of partnerships based on an instinctive virtually intuitive sense of humour *Goodbye Again* will chart the extraordinary friendship between the two men and its almost telepathic intensity which not only bought them together but also pulled them apart time after time until their eventual reconciliation
