*The Making of American Liberal Theology* Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

**The Many Altars of Modernity** Peter L. Berger, 2014-09-11 This book is the summation of many decades of work by Peter L Berger an internationally renowned sociologist of religion Secularization theory which saw modernity as leading to a decline of religion has been empirically falsified It should be replaced by a nuanced theory of pluralism In this new book Berger outlines the possible foundations for such a theory addressing a wide range of issues spanning individual faith interreligious societies and the political order He proposes a conversation around a new paradigm for religion and pluralism in an age of multiple modernities The book also includes responses from three eminent scholars of religion Nancy Ammerman Detlef Pollack and Fenggang Yang

**Sociology and the Sacred** Antonius A. W. Zondervan, 2005-01-01 Zondervan begins by presenting an outline of Rieff's entire body of work focussing on his theory of culture and explaining how the sacred is a key notion pivotal to the overall understanding of Rieff's work The author argues that the present upsurge in religion in many varieties throughout the world cannot be explained by the classical secularization thesis making

Rieff's theory of sacred order in culture an essential contribution to a new social theory of religion , Ninian Smart on World Religions: Religious experience and philosophical analysis. I. Autobiographical. 'Methods in my life' Ninian Smart,2009

Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research An unending string of publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first time a selection of Ninian Smart's wide ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster

**Beyond Biblical Theology** Timo Eskola,2013-10-02 Reading Heikki Rissanen's hermeneutics in context Timo Eskola explores the development of Western New Testament interpretation Reclaiming a Wredean approach to the Scriptures Rissanen focuses on tradition and interpretation He builds on Weberian sociology adopted through Peter Berger's theories and substitutes sacralized culturalism for biblical theology After examining fourteenth century Quran criticism and its impact on Reimarus Eskola discusses the genesis of the revised history of religion theory that Rissanen developed when investigating the Quran's relationship to the Bible Sociology then becomes a link between standard historicism and poststructuralism as Rissanen reinterprets Berger's sociology of knowledge Rissanen's sacralized culturalism finally becomes the theory from which his magnum opus *The Rise of Christian Beliefs* has been written

*Religious Confession Privilege and the Common Law* A. Keith Thompson,2011-04-11 Does religious confession privilege exist at common law Most evidence law texts answer no This analysis shows that most of the cases relied upon for the no religious confession privilege conclusion are not authority for that conclusion The origin of the privilege in the canon law in the first millennium AD is traced and its reception into common law is documented Proof that religious confession privilege continues unbroken at common law through to the present day is of obvious importance in jurisdictions where there is no relevant statute A correct understanding of the common law extant before statutes were passed will influence whether those statutes are broadly or narrowly interpreted The book also brings the reader up to date on the state of religious confession privilege in the United States Canada England Wales Scotland Ireland Australia New Zealand and South Africa

*The Science of Religion: A Defence* Donald Wiebe,2018-10-16 Donald Wiebe Professor of Philosophy of Religion at Trinity College University of Toronto has spent much of his academic career arguing for a clear demarcation between Theology and Religious Studies *The Science of Religion A Defence* offers a brilliant overview of Professor Wiebe's contributions on

methodology in the academic study of religion of the development of his thinking over time and of his intellectual commitment to a science of religion The work is divided into three parts The first part identifies pertinent connections between religion religious studies and science and why reductionism in the academic study of religion when properly applied can bridge the explanatory gap between the sceptic and the devotee The second part treats conceptual debates in the academic study of religion with particular reference to the place of belief understanding and meaning in the modern study of religion The third part addresses the theological resistance to the scientific study of religion and how that resistance can be overcome Finally two new essays are included a critique on *The Preconceptions of a Science of Religion* by Anthony J Palma and an accompanying reply by Donald Wiebe *The Science of Religion A Defence* is an essential resource for both scholarly and non scholarly audiences alike and will be of particular interest to both defenders and critics of a scientific study of religion
