Mike Kelley - Peter Fischli, David Weiss Ingvild Goetz, Mike Kelley, Rainald Schumacher, 2000 Essays by Bice Curiger Patrick Frey Boris Groys Mike Kelley Daniel Kothenschulte **Album** Daniel Kurjaković, 2007 Beautifully designed text heavy and smart Album is a deliberately unrepresentative compilation of genre hopping textual and visual material placed in orbit around the work of the influential young Swiss artists Urs Fischer Yves Netzhammer Ugo Rondinone and Christine Streuli all of whom were born in the early to mid 1970s and all of whom represented Switzerland at the 2007 Venice Biennale Finely printed on uncoated paper the book includes specially commissioned critical texts conversations reports and visual essays that address sometimes straightforwardly sometimes obliquely the larger issues implied in this group's work such as notions of time the animal and the human shock and materiality With a similarly eclectic mix of historical analysis literary tableau and art world journalism the book imagines a psycho geography of Switzerland from its Alps to its art filled bunkers Sensitive to the nature of its context informative and discursive rather than promotional the book is rounded off with a survey on the future of biennials in relation to the present day fair mania and a selection of critical views *Aesthetics and Its Discontents* Jacques Rancière, 2009-08-17 Translated by Steven Corcoran Only yesterday aesthetics stood accused of concealing cultural games of social distinction Now it is considered a parasitic discourse from which artistic practices must be freed But aesthetics is not a discourse It is an historical regime of the identification of art This regime is paradoxical because it founds the autonomy of art only at the price of suppressing the boundaries separating its practices and its objects from those of everyday life and of making free aesthetic play into the promise of a new revolution Aesthetics is not a politics by accident but in essence But this politics operates in the unresolved tension between two opposed forms of politics the first consists in transforming art into forms of collective life the second in preserving from all forms of militant or commercial compromise the autonomy that makes it a promise of emancipation This constitutive tension sheds light on the paradoxes and transformations of critical art It also makes it possible to understand why today's calls to free art from aesthetics are misguided and lead to a smothering of both aesthetics and politics in ethics **Peter Fischli, David Weiss** Peter Fischli, David Weiss, 1992 Peter Fischli et David Weiss laborent une oeuvre commune depuis 1979 Ils portent un regard extérieur voire excentrique sur notre société esthétique populaire les merveilles de l'univers le jeu les objets de supermarché l'architecture la morale sont les matériaux divers de leur création **Photography Reframed** Ben Burbridge, Annebella Pollen, 2020-09-10 At a critical point in the development of photography this book offers an engaging detailed and far reaching examination of the key issues that are defining contemporary photographic culture Photography Reframed addresses the impact of radical technological social and political change across a diverse set of photographic territories the ontology of photography the impact of mass photographic practice the public display of intimate life the current state of documentary and the political possibilities of photographic culture These lively accessible essays by some of the best writers

in photography together go deep into the most up to date frameworks for analysing and understanding photographic culture and shedding light on its histories Photography Reframed is a vital road map for anyone interested in what photography has been what it has become and where it is going

Heidegger and the Work of Art History Amanda Boetzkes, 2017-07-05 Heidegger and the Work of Art History explores the impact and future possibilities of Heidegger's philosophy for art history and visual culture in the twenty first century Scholars from the fields of art history visual and material studies design philosophy aesthetics and new media pursue diverse lines of thinking that have departed from Heidegger's work in order to foster compelling new accounts of works of art and their historicity This collected book of essays also shows how studies in the history and theory of the visual enrich our understanding of Heidegger's philosophy In addition to examining the philosopher's lively collaborations with art historians and how his longstanding engagement with the visual arts influenced his conceptualization of history the essays in this volume consider the ontological and ethical implications of our encounters with works of art the visual techniques that form worlds how to think about things beyond human centred relationships the moods dispositions and politics of art's history and the terms by which we might rethink aesthetic judgment and the interpretation of the visible world from the early modern period to the present day

Atlas, or the Anxious Gay Science Georges Didi-Huberman, Shane B. Lillis, 2018-10-11 Aby Warburg's Mnemosyne Atlas 1925 1929 is a prescient work of mixed media assemblage made up of hundreds of images culled from antiquity to the Renaissance and arranged into startling juxtapositions Warburg's allusive atlas sought to illuminate the pains of his final years after he had suffered a breakdown and been institutionalized It continues to influence contemporary artists today including Gerhard Richter and Mark Dion In this illustrated exploration of Warburg and his great work Georges Didi Huberman leaps from Mnemosyne Atlas into a set of musings on the relation between suffering and knowledge in Western thought and on the creative results of associative thinking Deploying writing that delights in dramatic jump cuts reminiscent of Warburg's idiosyncratic juxtapositions and drawing on a set of sources

that ranges from ancient Babylon to Walter Benjamin Atlas or the Anxious Gay Science is rich in Didi Huberman's trademark combination of élan and insight **Slideshow** M. The Photographic Art Market ,2007 The Original Copy Roxana Marcoci, Geoffrey Batchen, Tobia Bezzola, 2010 Since its birth in the first half of the 19th century photography has offered extraordinary possibilities of isolating works of art for study and pleasure Through cropping focus angle of view distance and lighting as well as the ex post facto techniques of dark room manipulation collage montage and assemblage photographers not only interpret the artworks they record but create stunning reinventions The Original Copy Photography of Sculpture 1939 to Today presents a critical examination of the intersections between photography and sculpture Through a selection of nearly 300 outstanding pictures by more than 100 artists from the 19th century to the present The Original Copy explores how one medium has become implicated in the understanding of the other Photographs reproduced in this richly illustrated volume range in subject from inanimate objects to performing bodies and include major works by medium's most influential artists from early modernism to the present

Artbibliographies Modern ,2004 *The Wire* ,2007 **Photography and Collaboration** Daniel Palmer, 2020-09-14

Photography and Collaboration offers a fresh perspective on existing debates in art photography and on the act of photography in general. Unlike conventional accounts that celebrate individual photographers and their personal visions, this book investigates the idea that authorship in photography is often more complex and multiple than we imagine, involving not only various forms of partnership between photographers but also an astonishing array of relationships with photographed subjects and viewers. Thematic chapters explore the increasing prevalence of collaborative approaches to photography among a broad range of international artists from conceptual practices in the 1960s to the most recent digital manifestations. Positioning contemporary work in a broader historical and theoretical context, the book reveals that collaboration is an overlooked but essential dimension of the medium's development and potential.

Arte y archivo, 1920-2010 Anna María Guasch, 2011-02-11. El arte de las primeras vanguardias se suele analizar bajo dos grandes paradigmas: el de la obra única cuyo carácter de singularidad deriva de la ruptura formal y del efecto shock, y el de la multiplicidad dominado por la discontinuidad del espacio soporte. Pero hay un tercer paradigma generalmente olvidado: el del archivo. A su estudio se ha dedicado este libro, en el que se analizan sus fuentes, sus precedentes, su desarrollo y sus principales ejemplos a lo largo del siglo XX y los del XXI ocupándose del trabajo de los artistas visuales que registran, coleccionan, almacenan o crean imágenes que archivadas han devenido inventarios, tesauros, atlas o álbumes. Artistas que se valen del archivo como un nexo entre la memoria y la escritura, como un territorio fértil para todo escrutinio teórico e histórico o como un lugar para reconstruir visiones utópicas.

Théâtre et Nouveaux matérialismes Hervé Guay, Jean-Marc Larrue, Nicole Nolette, 2023-08-14 T00:00:00-04:00. La matière ce qu'on appelle les objets dans la langue courante n'est pas inerte, elle a une capacité d'agir, elle est vibrante pour reprendre l'expression célèbre de Jane Bennett. Ce premier constat entraîne un second: si la matière possède intrinsèquement une telle capacité, c'est donc qu'elle n'agit pas seulement par ce que l'humain en fait ou lui fait faire. Les Nouveaux matérialismes reposent ainsi sur ces deux fondements et marquent une rupture radicale avec l'anthropocentrisme qui a fortement influencé la pensée occidentale. D'abord apparu dans le champ de la philosophie au début des années 2000, ce courant s'est rapidement étendu à celui des arts visuels, de l'éducation, des sciences politiques et économiques, puis de l'informatique et des études médiatiques. Curieusement, le théâtre s'entremet et interagit de temps immémoriaux, les agents humains et les matérialités de toutes sortes technologiques aussi bien que naturelles, est resté imperméable à ce développement qui le concerne pourtant au premier chef. Cet ouvrage propose une première incursion des concepts clés des Nouveaux matérialismes dans le champ des études théâtrales en français. Combinant réflexions théoriques et études de cas, la vingtaine de textes réunis ici donne un riche aperçu de ce que peut apporter ce renouveau théorique à l'analyse du spectacle, autant dans ses méthodes que dans ses objets.
