Knut Hamsun critiques industrialization's erosion of communal bonds while its protagonist's friendship with the ailing Boppi introduces a leitless yet redemptive humanism Praised by Rilke for its unflinching emotional honesty Peter Camenzind established Hesse as a literary force The novel's ambivalence toward artistic ambition simultaneously exalted and renounced reflects the author's own fraught relationship with fame Its English editions occasionally titled *The Longing of Peter Camenzind* preserve the text's unresolved tension between romantic retreat and societal engagement a dialectic that would dominate Hesse's subsequent explorations of selfhood This new edition features a fresh contemporary translation of Hesse's early work making his philosophical existentialist literature accessible to modern readers from the original Fraktur manuscripts Enhanced by an illuminating Afterword focused on Hesse's personal and intellectual relationship with Carl Jung a concise biography a glossary of essential philosophical terms integral to his writings his version of Jungian Psychological concepts and a detailed chronology of his life and major works this robust edition introduces the reader to the brilliance of his literature in context It not only captures the depth and nuance of Hesse's thought but also highlights its enduring impact on the debates of the mid 20th century contemporary culture and Western Philosophy across the 20th century and into the 21st

 Hesse,2001 **Descriptive Translation Studies - and beyond** Gideon Toury,2012-11-21 This is an expanded and slightly
 revised version of the book of the same title which caused quite a stir when it was first published 1995 It thus reflects an
 additional step in an ongoing research project which was launched in the 1970s The main objective is to transcend the
 limitations of using descriptive methods as a mere ancillary tool and place a proper branch of DTS at the very heart of the
 discipline between the theoretical and the applied branches Throughout the book theoretical and methodological discussions
 are illustrated by an assortment of case studies the emphasis being on the need to take whatever one wishes to focus on
 within the contexts which are relevant to it Part One discusses the pivotal position of the descriptive branch within
 Translation Studies and Part Two then outlines a detailed rationale for that positioning This in turn supplies a framework for
 the case studies comprising Part Three where a number of exemplary issues are analysed and contextualized texts and modes
 of translational behaviour are situated in their cultural setting and textual components are related to their texts and then also
 to the cultural constellations in which they are embedded All this leads to Part Four which asks what the knowledge

accumulated through descriptive studies of the kind advocated in the book is likely to yield in terms of both the theoretical and the applied branches of the field All in all an innovative thought provoking book which no one with a keen interest in translation can afford to ignore

Descriptive Translation Studies and Beyond Gideon Toury, 1995 A replacement of the author's well known book on Translation Theory In Search of a Theory of Translation 1980 this book makes a case for Descriptive Translation Studies as a scholarly activity as well as a branch of the discipline having immediate consequences for issues of both a theoretical and applied nature Methodological discussions are complemented by an assortment of case studies of various scopes and levels with emphasis on the need to contextualize whatever one sets out to focus on Part One deals with the position of descriptive studies within TS and justifies the author's choice to devote a whole book to the subject Part Two gives a detailed rationale for descriptive studies in translation and serves as a framework for the case studies comprising Part Three Concrete descriptive issues are here tackled within ever growing contexts of a higher level texts and modes of translational behaviour in the appropriate cultural setup textual components in texts and through these texts in cultural constellations Part Four asks the question What is knowledge accumulated through descriptive studies performed within one and the same framework likely to yield in terms of theory and practice This is an excellent book for higher level translation courses
