Peter Dillon Of Vanikoro Chevalier Of The South Seas:

Peter Dillon of Vanikoro James Wightman Davidson,1975 Cannibal Talk Gananath Obeyesekere,2005-06-06 In this radical reexamination of the notion of cannibalism Gananath Obeyesekere offers a fascinating and convincing argument that cannibalism is mostly cannibal talk a discourse on the Other engaged in by both indigenous peoples and colonial intruders that results in sometimes funny and sometimes deadly cultural misunderstandings Turning his keen intelligence to Polynesian societies in the early periods of European contact and colonization Obeyesekere deconstructs Western eyewitness accounts carefully examining their origins and treating them as a species of fiction writing and seamen s yarns Cannibalism is less a social or cultural fact than a mythic representation of European writing that reflects much more the realities of European societies and their fascination with the practice of cannibalism he argues And while very limited forms of cannibalism might have occurred in Polynesian societies they were largely in connection with human sacrifice and carried out by a select community in well defined sacramental rituals Cannibal Talk considers how the colonial intrusion produced a complex self fulfilling prophecy whereby the fantasy of cannibalism became a reality as natives on occasion began to eat both Europeans and their own enemies in acts of conspicuous anthropophagy **The Cambridge History of the Pacific**

Ocean: Volume 2, The Pacific Ocean since 1800 Anne Perez Hattori,Jane Samson,2023-01-05 Volume II of The Cambridge History of the Pacific Ocean focuses on the latest era of Pacific history examining the period from 1800 to the present day This volume discusses advances and emerging trends in the historiography of the colonial era before outlining the main themes of the twentieth century when the idea of a Pacific centred century emerged It concludes by exploring how history and the past inform preparations for the emerging challenges of the future These essays emphasise the importance of understanding how the postcolonial period shaped the modern Pacific and its historians Waves Across the South Sujit Sivasundaram,2021-05-07 This is a story of tides and coastlines winds and waves islands and beaches It is also a retelling of indigenous creativity agency and resistance in the face of unprecedented globalization and violence Waves Across the South shifts the narrative of the Age of Revolutions and the origins of the British Empire it foregrounds a vast southern zone that ranges from the Arabian Sea and southwest Indian Ocean across to the Bay of Bengal and onward to the South Pacific and the Tasman Sea As the empires of the Dutch French and especially the British reached across these regions they faced a surge of revolutionary sentiment Long standing venerable Eurasian empires established patterns of trade and commerce and indigenous practice also served as a context for this transformative era In addition to bringing long ignored people and events to the fore Sujit Sivasundaram opens the door to new and necessary conversations about environmental history the consequences of historical violence the legacies of empire the extraction of resources and the indigenous futures that Western imperialism cut short The result is nothing less than a bold new way of understanding our global past one that also helps us think afresh about our shared future *Who's Who in Pacific Navigation* John Dunmore,2019-09-30 More than four

centuries have passed since Europeans first set eyes on the Pacific that vast ocean about which earlier generations had theorized and fantasized They soon ventured forth in search of undiscovered lands unknown peoples and imagined riches Eventually the Pacific came to reflect the rivalries of Europe as Spanish explorers were followed by the Dutch the English and the French and then by traders and colonizers Now for the first time collected in a single convenient reference volume readers will be able to find details of the lives and achievements of those who took part in this great era of exploration This biographical dictionary includes the major figures of the voyages of exploration as well as missionaries traders whalers naturalists and others who by accident or design contributed to European discovery in the Pacific between the sixteenth and early twentieth centuries Scholars and others interested in this era will be able to identify easily and promptly the people they come across in their reading situate them in their proper context and gain an idea of their background travels and achievements John Dunmore has scrutinized a wealth of primary and secondary sources to amass the information collected here Some biographies are lengthy noted individuals like Cook have spawned a massive bibliography while others reflect the sparsity of the historical record Who's Who in Pacific Navigation includes a detailed bibliography organized by country to aid those wishing to delve further into any subject The comprehensive index makes the information in the volume easily accessible

Ireland's Farthest Shores Malcolm Campbell, 2022-01-20 Irish people have had a long and complex engagement with the lands and waters encompassing the Pacific world As the European presence in the Pacific intensified from the late eighteenth century the Irish entered this oceanic space as beachcombers missionaries traders and colonizers During the nineteenth century economic distress in Ireland and rapid population growth on the Pacific Ocean's eastern and western shores set in motion large scale migration that exerted a deep political social and economic impact across the Pacific Malcolm Campbell examines the rich history of Irish experiences on land and at sea offering new perspectives on migration

and mobility in the Pacific world and of the Irish role in the establishment and maintenance of the British Empire This volume investigates the extensive transnational connections that developed among Irish immigrants and their descendants across this vast and unique oceanic space ties that illuminate how the Irish participated in the making of the Pacific world and how the Pacific world made them *The Origins of an Experimental Society* Erik Olssen, 2025-04-10 In this major work one of our leading historians offers a new account of the origins of New Zealand how Pakeha settlers a Better Britain While both experiments were first conceived by savants and philosophers they gained ongoing support by lodging in the hearts and minds of the settlers whalers and missionaries mothers and farmers In turn Maori adapted these new ideas to their own ends giving up slavery and inter tribal warfare and adapting the institutions of the colonisers in ways that would re define the experiments This then is an ethnography of tangata Pakeha a people of European descent changed by their encounters with tangata Maori and their land just as Maori were themselves changed and the story of the society they built together Ranging across intellectual and cultural history from the beach at Paihia to the coffee houses of Paris Olssen enables us to understand the origins of New Zealand anew *A History of the Pacific Islands* Deryck Scarr, 2013-12-16 A book about the past and present Pacific Islands wide ranging in time and space spanning the centuries from the first settlement of the islands until the present day **Body Trade** Barbara Creed, Jeanette Hoorn, 2013-12-02 Body Trade exposes myths surrounding the trade in heads cannibalism captive white women the display of indigenous people in fairs and circuses the stolen generations the comfort women and the making of the exotic erotic body This is a lively and intriguing contribution to the study of the postcolonial body **Explorations Into the World of Lewis and Clark V-3 of 3** Robert A. Saindon, 2003 Volume 3 of 3 This 3 volume anthology of 194 articles with 102 maps and illustrations published between 1974 and 1999 in We Proceeded On The quarterly journal of the Lewis and Clark Trail Heritage Foundation Contributors include Stephen Ambrose John Logan Allen Paul Russell Cutright among other professional and amateur Lewis and Clark scholars Vol 1 ISBN 1582187614 Vol 2 ISBN 1582187630 Vol 3 1582187657 *Pursuing Respect in the Cannibal Isles* Nancy Shoemaker, 2019-11-15 Full of colorful details and engrossing stories Pursuing Respect in the Cannibal Isles shows that the aspirations of individual Americans to be recognized as people worthy of others respect was a driving force in the global extension of United States influence shortly after the nation s founding Nancy Shoemaker contends that what she calls extraterritorial Americans constituted the vanguard of a vast early US global expansion Using as her site of historical investigation nineteenth century Fiji the cannibal isles of American popular culture she uncovers stories of Americans looking for opportunities to rise in social status and enhance their sense of self Prior to British colonization in 1874 extraterritorial Americans had she argues as much impact on Fiji as did the British While the American economy invested in the extraction of sandalwood and sea slugs as resources to sell in China individuals who went to Fiji had more complicated personal objectives Pursuing Respect in the Cannibal Isles considers these motivations through the lives of the three Americans who left the deepest imprint on Fiji a

runaway whaler who settled in the islands a sea captain's wife and a merchant Shoemaker's book shows how ordinary Americans living or working overseas found unusual venues where they could show themselves worthy of others' respect others' approval admiration or deference Pacific Forest Judith Bennett, 2021-10-25 This book addresses the contending views of the uses of Solomon Island forest Ranging from an examination of the interaction between the first settlers and their forest the book goes on to analyse the attitudes of the British administrators planters and missionaries The colonial government sought to protect the resource but neglected to consider the wishes of the forest's inhabitants in planning for its future economic use The independent governments failed to protect the dwindling forest on customary land in the face of accelerating demands from their own people and of Asian based logging companies while non governmental organisations and aid donors have tried to invoke a more conservative regime of forest use **Haerenga** Vincent O'Malley, 2015-05-04 M ori and Europeans were encountering one another for the first time not just along the shorelines of New Zealand but also on the streets of Melbourne Liverpool and New York From the late eighteenth century M ori travellers spread out from New Zealand across the globe They travelled for a variety of reasons curiosity adventure commerce political missions or duress and were part of an international movement of M ori of surprisingly large scale Most travellers eventually returned home bringing something of their own new world experiences with them These remarkable experiences of voyaging and discovery presented across a series of vignettes also form part of the wider history of M ori and P keh encounter *The Oxford History of the British Empire: Volume V: Historiography* Robin Winks, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future *Bad Colonists* Vernon Lee Walker, Louis Becke, Nicholas Thomas, Richard Eves, 1999 A look at the particularities of colonial life in

the South Pacific through the correspondence of two colonialists *Matthew Flinders, Maritime Explorer of Australia*
Kenneth Morgan, 2016-03-24 This book provides a thoroughly researched biography of the naval career of Matthew Flinders with particular emphasis on his importance for the maritime discovery of Australia Sailing in the wake of the 18th century voyages of exploration by Captain Cook and others Flinders was the first naval commander to circumnavigate Australia's coastline He contributed more to the mapping and naming of places in Australia than virtually any other single person His voyage to Australia on H M S Investigator expanded the scope of imperial geographical and scientific knowledge This biography places Flinders's career within the context of Pacific exploration and the early white settlement of Australia Flinders's connections with other explorers his use of patronage the dissemination of his findings and his posthumous reputation are also discussed in what is an important new scholarly work in the field **The Fiji and New Caledonia Journals of Mary Wallis, 1851-1853** Mary Davis Wallis, 1994
