Preventive Work With Families The Role Of Mainstream Services:

Family Support: Prevention, Early Intervention and Early Help Nick Frost, Shaheen Abbott, Tracey Race, 2015-11-12
Family Support introduces and explores the state of the art in preventative social work with children and young people. Drawing on contemporary thinking and research the book aims to make a contribution to current debates about how we can best support families in need. Underpinning the book is an analysis of how family support is changing having moved from prevention through to contemporary debates about family support early intervention and early help. The authors draw on their own practice experiences to ensure the discussion remains highly relevant to everyday realities. The book consists of three parts. Part I examines the history and context of family support. Part II outlines a number of practice approaches to family support and Part III suggests how family support work can be further developed. The book provides think points and case studies to support the reader in reflecting on the material presented and how this can be best applied as well as including a guide to useful resources. Family Support will be a welcome companion for anyone involved in child welfare and safeguarding services including students at undergraduate and post graduate level practitioners policy makers and academics. *Child Welfare: Issues in child welfare* Nick Frost, 2005 This collection focuses on child welfare in its specific sense welfare and social interventions with children and young people undertaken by State bodies or NGO's. The term child welfare is deployed differently in diverse international settings. In the United Kingdom child welfare tends to refer to individualised programmes for children who have experienced problems in their lives. In India to take a contrasting example it can also refer to major housing and nutrition programmes. This collection takes an inclusive approach to international perspectives. The collection is completed by a new general introduction by the editor individual volume introductions and a full index. Titles also available in this series include *Medical Sociology* November 2004 4 Volumes 495 and the forthcoming collection *Health Care Systems* 2005 3 Volumes c 395. *Preventive Work with Families* Ruth Sinclair, Barbara Hearn, Gillian Pugh, 1997-01-01. **Prevention and Early Intervention with Children in Need** Michael Little, Kevin Mount, 2018-10-26
First published in 1999 this volume examines how in the middle of the nineteenth century Dr John Snow is reputed to have wrenched the handle from a street pump in central London forcing people in the neighbourhood to change their drinking habits and so preventing them from contracting cholera from the dirty water. Aspects of the story may be apocryphal but the general drift of Snow's assault on disease has enormous appeal for health education social services and police professionals working with children in need. Why spend so much time struggling to find strategies to cope with the more intractable problems among adolescents when the problems might be prevented from occurring in the first place. This book tries to untangle some of the complex ideas that underpin effective prevention and early intervention activity on behalf of children experiencing social or psychological difficulty. It describes twenty programmes from Europe and America that have made an impact and where there has been an attempt to evaluate their usefulness. On this basis it suggests some principles for more

effective preventive practice **Pathways and Crime Prevention** Alan France, Ross Homel, 2013-06-17 Deals with the development of prevention policies and approaches that involve intervention early in the lives of children young people and their families This book explores evidence that has been emerging from longitudinal and developmental prevention research

The choice of the word foundation to describe this first stage of learning has emphasised the importance of children's earliest experiences in underpinning all their subsequent attitudes and achievements. In this innovative and challenging book Julie Fisher has brought together some of the country's leading early years specialists to explore how educators can establish firm foundations for young children's learning. The themes in the book are stimulated by the metaphor of foundations with an introduction by an architect who explains the principles of establishing firm foundations for buildings. Each of these established engineering principles is then creatively explored from an educational perspective as the authors seek to question how the foundations laid for buildings can offer fresh insights into the principles for creating firm foundations for learning.

Enhancing the Well-being of Children and Families through Effective Interventions Wendy Rose, Professor Colette McAuley, Peter Pecora, 2006-01-30

Services for families and children are rightfully the focus of intense scrutiny and debate and there is a clear need to establish a knowledge of which services work well. This volume provides a comprehensive overview of research evidence from the UK and USA on the effectiveness of selected child welfare interventions.
